Notes to Financial Statements
December 31, 2018

NOTE 1—DESCRIPTION OF THE PLAN

The following description of the Star Pipe Products, Ltd. 401(k) Profit Sharing Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

The Plan was established on October 1, 1996, as a defined contribution plan under Section 401(k) of the Internal Revenue Code of 1986, as amended ("the IRC"). The Plan has adopted a Prototype Defined Contribution Plan sponsored by Wachovia Bank, N.A., which was acquired by Wells Fargo Bank, N.A., who serves as the custodian of the Plan. The Plan covers substantially all employees of Star Pipe Products, Ltd. ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Company is the sponsor of the Plan and serves as the plan administrator.

Contributions

Employees who have completed six months of service with at least 1,000 hours worked are eligible to make salary deferral contributions to the Plan beginning on the first of any calendar quarter on or after their eligible date. Participants may elect salary deferrals up to 100% of their eligible compensation, not to exceed the dollar limit set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective November 15, 2018, participants' contributions may be either pre-tax or Roth deferrals.

The Company may make discretionary matching and other discretionary contributions to the Plan. Participants employed on the last day of the plan year receive an allocation of contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) investment income or loss, and charged with an allocation of administrative expenses. Investment income or loss allocations are based on individual participant account balances as of the end of the day in which the income or loss was earned.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to pay plan expenses and reduce future Company contributions.

Vesting

Participants are immediately 100 percent vested in their contributions and earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in the following percentages based upon years of credited service: 25% after one year, 50% after two years, 75% after three years, and 100% after four years.

Payment of Benefits

The Plan is intended for long-term savings but provides for early withdrawals and loan arrangements under certain conditions. Upon termination of service, a participant may elect to receive any of the optional forms of benefits available under the Plan equal to the amount of benefits in his or her account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest established by the administrator. Principal and interest are paid ratably through monthly payroll deductions.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through January 8, 2020, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or decline in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced and the delinquent note receivable is recorded as a benefit payment.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are allocated to participants' accounts. Loan setup fees, loan carrying fees and termination handling fees are paid by the participant from the Plan assets. During the year ended December 31, 2018, the Company paid $5,839 on behalf of the Plan and provided certain administrative services at no cost.

NOTE 3—FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) *820, Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 2 inputs consist of other significant observable inputs (including quoted prices for similar securities, interest rates, etc.). Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The valuation methodologies used for assets measured at fair value are as follows:

Mutual Funds

The fair value of mutual funds is based on quoted prices of the shares held by the Plan at year end.

Collective Investment Trust Funds

The fair value of collective investment trust funds is based on the net asset values as determined by the fund trustees using estimated fair value of the underlying net assets held by the funds. Net asset value is used as a practical expedient for fair value. This practical expedient is not used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions may occur daily. There were no unfunded commitments as of December 31, 2018.

One of the collective investment trust funds is a stable return fund. If the Plan initiates a full redemption of the stable return fund, the issuer reserves the right to require 12 months' notice in order to ensure that securities liquidations will be carried out in an orderly business manner. The fair value of the stable return fund as of December 31, 2018, is $1,538,166.

The following table sets forth by level, within the fair value ("FV") hierarchy, the Plan's assets at fair value as of December 31, 2018, and 2017.

Assets at Fair Value as of December 31, 2018

Investments measured at NAV				3,441,939
Total investments at FV	$ 8,557,719	$ -	$ -	$ 11,999,658

NOTE 4—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 5—RISKS AND UNCERTAINTIES

The Plan provides for various investments in equity funds and other funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

NOTE 6—FEDERAL INCOME TAX STATUS

The Prototype Plan obtained an IRS opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC.

NOTE 7—FORFEITURES

As of December 31, 2018, and 2017, the balance of forfeited nonvested accounts totaled $7,973 and $2,429, respectively. The amounts may be used to offset future Plan expenses and future employer contributions. For the year ending December 31, 2018, no forfeitures were used to pay Plan expenses.

