The following description of the Los Angeles Trucks Centers, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Los Angeles Trucks Centers, LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company is the Plan's sponsor and an employee of the Company serves as Plan administrator.

Eligibility

Employees are eligible to make elective deferrals upon reaching the age of 18 and after completing three months of service. Employees may enter the Plan on January 1, April 1, July 1, and October 1, after eligibility requirements are met.

Contributions

Participants can elect to make tax-deferred contributions and/or Roth after-tax contributions to the Plan, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to the IRC maximum. Participants may also contribute amounts representing distributions from other qualified plans which are reflected as rollover contributions in the statement of changes in net assets available for benefits. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible participants are automatically enrolled in the Plan, unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in designated balanced funds until changed by the participant. The automatic deferral rate increases 1% up to a maximum of 6% on the first day of each Plan year unless the participant elects a different deferral rate.

The Plan provides for an employer matching contribution, in which the Company will match 100% of a participant's elective deferral, up to 6% of the participant's eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions as well as allocations of the Company's matching contributions, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan, as applicable. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions and related net earnings are fully vested at all times. Company contributions and related net earnings vest at a rate of 20% per year of service and are fully vested after five years of service. Upon retirement, disability or death, account balances become 100% vested. If a participant's employment terminates before full vesting of the Company's contributions and related earnings is attained, the remaining non-vested balances are forfeited and will be used to pay Plan administrative expenses and reduce future Company contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance ("Notes"). The Notes are secured by the balance in the participant's account and bear a reasonable rate of interest (prime rate plus 2%). The maximum number of Notes outstanding at any one time is one. Notes must be repaid within five years, unless such loan is for the purchase of a participant's primary residence, in which case the repayment period shall be no more than fifteen years. As of December 31, 2018, the Notes outstanding had interest rates ranging from 4.25% to 9.25%, maturing on various dates through August 2033. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. The Plan permits in-service withdrawals if the participant has attained the age of 59½, and hardship distributions are permitted if a participant meets certain criteria, as defined in the Plan document.

If, upon termination of employment, the value of the vested portion of a participant's account is $5,000 or less, it will automatically be distributed as soon as administratively feasible. For participants with account balances in excess of $5,000, no distribution will occur until participant consent is obtained.

Forfeitures

Forfeitures from non-vested terminated participant accounts are used to reduce employer contributions. During the year ended December 31, 2018, $109,924 was used to reduce the Company's contributions. As of December 31, 2018 and 2017, the balance of forfeited non-vested accounts was $4,227 and $3,288, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein,

and disclosure of contingent assets and liabilities. Actual results could differ materially from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by Transamerica Life Insurance Company, Inc. ("Transamerica"). See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Management determines the collectability of notes receivable from participants on a periodic basis. This determination is made based on the terms of the Plan document and the related Plan policies and procedures. If notes receivable from participants are deemed to be uncollectible, they are written off and included as benefits paid to participants in the financial statements and deemed distributions in the Form 5500 for financial reporting purposes in the year the determination is made. Amounts recovered on notes receivable from participants previously deemed uncollectible are reported as a reduction of benefits paid to participants in the financial statements and the Form 5500 for financial reporting purposes in the year the recovery is made.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to participant initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments. Administrative expenses paid by the Plan totaled $260,660 for the year ended December 31, 2018.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests in various investment options that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Recently Issued Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying and adding certain disclosures. ASU 2018-13 removes the following disclosures: the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers; the valuation process for Level 3 fair value measurements; and changes in the unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The ASU modifies the following disclosure requirements: transfers in and out of Level 3 and purchases and issues of Level 3 assets and liabilities; for investments in certain entities that calculate net asset value, the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse if timing has been communicated or announced publicly; and clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. The additional disclosures required under ASU 2018-13 are applicable only for public entities. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Certain amendments of the ASU may be applied prospectively while others should be applied retrospectively to all periods presented upon the effective date. It is permissible to early adopt any removed or modified disclosures and delay adoption of the additional disclosures, if applicable, until the effective date. Plan management is currently evaluating the impact that the ASU will have on the Plan's financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standard setting bodies are not expected to have a material impact on the Plan's net assets available for benefits, or changes in net assets available for benefits.

3. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement* ("ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used as of December 31, 2018 and 2017. The following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: The Plan invests in a stable value fund held within a common collective trust that is composed of fully benefit-responsive investment contracts and is valued at the NAV. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Generally, there are no restrictions on a participant's ability to redeem their investment in the stable value fund at the investment's NAV. However, withdrawals prompted by certain events (e.g., termination of the stable value fund, changes in laws or regulations) may restrict a participant's ability to redeem the investment at its NAV. At December 31, 2018 and 2017, the Plan had no unfunded commitments related to this investment.

The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The remainder of this page intentionally left blank.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	Investments at Fair Value as of December 31, 2018

** Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.*

4. Tax Status

The Plan document is based on a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and continues to qualify for tax-exempt status.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Information Certified by Transamerica

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica, has certified that the following data included in the accompanying financial statements and supplemental schedule Form 5500, Schedule H, line 4i - Schedule of Assets (Held at End of Year) – as of December 31, 2018, and investment values in Note 3 are complete and accurate:

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules, as instructed by the Plan administrator.

6. Parties-in-Interest Transactions

Transamerica is a party-in-interest as defined by ERISA. Plan investments are managed by a division of Transamerica, and therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

For the year ended December 31, 2018, administrative expenses of $170,553 were paid by the Plan to Transamerica Retirement Solutions, LLC, a division of Transamerica Life Insurance Company, for recordkeeping services and $90,107 was paid to the Plan's investment advisor. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for these services.

7. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions and terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Non-exempt Prohibited Transactions

During the year ended December 31, 2018, the Company failed to remit certain participant contributions totaling $106,039 to the Plan within the time period prescribed by ERISA, as described in 29 CFR 2510.3-102. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company will determine the amount of lost earnings related to the 2018 late contributions and intends to fund the lost earnings during 2019.

9. Subsequent Events

Management has evaluated subsequent events through December 20 2019, the date the financial statements were available to be issued and has determined that there were no material events requiring recognition or disclosure.
