Independent Auditors' Report

The Plan Administrator
The J. M. Smucker Company
Employees' Retirement Plan
Orrville, Ohio

We have audited the accompanying financial statements of The J. M. Smucker Company Employees' Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of April 30, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of April 30, 2019 and 2018, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of April 30, 2019 and the supplemental schedule of reportable transactions for the year then ended are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

Note A. Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the master trust was based on beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses until October 31, 2018, at which point the master trust was terminated. The Plan's Retirement Administration & Investments Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, Custodians, and SEI Private Trust Company ("Trustee"). See Note E. for a description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits (see Note C.) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired, terminated, or deceased employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' previous compensation as defined in the Plan. The actuarial present value of accumulated plan benefits was determined on a "going concern" basis, based on each participant's age, service, and estimated average salary as of the valuation date.

Administrative Fees:

Administrative fees are paid by the Plan or by The J. M. Smucker Company (the "Company"), at the option of the Company.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

THE J. M. SMUCKER COMPANY
EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note A. Significant Accounting Policies (Continued)

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Subsequent Events:

The Company has evaluated subsequent events through February 4, 2020, which is the date the financial statements were available to be issued.

Note B. Description of the Plan

The following is a summary of certain provisions of the Plan. Participants should refer to the Plan document for more complete information.

The Plan is a defined benefit plan that, prior to being frozen, covered substantially all regular employees of the Company and certain of its subsidiaries not accruing benefits under any other retirement plan of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Under the Supplemental Benefit Plan, covered employees were able to contribute 4% of their monthly salary in excess of \$2,000 until the Plan was renamed and restated and this provision was discontinued effective May 1, 1991. Such contributions earned, and shall continue to earn, a guaranteed rate of return until distributed to the participant. Effective December 31, 2007, the Company froze benefit service to the Plan for participants under the age of forty (40) and no new participants were allowed to join the Plan after that time. Participants at or over the age of forty as of January 1, 2008 continued to accrue benefit service in the Plan until December 31, 2017, at which time benefit accruals were frozen to all participants.

Funding requirements are determined annually. The Company has agreed to contribute such amounts as are necessary to meet the minimum funding requirements of ERISA and to provide assets sufficient to meet the benefits to be paid to Plan participants.

The Company has the right under the Plan to discontinue all contributions at any time. The Company expects to continue the Plan indefinitely, but reserves the right to terminate it at any time. In the event of termination, Plan assets shall be apportioned and distributed for the purchase of annuities in the order of priority outlined in the Plan agreement subject to compliance with ERISA regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by, and the financial condition of, the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

THE J. M. SMUCKER COMPANY
EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note B. Description of the Plan (Continued)

Benefits are based on both a participant's eligible compensation during employment with the Company and the participant's years of service with the Company. All prior contributions under the Supplemental Benefit Plan will be held and subsequently distributed to the respective participants in accordance with the Plan. Participants can elect to receive their benefits as an annuity or a lump-sum.

Note C. Accumulated Plan Benefits

The Plan's independent actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Plan provides for benefit payments to be paid as a lump-sum or, in certain circumstances, to commence upon the date of normal or qualified early retirement or the death or other termination of an active employee. The Plan provides for the immediate payout to a participant upon retirement, death, or other termination if the actuarial present value of the participant's nonforfeitable accrued retirement benefit payable does not exceed \$5,000. For any mandatory distributions greater than \$1,000 and up to and including \$5,000 for which the participant does not make an election for either a rollover to an eligible retirement plan or a direct distribution, the Company will pay the distribution in a direct rollover to an individual retirement plan designated by the Company.

