Note 1. Description of Plan

The following description of the East Manufacturing Corporation 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document or the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan covering all full-time employees of East Manufacturing Corporation (Company or Plan Sponsor). The Plan is intended to satisfy the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees are eligible to participate in the Plan after six months of service. Entry into the Plan is granted the first day of the subsequent month once eligibility requirements are satisfied.

Contributions: Each year, participants may make salary deferral contributions of pretax annual compensation, as defined in the Plan, up to 60% of eligible compensation subject to the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan Sponsor contributes non-discretionary matching contributions in an amount equal to 10% of participant deferral contributions subject to a maximum of 5% of the participant's eligible compensation contributed to the Plan. Effective May 1, 2019, the Plan Sponsor increased the non-discretionary matching contribution to an amount equal to 20% of participant deferral contributions subject to a maximum of 5% of the participant's eligible compensation contributed to the Plan. The Plan Sponsor may also make discretionary contributions to the Plan. There were no discretionary contributions for the year ended May 31, 2019.

Participant accounts: Each participant's account is (a) credited with the participant's contributions, (b) credited with the Company's contributions, (c) credited (reduced) with actual earnings (losses) thereon, (d) reduced by the participant's withdrawals, and (e) reduced by administrative expenses. Allocations are based on a participant's account balance or eligible compensation, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their deferral contributions as defined by the Plan document plus actual earnings thereon. Participants become 100% vested in the Company's matching contributions and actual earnings thereon based on a six-year graded schedule. Additionally, participants become fully vested, regardless of vesting table, upon attainment of normal retirement age, upon retirement due to disability, upon death, or upon termination of the Plan.

Notes receivable from participants: A participant may borrow from his or her account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of his or her vested account balance. Loans are collateralized by the participant's vested account balance. Loan terms range up to five years, with the exception of loans for the purchase of a principal residence, which may exceed five years. Interest rates are equal to 1% over the prime rate on the first day of the month in which the loan is requested. Interest rates on outstanding loan balances are 4.25% as of the date of the most recent loan. Principal and interest shall be paid at least quarterly through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a direct rollover to another plan, or a direct rollover to an Individual Retirement Account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts: Forfeiture of non-vested accounts arising from employee terminations and withdrawals may be used to offset employer contributions, as provided by the Plan document. As of May 31, 2019 and 2018, forfeited non-vested accounts totaled $18,062 and $15,371, respectively. No forfeitures were used to reduce employer contributions during the year ended May 31, 2019.

Investment options: Participants are permitted to direct the investment of their account balances into a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment allocations on a daily basis.

Note 2. Summary of Accounting Policies

The accounting policies followed by the Plan and the method of applying those policies which materially affect the determination of net assets available for benefits and changes in net assets available for benefits are as follows:

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets available for Plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Payments of benefits: Benefits are recorded when paid.

Administrative expenses: Except for loan origination fees associated with notes receivable from participants, the Plan's administrative expenses are paid by the Plan Sponsor as provided by the Plan document.

Subsequent events: In preparing these financial statements, the Plan Sponsor evaluated events that occurred through January 13, 2020, the date the financial statements were available to be issued, for potential recognition or disclosure.

Recent Accounting Pronouncements

Codification Improvements: In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-09, *Codification Improvements*. These amendments represent changes to clarify, correct errors in, or make minor improvements to the Codification, eliminating inconsistencies and providing clarifications in current guidance. The amendments in this ASU include those made to: Subtopic 220-10, Income Statement-Reporting Comprehensive Income-Overall; Subtopic 470-50, Debt-Modifications and Extinguishments; Subtopic 480-10, Distinguishing Liabilities from Equity-Overall; Subtopic 718-740, Compensation-Stock Compensation-Income Taxes; Subtopic 805-740, Business Combinations-Income Taxes; Subtopic 815-10, Derivatives and Hedging-Overall; Subtopic 820-10, Fair Value Measurement-Overall; Subtopic 940-405, Financial Services-Brokers and Dealers-Liabilities; and Subtopic 962-325, Plan Accounting-Defined Contribution Pension Plans-Investments-Other. The transition and effective date guidance is based on the facts and circumstances of each amendment. Some of the amendments in this Update do not require transition guidance and were effective upon issuance of this Update.

