(1) Description of plan

The following description of the SRG Global 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan was a defined contribution plan sponsored by SRG Global Inc. (the "Company") for the benefit of its employees who had three months of service. Union employees, non-resident aliens, and leased employees were excluded from participation in the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan merger - Effective April 1, 2019, the Plan merged into Futureguard (EIN 81-4211184, Plan #004) and as of the date of the merger, the Plan ceased to exist. Employees of the Company became eligible to participate in Futureguard effective April 1, 2019.

Contributions - Participants could contribute up to 25% of annual compensation as pre-tax or Roth contributions, as defined by the Plan. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who were making contributions to the Plan, were allowed to make catch-up contributions as defined by the Plan. Participants directed the investment of all contributions into various investment options offered by the Plan. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 5% percent of eligible compensation. The automatic deferral percentage escalated by 1% per year each August 1st, up to a maximum of 7% of compensation, unless participants opted out. Effective January 1, 2018, the Company contributed 100% of the first 7% of compensation that a participant contributed to the Plan. The Company could have also made discretionary non-elective contributions pro rata based on compensation of plan participants. For the period ended April 1, 2019 and the year ended December 31, 2018, no discretionary non-elective contributions were made. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - The Plan offered 20 mutual funds and a sable value fund as investment options for participants.

Participant accounts - Each participant's account was credited with the participant's contribution and allocations of the Company's contribution and plan earnings. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

(1) Description of plan (continued)

Vesting - Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100% vested in the safe harbor and Company matching contributions after two years of credited service. A participant was 100% vested in any profit sharing contribution after three years of credited service.

Notes receivable from participants - Participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants could have one outstanding loan at a time. The loans were secured by the balance in the participant's account and had interest at rates which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions.

Payment of benefits - Upon termination, a participant could elect to receive either a lump sum amount equal to the value of the participant's vested interest, installment payments, or annuity payments. Terminated participants with account balances of less than $1,000 were mandatorily cashed out.

Forfeited accounts - At April 1, 2019 and December 31, 2018, forfeited nonvested accounts totaled $0 and $89,321, respectively. These accounts were used to reduce employer contributions. For the period ended April 1, 2019 and year ended December 31, 2018, employer contributions were reduced by $78,969 and $356,154, respectively, from forfeited nonvested accounts. A total of $91,101 was transferred to Futureguard plan on April 1, 2019 due to the plan merger.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(2) Summary of significant accounting policies (continued)

Notes receivable from participants - Notes receivable from participants were measured at their unpaid principal balance plus accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and expensed when they are incurred.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan were paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net appreciation (depreciation) of fair value of investments.

(3) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Bank, the trustee of the Plan, has certified that the following data included in the accompanying financial statements are complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest income on notes receivable from participants

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 1, 2019 or December 31, 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value common collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued at the NAV of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require twelve months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

(4) Fair value measurements (continued)

There were no investments held by the Plan as of April 1, 2019 due to the Plan merger.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018.

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 101,169,079	$ -	$ -	$ 101,169,079
Investments measured at NAV practical expedient [(a)]				37,903,026
Total investments at fair value				$ 139,072,105

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is based on NAV per share practical expedient as of April 1, 2019 and December 31, 2018, respectively.

Investments	Fair Value 4/1/2019	Fair Value 12/31/2018	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable Value Common Collective Trust	$ -	$ 37,903,026	$ -	Daily	(b)

(b) Units may be redeemed on a daily basis. There is a 30 day redemption notice period for benefit payments and participant transfers to noncompeting options. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, require a 12 month written notice. This investment transferred to the Futureguard plan in-kind and no restriction was required.

(5) Related party transactions and party-in-interest transactions

Certain Plan investments were managed by Charles Schwab. Charles Schwab was the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services were included in net appreciation (depreciation) in fair value of the investments, as they were paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of $8,100 and $39,525 for the period ended April 1, 2019 and year ended December 31, 2018, respectively, which was not covered by revenue sharing. The Plan paid certain expenses related to the Plan's operations and investment activity to various service providers. These transactions are party-in-interest transactions. The Plan Sponsor pays directly any other fees related to the Plan's operations.

(6) Plan termination

On March 28, 2019, the Company approved a plan merger. Effective April 1, 2019, the Plan was merged into Futureguard (EIN 81-4211184, Plan #004) and as of the date of the merger, the Plan will cease to exist.

(7) Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at April 1, 2019 and December 31, 2018 to Form 5500:

	April 1, 2019	December 31, 2018
Net assets available for benefits per the financial statements	$ -	$ 146,695,389
Active participants with deemed loans	-	(33,872)
Net assets available for benefits per Schedule H of the Form 5500	$ -	$ 146,661,517

(7) Reconciliation of financial statements to Schedule H of Form 5500 (continued)

The following is a reconciliation of benefits paid per the financial statements for the period ended April 1, 2019 and year ended December 31, 2018 to Form 5500:

	Period Ended April 1, 2019	Year Ended December 31, 2018
Benefits paid per the financial statements	$ 13,005,157	$ 15,562,120
Deemed loans for active participants - current year	-	33,872
Deemed loans for active participants - prior year	(33,872)	-
Benefits paid per Schedule H of the Form 5500	$ 12,971,285	$ 15,595,992

(8) Tax status

The Internal Revenue Service ("IRS") determined that the prototype non-standardized profit sharing plan was designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated June 19, 2014. Although the Plan had been amended since receiving the opinion letter, the plan administrator believes that the Plan and related trust were designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Risks, uncertainties and concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

At December 31, 2018, approximately 27% of the Plan's investments were invested in the Morley Stable Value Fund, respectively.

(10) Transfers

Certain employment status changes permit the affected participants to voluntarily transfer their balances between plans sponsored by the Company or one of its affiliates. Such transfers are reflected in the plan transfers amount in the statements of changes in net assets available for benefits. For the period ended April 1, 2019, there were transfers out of $2,194,123 and transfers in of $404,594 to/from another plan sponsored by the Company or one of its affiliates. For the year ended December 31, 2018, there were transfers out of $860,924 and transfers in of $25,571 to/from another plan sponsored by the Company or one of its affiliates.

(11) Subsequent events

The Plan has evaluated subsequent events through January 14, 2020, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

This explanation concerns the short final plan year for the above referenced plan. This plan merged into the Futureguard plan as of 4/1/19. Due to a miscommunication regarding the last day of the short plan year between the Plan Sponsor, Auditor and their 401(k) Service Provider, the 5500 forms and corresponding 5558 Extension of Time were prepared using a final date of 3/31/19 with the extension of time covering the filing to 1/15/2020. The correct final day of the short plan year should be 4/1/19. Please accept this letter of explanation to account for the date discrepancy and consider the filing to be accurate and timely without penalty.
