Report of Independent Auditors

To the Trustee
Protingent Employee Stock Ownership Plan and Trust

Report on the Financial Statements

We have audited the accompanying financial statements of Protingent Employee Stock Ownership Plan and Trust (the Plan), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2018, and the related statement of changes in net assets (deficit) available for benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2018, and the changes in net assets (deficit) available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, line 4(i) – schedule of assets (held at end of year) as of December 31, 2018, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Matter – 2017 Financial Statement

The financial statement of the Plan as of December 31, 2017, was audited by predecessor auditors. Their report, dated October 9, 2018, indicated that in their opinion, the financial statement presents fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Note 1 – Description of Plan

The following brief description of Protingent Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General – Protingent, Inc. (Company) established the Protingent Employee Stock Ownership Plan effective January 1, 2011, and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by Principal Life Insurance Co. appointed by Protingent, Inc.'s Board of Directors.

The Plan purchased Company common stock using the proceeds of loans by the Company shareholders (Note 8), guaranteed by the Company and holds the common stock in a Trust established under the Plan. The borrowing is to be repaid over a period of ten years by fully deductible Company contributions to the trust fund.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The lenders have no rights against shares of common stock once they are allocated to participants in accordance with the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2018 and 2017, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with rights in allocated stock (allocated) and
- Stock not yet allocated to employees (unallocated)

Eligibility – Employees of the Company who are not covered under collective bargaining agreements or are non-resident aliens are eligible to participate in the Plan following the completion of one year of service and the attainment of age 18. A participant may enter the Plan on the January 1st or July 1st immediately following fulfilling the eligibility requirements. Eligible participants must have at least 1,000 hours of service and be employed on the last day of the Plan year, unless terminated on or after normal retirement age or due to death or permanent disability, to receive an allocation of Company contributions for that year.

Contributions – The Company is obligated to make contributions in cash to the Plan, which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its notes payable. Employee contributions are not permitted.

Note 1 – Description of Plan (continued)

Participant accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants beginning of the year account balances.

Vesting – Participant accounts vest according to the following schedule:

Credited Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of benefits – Distributions shall be made in accordance with the Plan document when a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Generally, a participant's account shall be distributed in cash through liquidation of shares to remaining participants at a price representative of the fair market value of the stock. If the Plan makes the distribution in Company common stock, the Company has the right to immediately repurchase such shares at fair value.

Upon termination of service, if the participant's balance is $1,000 or less, the balance will be distributed to the participant in a lump sum as soon as administratively feasible; if the balance is more than $1,000 but not more than $5,000, it will be transferred to an Individual Retirement Account designated by the Plan administrator unless elected otherwise by the participant.

Forfeitures – Nonvested portions of participant accounts are forfeited upon termination of service; however, are reinstated in the event of reemployment prior to a five year break in service. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year.

During the year ended December 31, 2018, 42,433 forfeited shares totaling $32,673 were reallocated to remaining participants.

Note 1 – Description of Plan (continued)

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversity a portion of their account.

Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50% of the balance in the participants' account. No diversification election shall be permitted if the balance in a Participant's account has a fair market value of $500 or less as of the allocation date of the first Plan year in the election period.

Voting rights – Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Plan termination – the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan the trustees will be directed to pay all liabilities and expenses of the trust fund and to sell shares of the financed common stock held in the notes payable account to the extent it determines such sale to be necessary in order to repay the notes.

Put option – Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market at any time during two option periods, at the current market fair value. The first put option period runs for a period within 60 days commencing on the date of distribution. The second put option period runs for a period within 60 days after the first anniversary of the first day of the first 60-day period. If participants (or beneficiaries) exercise their put option, the Company must purchase the stock at fair market value (see Note 6). The purpose of the put option is to ensure that participants have the ability to ultimately receive cash in exchange for their shares.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (continued)

Accounting standard update – In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement Disclosure Framework (Topic 820)*. The amendments remove, modify, and add certain fair value disclosure requirements. The updated guidance is effective for fiscal years beginning after December 15, 2019, early adoption is permitted. Management elected to early adopt this ASU for the year ended December 31, 2018. The adoption of this ASU did not have an impact on the Plan's net assets or change in net assets.

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation – The shares of the Company common stock are reported at fair value. See Note 6 for discussion of fair value measurements.

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. The net appreciation in fair value of Protingent, Inc. common stock consists of unrealized appreciation of the Company common stock.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – All expenses of maintaining the Plan are paid by the Company.

Subsequent events – The Plan has evaluated subsequent events through December 31, 2019, which is the date the financial statements were available to be issued.

Note 3 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 28, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Company.

Company contributions are held and managed by the Trustee which makes distributions to participants. The Trustee also administers the payment of interest and principal on the notes, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 5 – Investments

Note 6 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Level 2 – Inputs to the valuation include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table discloses by level the fair value hierarchy as of December 31:

	Fair Value Measurement at December 31, 2018			
	Level 1	Level 2	Level 3	Total
Protingent, Inc. Common stock	$ -	$ -	$ 1,201,200	$ 1,201,200

	Fair Value Measurement at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Protingent, Inc. Common stock	$ -	$ -	$ 592,800	$ 592,800

The following table discloses the summary of changes in the fair value of the Plan's level 3 investment assets:

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2018 and 2017.

The fair market value of the Company common stock held by the Plan is based upon an independent appraisal. This appraisal used the Discounted Cash Flow Method Income-Based Approach. This method uses five-year cash flow forecasts based on management's projections and expectations, in combination with an analysis of historical results and trends and then discounted for lack of marketability.

Note 6 – Fair Value Measurements (continued)

The preceding method described may produce a fair market value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair market value measurement at the reporting date.

The following table sets forth the basic valuation techniques and inputs used in arriving at fair value:

Name	Valuation Technique	Unobservable Inputs
Company Common Stock	Discounted cash flow	Weighted-average cost of capital Long-term revenue growth rate Projected EBITDA

Note 7 – Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets (deficit) available for benefits.

Note 8 – Notes Payable

On June 28, 2012, the two shareholders of Protingent, Inc. agreed to sell to the Plan 1,560,000 shares of common stock of the Company for a purchase price of $3,120,000. The shareholders received a cash payment of $400,000 and two notes, one for each shareholder, for $2,720,000 in aggregate to be paid over ten years. The notes bear interest at 6% per annum and are secured by the unallocated shares. The aggregate principal amount of the notes payable as of December 31, 2018 and 2017, was $1,142,416 and $1,426,957, respectively.

Future maturities of long-term debt at December 31, are as follows:

2019	$ 302,091
2020	320,583
2021	340,496
2022	179,246
	$ 1,142,416

Note 9 – Related-Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and exempt party-in-interest transactions.