NOTE 8—INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

Notes to Financial Statements
December 31, 2018

NOTE 1—DESCRIPTION OF THE PLAN

The following description of the Star Pipe Products, Ltd. 401(k) Profit Sharing Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

The Plan was established on October 1, 1996, as a defined contribution plan under Section 401(k) of the Internal Revenue Code of 1986, as amended ("the IRC"). The Plan has adopted a Prototype Defined Contribution Plan sponsored by Wachovia Bank, N.A., which was acquired by Wells Fargo Bank, N.A., who serves as the custodian of the Plan. The Plan covers substantially all employees of Star Pipe Products, Ltd. ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Company is the sponsor of the Plan and serves as the plan administrator.

Contributions

Employees who have completed six months of service with at least 1,000 hours worked are eligible to make salary deferral contributions to the Plan beginning on the first of any calendar quarter on or after their eligible date. Participants may elect salary deferrals up to 100% of their eligible compensation, not to exceed the dollar limit set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective November 15, 2018, participants' contributions may be either pre-tax or Roth deferrals.

The Company may make discretionary matching and other discretionary contributions to the Plan. Participants employed on the last day of the plan year receive an allocation of contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) investment income or loss, and charged with an allocation of administrative expenses. Investment income or loss allocations are based on individual participant account balances as of the end of the day in which the income or loss was earned.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to pay plan expenses and reduce future Company contributions.

Vesting

Participants are immediately 100 percent vested in their contributions and earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in the following percentages based upon years of credited service: 25% after one year, 50% after two years, 75% after three years, and 100% after four years.

Payment of Benefits

The Plan is intended for long-term savings but provides for early withdrawals and loan arrangements under certain conditions. Upon termination of service, a participant may elect to receive any of the optional forms of benefits available under the Plan equal to the amount of benefits in his or her account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest established by the administrator. Principal and interest are paid ratably through monthly payroll deductions.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through January 8, 2020, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or decline in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced and the delinquent note receivable is recorded as a benefit payment.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are allocated to participants' accounts. Loan setup fees, loan carrying fees and termination handling fees are paid by the participant from the Plan assets. During the year ended December 31, 2018, the Company paid $5,839 on behalf of the Plan and provided certain administrative services at no cost.

NOTE 3—FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) *820, Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 2 inputs consist of other significant observable inputs (including quoted prices for similar securities, interest rates, etc.). Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The valuation methodologies used for assets measured at fair value are as follows:

Mutual Funds

The fair value of mutual funds is based on quoted prices of the shares held by the Plan at year end.

Collective Investment Trust Funds

The fair value of collective investment trust funds is based on the net asset values as determined by the fund trustees using estimated fair value of the underlying net assets held by the funds. Net asset value is used as a practical expedient for fair value. This practical expedient is not used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions may occur daily. There were no unfunded commitments as of December 31, 2018.

One of the collective investment trust funds is a stable return fund. If the Plan initiates a full redemption of the stable return fund, the issuer reserves the right to require 12 months' notice in order to ensure that securities liquidations will be carried out in an orderly business manner. The fair value of the stable return fund as of December 31, 2018, is $1,538,166.

The following table sets forth by level, within the fair value ("FV") hierarchy, the Plan's assets at fair value as of December 31, 2018, and 2017.

Assets at Fair Value as of December 31, 2018

Investments measured at NAV				3,441,939
Total investments at FV	$ 8,557,719	$ -	$ -	$ 11,999,658

NOTE 4—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 5—RISKS AND UNCERTAINTIES

The Plan provides for various investments in equity funds and other funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

NOTE 6—FEDERAL INCOME TAX STATUS

The Prototype Plan obtained an IRS opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC.

NOTE 7—FORFEITURES

As of December 31, 2018, and 2017, the balance of forfeited nonvested accounts totaled $7,973 and $2,429, respectively. The amounts may be used to offset future Plan expenses and future employer contributions. For the year ending December 31, 2018, no forfeitures were used to pay Plan expenses.

