SUMMARY – Schedule SB Attachment

This Actuarial Valuation Report covers the plan year mentioned herein..

An Actuarial valuation of the above plan has been completed based on the assumption that financial and employee census data provided by the plan administrator are complete and accurate. It is based on the actuarial funding method, assumptions and other data set forth in this report.

This report contains exhibits of descriptive material concerning plan provisions, funding methods and assumptions, and other pertinent factors underlying the determination of contribution levels and plan liabilities as well as exhibits of the various actuarial computations made in support of the determination of the contributions. An actual copy of IRS Form 5500 Schedule SB is included in this report.

The funding method used for preparation of Schedule SB is the modified unit credit method required by the Pension Protection Act (PPA). Under this funding method, the Target Normal Cost is the present value of all benefits which are expected to accrue or to be earned under the plan during the plan year. Any benefit attributable to services performed in a preceding plan year that is increased by reason of any increase in compensation during the current plan year shall be treated as having accrued during the current plan year for purposes of determining the Target Normal Cost.

If the plan assets are inadequate to cover the present value of the benefits that were already accrued as of the beginning of the plan year (Funding Target) an additional charge called the Shortfall Installment may also be due. The Funding Target includes an allowance for ancillary death benefits provided under life insurance contracts if any such contracts are owned by the plan.

The recommended contribution may be higher than the minimum required under the PPA mandated funding method. The Individual Aggregate Funding Method is used for comparison purposes to generate a more level funding pattern where applicable.

The Enrolled Actuaries for Coleman-Pension.Com meets the Qualification Standards set forth by the Joint Board for the Enrollment of Actuaries c/o Department of Treasury and Labor pursuant to the Employee Retirement Income Security Act, (ERISA). They are qualified to render the actuarial opinion contained herein.
