NOTE 1 – PLAN DESCRIPTION

The following description of the Sexing Technologies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan that provides retirement savings benefits to eligible employees of Inguran, LLC dba Sexing Technologies and its participating employers: XY, LLC; Fast Sexing Technologies USA, LLC; and Genetic Visions-ST, LLC, (collectively the "Employer" or "Company"). The Plan, which commenced effective January 1, 2012, is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC").

Plan Custodians and Trustees – Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company ("Great-West") are the Custodians of the Plan. The Custodians maintain custody of all investments held by the Plan, maintain the Plan's participant account balances, and provide record-keeping services to the Plan. Among other duties, the Custodians receive contributions, hold and invest the fund assets in accordance with the direction of participants, and make distributions as directed by the Plan Administrator. Two employees of the Company serve as Trustees of the Plan.

Eligibility – Employees of the Company are eligible to participate in the Plan upon completion of three months of service. Eligible employees may enter the Plan on the first day of each month. Any employee hired on or after November 1, 2015, was eligible to participant in the Plan after 60 days of service.

Contributions – Participants may elect to contribute, on a pre-tax basis, up to 100% of eligible compensation as defined by the Plan and subject to the limit established annually per the IRC, which was $18,000 for 2016. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to the limit established annually per the IRC, which was $6,000 for 2016.

Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Employer contributions to the Plan consist of non-elective discretionary contributions approved by the Plan sponsor. In the 2016 plan year, the Company made a discretionary match contribution, equal to the lesser of 50% of participant's contributions or 3% of eligible compensation.

Participant Accounts – Each participant account is credited with the participant's contributions, the Company's matching contributions, and allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investments – All assets of the Plan are participant-directed investments. Participants have the option of directing their account balances to one or more investment options offered by the Plan. The Plan has selected various investment options, as more fully described in the Plan Document, to which participants may designate the allocation of their account balances. The funds vary in types of investments, rates of return, and investment risk.

Vesting – Participants are vested immediately in their contributions and Employer matching contributions plus any income or loss thereon.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account. The loan interest rate, determined monthly, is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

NOTE 1 – PLAN DESCRIPTION – continued

Payment of Benefits – Upon separation of service due to death, disability, normal retirement, or termination of employment, a participant may elect to receive a lump sum payment from the vested portion of their account balance. Distributions to a terminated employee with any vested account balance must consent to a distribution. Upon consent, distributions are made as a lump sum distribution as soon as administratively possible following the request. The participant may elect whether to receive the distribution directly or to rollover the distribution into another retirement Plan. Additionally, a participant who is required to receive lifetime required minimum distributions ("RMD") per Internal Revenue Service ("IRS") guidelines may receive installments payable in plan-defined increments equal to or exceeding the RMD amount. A participant may withdraw all or a portion of their vested account balance in the event of a financial hardship, as defined by the Plan. Additionally, in-service withdrawals are permitted upon attainment of age 59 ½.

Forfeited Accounts – At December 31, 2016, and 2015, forfeited non-vested accounts totaled $908 and $0, respectively. These accounts will be used to reduce future employer contributions or to pay administrative expenses. In 2016, $575 of administrative expenses were paid from forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes in those assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of Plan additions and deductions during the reporting period. Actual results could differ from those estimates.

Investments Valuation and Income Recognition – Investments are reported at fair value, except for fully benefit-responsible investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants before March 15, 2016.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Payment of Benefits – Benefit payments are recorded when paid.

Administrative Expenses – Loan origination fees associated with notes receivable from participants, charges for withdrawals for payment of benefits to participants, and the Plan's record-keeping fees are paid by the Plan and are reflected in the financial statements as Plan administrative expenses. Investment management fees are charged to the Plan as a reduction of investment return and are included in net appreciation of fair value of investments. All other expenses of the Plan are paid by the Company.

Reclassifications – When necessary, reclassifications are made to the prior year financial information to conform to the current year presentation.

Recent Accounting Pronouncements – In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. The amendments in this update remove the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value and to simplify certain investment disclosures required for employee benefit plans. The update designates contract value as the only required measure for fully benefit responsive investment contracts and eliminates certain disclosures (Part I). Additionally, the update eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits, the net appreciation or depreciation for investments by general type, and the investment information disaggregated based on nature, characteristics and risks (Part II). The update also allows plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year end, when the fiscal period does not coincide with a month-end (Part III). The amendments in this update are effective for fiscal years beginning after December 15, 2015 and should be applied on a retrospective basis for the periods presented for Parts I and II and on a prospective basis for Part III. Early adoption is permitted. The Plan elected to early adopt ASU 2015-12 Parts I and II as of January 1, 2015. Part III was not applicable to the Plan.

In May 2015, the FASB issued ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize investments in the fair value hierarchy if their fair value is measured at net asset value ("NAV") per share (or its equivalent) using the practical expedient in the FASB's fair value measurement guidance. The provisions of ASU 2015-07 are effective for the Plan for fiscal years beginning after December 15, 2015 and are required to be applied retrospectively to all periods presented; early adoption is permitted. The Plan early adopted this update effective January 1, 2015, and its investment in the stable value collective trust fund that is measured at fair value using the NAV per share (or its equivalent) as a practical expedient has not been categorized in the fair value hierarchy (See Note 3 for additional information).

Subsequent Events – The Plan has evaluated subsequent events through January 23, 2020, the date these financial statements were available to be issued. See Note 11.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820 are described as follows:

NOTE 3 – FAIR VALUE MEASUREMENTS – continued

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3** – Inputs in the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled Separate Accounts – These investments are valued using the NAV of units held by the Plan at year end as provided by Great-West. The NAV is based on the fair value of the underlying assets owned by the fund, net of the investment management fee, and is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. If the Plan initiates a full redemption of the pooled separate account, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner. Participant transactions (purchases and sales) may occur daily, and there are no significant restrictions on participant redemptions or any unfunded commitments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measure at December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at NAV (a)				1,882,676
Investments at fair value	$ -	$ -	$ -	$ 1,882,676

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at NAV (a)				1,141,196
Investments at fair value	$ -	$ -	$ -	$ 1,141,196

(a) In accordance with ASC 820-10, certain investments (pooled separate accounts) that were measured at NAV per share (or its equivalents) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 4 – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a group annuity contract with Great West Life & Annuity Insurance Company that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium/long-term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan Document (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 5 – RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and a group annuity contract managed by the Custodians, and as such, these transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to service providers.

The Plan has notes receivable from participants as of December 31, 2016 and 2015; these receivables and all transactions relating to these receivables qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7 – TAX STATUS

The Plan operates under an adoption agreement in connection with a non-standardized prototype defined contribution plan and trust sponsored by Great-West. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014 stating that the prototype plan constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax exempt as of the financial statement date. The Plan has not filed individually with the IRS for a letter regarding the Plan's qualified tax status, however, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC, and as such, believes the Plan is qualified and that the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 – INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIANS

The Plan Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

NOTE 11 – SUBSEQUENT EVENTS

Effective January 15, 2017, the Plan was amended and restated to change the compensation considered when calculating the discretionary Employer matching contributions. All compensation prior to the participant's Plan entry date will be excluded and any discretionary matching contributions will be funded on a per payroll basis, not the Plan year. In addition, a five-year graded vesting schedule was added for participants hired after January 15, 2017. Participants whose commencement date is prior to January 15, 2017 will continue to be 100% vested in Employer matching contributions.