NOTE 8—INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments, as shown in the statements of net assets available for benefits and in the supplemental schedule as of December 31, 2018, and 2017.

b. Investment income (loss), as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 9—RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits and contributions received per the financial statements to Schedule H of Form 5500. The 2017 contributions receivable are recognized as contributions income on the 2018 Schedule H of Form 5500. The 2018 contributions receivable are excluded from contributions income on Schedule H of Form 5500. Notes to Financial Statements
December 31, 2018

NOTE 1—DESCRIPTION OF THE PLAN

The following description of the Star Pipe Products, Ltd. 401(k) Profit Sharing Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

The Plan was established on October 1, 1996, as a defined contribution plan under Section 401(k) of the Internal Revenue Code of 1986, as amended ("the IRC"). The Plan has adopted a Prototype Defined Contribution Plan sponsored by Wachovia Bank, N.A., which was acquired by Wells Fargo Bank, N.A., who serves as the custodian of the Plan. The Plan covers substantially all employees of Star Pipe Products, Ltd. ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Company is the sponsor of the Plan and serves as the plan administrator.

Contributions

Employees who have completed six months of service with at least 1,000 hours worked are eligible to make salary deferral contributions to the Plan beginning on the first of any calendar quarter on or after their eligible date. Participants may elect salary deferrals up to 100% of their eligible compensation, not to exceed the dollar limit set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective November 15, 2018, participants' contributions may be either pre-tax or Roth deferrals.

The Company may make discretionary matching and other discretionary contributions to the Plan. Participants employed on the last day of the plan year receive an allocation of contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) investment income or loss, and charged with an allocation of administrative expenses. Investment income or loss allocations are based on individual participant account balances as of the end of the day in which the income or loss was earned.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to pay plan expenses and reduce future Company contributions.

Vesting

Participants are immediately 100 percent vested in their contributions and earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in the following percentages based upon years of credited service: 25% after one year, 50% after two years, 75% after three years, and 100% after four years.

Payment of Benefits

The Plan is intended for long-term savings but provides for early withdrawals and loan arrangements under certain conditions. Upon termination of service, a participant may elect to receive any of the optional forms of benefits available under the Plan equal to the amount of benefits in his or her account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest established by the administrator. Principal and interest are paid ratably through monthly payroll deductions.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Management has evaluated subsequent events through January 8, 2020, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or decline in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2018, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced and the delinquent note receivable is recorded as a benefit payment.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are allocated to participants' accounts. Loan setup fees, loan carrying fees and termination handling fees are paid by the participant from the Plan assets. During the year ended December 31, 2018, the Company paid $5,839 on behalf of the Plan and provided certain administrative services at no cost.

NOTE 3—FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) *820, Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 2 inputs consist of other significant observable inputs (including quoted prices for similar securities, interest rates, etc.). Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The valuation methodologies used for assets measured at fair value are as follows:

Mutual Funds

The fair value of mutual funds is based on quoted prices of the shares held by the Plan at year end.

Collective Investment Trust Funds

The fair value of collective investment trust funds is based on the net asset values as determined by the fund trustees using estimated fair value of the underlying net assets held by the funds. Net asset value is used as a practical expedient for fair value. This practical expedient is not used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions may occur daily. There were no unfunded commitments as of December 31, 2018.

One of the collective investment trust funds is a stable return fund. If the Plan initiates a full redemption of the stable return fund, the issuer reserves the right to require 12 months' notice in order to ensure that securities liquidations will be carried out in an orderly business manner. The fair value of the stable return fund as of December 31, 2018, is $1,538,166.

The following table sets forth by level, within the fair value ("FV") hierarchy, the Plan's assets at fair value as of December 31, 2018, and 2017.

Assets at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Assets in FV hierarchy:

Investments measured at NAV				3,441,939
Total investments at FV	$ 8,557,719	$ -	$ -	$ 11,999,658

NOTE 4—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 5—RISKS AND UNCERTAINTIES

The Plan provides for various investments in equity funds and other funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

NOTE 6—FEDERAL INCOME TAX STATUS

The Prototype Plan obtained an IRS opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC.

NOTE 7—FORFEITURES

As of December 31, 2018, and 2017, the balance of forfeited nonvested accounts totaled $7,973 and $2,429, respectively. The amounts may be used to offset future Plan expenses and future employer contributions. For the year ending December 31, 2018, no forfeitures were used to pay Plan expenses.

NOTE 8—INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments, as shown in the statements of net assets available for benefits and in the supplemental schedule as of December 31, 2018, and 2017.

b. Investment income (loss), as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.