Fair Value Measurement: In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement* (Topic 820): *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. The amendments in this Update modify the disclosure requirements on fair value measurements in *Topic 820, Fair Value Measurement*, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. In addition, the amendments eliminate *at a minimum* from the phrase *an entity shall disclose at a minimum* to promote the appropriate exercise of discretion by entities when considering fair value measurement disclosures and to clarify that materiality is an appropriate consideration of entities and their auditors when evaluating disclosure requirements. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level III fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted. An entity is permitted to early adopt any removed or modified disclosures upon issuance of this Update and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact, if any, that adoption will have on its May 31, 2021, financial statements.

Note 3. Information Certified by Fidelity Management Trust Company (Fidelity), Trustee

The following is a summary of the investment information as of May 31, 2019 and 2018, and for the year ended May 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments as of May 31:

	2019	2018
Investments at fair value:		
Registered investment companies	**$ 5,643,245**	$ 6,165,392
Common/collective trust	**672,035**	451,312
	$ 6,315,280	$ 6,616,704

The Trustee also certified the completeness and accuracy of $364,188 of net depreciation in fair value of registered investment companies and common/collective trust, $417,942 in interest and dividends related to the aforementioned investments, and $3,605 of interest income on notes receivable from participants for the year ended May 31, 2019. Notes receivable from participants that were certified by the Trustee as of May 31, 2019 and 2018, amounted to $142,973 and $59,537, respectively.

Note 4. Investments and Fair Value Measurements

Authoritative guidance regarding *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements). The three levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level I Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of May 31, 2019 or 2018:

Registered investment companies: Valued based on quoted market prices.

Common/collective trust: Valued using the net asset value (NAV) as a practical expedient to estimate fair value provided by the Plan's Trustee. The NAV is based on the fair value of the underlying assets owned by the trust, minus liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of May 31:

	Assets at Fair Value as of May 31, 2019			
	Total	**Level I**	**Level II**	**Level III**
Registered investment companies	**$ 5,643,245**	**$ 5,643,245**	**$ -**	**$ -**
Common/collective trust (a)	**672,035**	**-**	**-**	**-**
Total assets at fair value	**$ 6,315,280**	**$ 5,643,245**	**$ -**	**$ -**

	Assets at Fair Value as of May 31, 2018			
	Total	**Level I**	**Level II**	**Level III**
Registered investment companies	$ 6,165,392	$ 6,165,392	$ -	$ -
Common/collective trust (a)	451,312	-	-	-
Total assets at fair value	$ 6,616,704	$ 6,165,392	$ -	$ -

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statements of net assets available for benefits.

Investments Measured Using NAV per Share as Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of May 31. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value		Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
	2019	2018		**2019 and 2018**	
Common/collective trust:					
Fidelity Management Income Portfolio	**$ 672,035**	$ 451,312	N/A	Daily	Daily

Note 5. Related Party Transactions

Certain Plan investments are investments in registered investment companies and a common/collective trust managed by Fidelity. Fidelity is the Plan Trustee and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid by the Plan to Fidelity for administrative expenses amounted to $6,221 for the year ended May 31, 2019. Certain Plan administrative fees are paid by the Company for which it is not reimbursed. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status – Prototype Plan

The Plan has adopted a non-standardized form of a prototype plan. The sponsor of the prototype plan has received an opinion letter, dated March 31, 2014, from the Internal Revenue Service (IRS) as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the appropriate taxing authority. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. Generally, tax returns for the years ended May 31, 2016, and thereafter remain subject to examination by the appropriate taxing authorities.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 9. Reconciliation of Federal Forms 5500 to Financial Report

Differences occur between the federal Form 5500 filed with the Internal Revenue Service and the financial report. These differences are due to recording the corrective distributions as of year end in the financial report. The following is a reconciliation of Forms 5500 to the financial report as of and for the years ended May 31:

		2019		2018
