ALLIANCE PETROLEUM CORPORATION 401(K) PLAN

Notes to the Financial Statements

March 11, 2019 and December 31, 2018

(1) Description of plan

The following description of the Alliance Petroleum Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan was a defined contribution plan which was adopted to provide retirement benefits for employees of Alliance Petroleum Corporation (the "Plan Sponsor"). The Plan covered substantially all employees who were age eighteen or older and had completed six months of service ("participants"). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During 2018, the Plan Sponsor was acquired by Diversified Oil and Gas Corporation ("Diversified"). Effective November 2, 2018, the Plan participants became participants in a plan sponsored by Diversified. Effective March 11, 2019, all of the net assets of the Plan were merged into the DGOC Employee Savings Plan ("DGOC Plan"), a plan related to the Plan Sponsor. The net assets transferred were recognized in the accounts of the DGOC Plan as previously carried in the accounts of the Alliance Petroleum 401(k) Plan.

(b) Contributions

Prior to November 2, 2018, participants could have voluntarily made qualified retirement contributions to the Plan which were deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC") or in the form of after tax Roth Contributions. Participants could have also contributed amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. In order to participate, employees must have made a minimum contribution of 1% of compensation up to 100% of compensation subject to certain IRC limitations.

The Plan Sponsor could have made a discretionary matching contribution, as determined annually by the Plan Sponsor's Board of Directors. No matching contributions were declared for the 2019 plan year. Plan Sponsor and participant contributions could not exceed the maximum amount deductible for federal income tax purposes.

(c) Participant accounts

Each participant's account was credited (charged) with the participant's and Plan Sponsor contributions, investment earnings (losses), and administrative expenses. Allocations were based on participant's compensation or account balances as defined in the plan agreement. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

ALLIANCE PETROLEUM CORPORATION 401(K) PLAN

Notes to the Financial Statements

March 11, 2019 and December 31, 2018

(d) Vesting

Participants were immediately vested in their elective salary deferral plus actual earnings (losses) thereon. Vesting in the Plan Sponsor's contribution was based on years of continuous service. Participants were fully vested after six years of service.

<u>Years of Service</u>	<u>Vesting</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(e) Notes receivable from participants

Participants could have borrowed from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable from participants were secured by the balance in the participant's account and bore interest at fixed rates ranging from 3.25% to 5.25%, which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions.

(f) Payment of benefits

On termination of service due to death, permanent disability, or retirement, a participant could have elected to receive either a lump-sum payment or annual installments over a specified period equal to his or her entire account. For termination of service due to other reasons, a participant was entitled to receive only the vested interest in his or her account as a lump-sum distribution.

(g) Forfeited accounts

Forfeitures were created when participants terminated employment prior to becoming fully vested in the Plan Sponsor contribution portion of their accounts. Such forfeitures reduced the Plan Sponsor's contributions to the Plan.

(h) Hardship withdrawals

The Plan permitted distributions in the event of a hardship, as defined in the plan agreement. These distributions were taxable and subjected to a tax penalty equal to 10% of the hardship distribution amount if the participant was younger than age 59½. Hardship withdrawals were limited to the participant's elective account balance.

ALLIANCE PETROLEUM CORPORATION 401(K) PLAN

Notes to the Financial Statements

March 11, 2019 and December 31, 2018

(i) Administrative expenses

Certain expenses of maintaining the Plan were paid directly by the Plan Sponsor and were excluded from these financial statements. Fees related to the processing of distributions were included in administrative expenses and charged directly to the participant's account. Investment related expenses were included in net appreciation in fair value of investments.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

(b) Investment valuation and income recognition

Investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determined the Plan's valuation policies utilizing information provided by the investment advisers and Principal Life Insurance Company ("Principal Life"). See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period from January 1, 2019 through March 11, 2019.

(c) Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participants notes receivable were reclassified as distributions based upon the terms of the plan document.

(d) Payment of benefits

Benefits were recorded when paid.

ALLIANCE PETROLEUM CORPORATION 401(K) PLAN

Notes to the Financial Statements

March 11, 2019 and December 31, 2018

(e) Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between March 11, 2019 and January 13, 2020, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Certified information

Certain information related to investments reported and disclosed in the accompanying financial statements, including the fair value of investments held at March 11, 2019 and December 31, 2018 and net appreciation in fair value of investments for the period from January 1, 2019 through March 11, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life.

(4) Fair value measurements

Fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, fair value accounting standards establish a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity including quoted market prices in active markets for identical assets (Level 1), or significant other observable inputs (Level 2) and the reporting entity's own assumptions about market participant assumptions (Level 3).

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

ALLIANCE PETROLEUM CORPORATION 401(K) PLAN

Notes to the Financial Statements

March 11, 2019 and December 31, 2018

The following is a description of the valuation methodology used for assets at fair value. There were no changes in the methodology used at March 11, 2019 and December 31, 2018.

- (i) *Guaranteed interest contract:* Valued at fair value based on the amount the Plan Sponsor would have received if they terminated the contract at the reporting date, which was book value less an early withdrawal charge, discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The guaranteed interest contract was considered to be a level 3 investment.

The Plan's pooled separate accounts were measured at net asset value ("NAV") as a practical expedient as of March 11, 2019 and December 31, 2018 to estimate fair value and, therefore, were not classified in the fair value hierarchy.

The following table summarizes investments for which the fair value was measured using the NAV practical expedient as of March 11, 2019 and December 31, 2018. There were no plan level or participant redemption restrictions for these investments.

<u>Description</u>	<u>Fair Value</u> <u>3/11/2019</u>	<u>Fair Value</u> <u>12/31/2018</u>	<u>Unfunded</u> <u>Commitments</u>	<u>Redemption</u> <u>Frequency (if</u> <u>currently eligible)</u>	<u>Redemption</u> <u>Notice Period</u>
Pooled separate accounts	\$0	\$2,854,951	n/a	Daily	None

The following table provides a summary of changes in fair value of the Plan's Level 3 assets for the period from January 1, 2019 through March 11, 2019:

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

Balance at December 31, 2018	\$ 85,614
Net earnings	208
Purchases	1,527
Sales	<u>(87,349)</u>
Balance at March 11, 2019	\$ <u>-</u>

ALLIANCE PETROLEUM CORPORATION 401(K) PLAN

Notes to the Financial Statements

March 11, 2019 and December 31, 2018

(5) Income tax status

The Plan Sponsor adopted a prototype 401(k) profit sharing plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014, which stated that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The Plan itself had not received a determination letter from the IRS stating that the Plan was qualified under Section 401(a) of the IRC. However, the plan administrator believes that the adopted prototype plan was designed, as amended, and was operated in compliance with the applicable requirements of the IRC and was therefore, qualified and exempt from taxation.

GAAP required plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan had taken an uncertain position that more likely than not would not have been sustained upon examination by the IRS. The plan administrator had analyzed the tax positions taken by the Plan, and had concluded that as of March 11, 2019 and December 31, 2018, there were no uncertain positions taken that required recognition of a liability or asset or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Related party and party-in-interest transactions

Plan investments were units of pooled separate accounts and an investment contract managed by Principal Life and, therefore, these transactions qualified as party-in-interest transactions under ERISA. As described in Note 1, the Plan paid expenses to various service providers and held notes receivable from participants which also qualifies as party-in-interest transactions.

(7) Risks and uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could have materially affected the amounts reported in the statements of net assets available for benefits.