The actuarial present value of accumulated plan benefits at May 1, 2018 is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 61,445,832
Other participants	80,419,336
	<u>141,865,168</u>
Nonvested benefits	-
Total actuarial present value of accumulated	
plan benefits	<u><u>\$141,865,168</u></u>

Changes in accumulated plan benefits from May 1, 2017 to May 1, 2018 are as follows:

Actuarial present value of accumulated plan	
benefits - May 1, 2017	\$140,306,127
Changes during the year attributable to:	
Benefits accumulated	3,278,743
Actuarial losses	3,143,847
Decrease in the discount period	8,772,582
Actual benefits paid	(17,244,152)
Change of assumptions	<u>3,608,021</u>
Net increase	<u>1,559,041</u>
Actuarial present value of accumulated plan	
benefits - May 1, 2018	<u><u>\$141,865,168</u></u>

THE J. M. SMUCKER COMPANY
EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note C. Accumulated Plan Benefits (Continued)

Significant assumptions underlying the actuarial computations are as follows:

	Year Beginning May 1,	
	<u>2018</u>	<u>2017</u>
Life expectancy of participants	2006 rates from the RP-2014 table (MP-2017 mortality improvement scale) using separate gender-distinct rates for annuitants and non-annuitants	2007 rates from the RP-2014 table converging from scale MP-2014 (1.0% to 0.8%) using separate gender-distinct rates for annuitants and non-annuitants
Annuity discount rate	6.25%	6.50%
Lump-sum discount rate	5.00%	5.00%
Retirement	100% by age 66	100% by age 66

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The increase in the actuarial present value of accumulated plan benefits during the valuation period attributable to a change in actuarial assumptions relates to the lump sum mortality assumption being updated from the 2016 unisex mortality table under Revenue Ruling 2013-49 projected to commencement age to the 2018 unisex mortality table under Revenue Ruling 2017-60 projected to commencement age, and also the annuity discount rate decreasing from 6.50% to 6.25%.

Note D. Investments and Interest in The J. M. Smucker Company Master Trust

Prior to October 31, 2018, the Plan's investments were in a master trust held by SEI, the trustee, which was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each participating retirement plan had an undivided interest in the master trust. At April 30, 2018, the Plan's interest in the net assets of the master trust was approximately 45.0%. Investment income and gains and losses were allocated to the individual plans based upon average balances invested by each plan. In June 2018, the master trust sold all of its common shares of the Company and invested the proceeds in mutual funds. On October 31, 2018, the master trust was terminated and the assets allocated to the participating plans in accordance with the master trust document.

	<u>\$(282,789,822)</u>	<u>\$ 7,387,882</u>

Note E. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

THE J. M. SMUCKER COMPANY
EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note E. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value.

- Money market funds: Valued at the closing price reported in the active market in which the individual securities are traded. Pending transactions and accrued income receivable at the end of the April 30, 2018 plan year are included within these funds. These are classified as Level 1.
- Common and convertible preferred stock: Valued at the closing price reported in the active market in which the individual securities are traded. These are classified as Level 1.
- Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end. These are classified as Level 1.
- Private equity fund: Valued at fair value using the net asset value ("NAV") per share (or its equivalent) practical expedient and, therefore, has not been classified in the fair value hierarchy.
- Collective investment trust: Valued at fair value using the net asset value ("NAV") per share (or its equivalent) practical expedient and, therefore, has not been classified in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2018 to 2019. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan assets as of April 30, 2019 and the master trust's assets at fair value as of April 30, 2018:

Assets at Fair Value as of April 30, 2019

The Plan values substantially all of its investments in the private equity fund and the collective investment trust at amounts reported by the investment manager and as validated through consideration of the audited financial statements of the investments. Accordingly, the Plan does not use separate quantitative information to value the investments.

The Plan invests in alternative investments, which are structured as partnerships. The following table summarizes the investment strategy types of the alternative investments as of April 30, 2019 and 2018:

Instrument	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
<u>April 30, 2019</u>				
SEI 2005 Global Opportunity Private Equity Fund (a)	\$ 6,859,740	\$ 2,623,484	Not eligible	Not eligible
SEI Core Property Collective Investment Trust (b)	13,412,101	-	Quarterly	95 days
<u>April 30, 2018</u>				
SEI 2005 Global Opportunity Private Equity Fund (a)	8,926,707	2,623,484	Not eligible	Not eligible

(a) The category comprises a private equity fund of funds whose investments will consist of primary limited partnership interests in corporate finance and venture capital funds. In addition, secondary partnership and co-investment deals are acceptable. Corporate finance investments may include leveraged buy-out, industry consolidation, growth or fundamental business change, acquisitions, refinancing and recapitalization, mezzanine investments, and distressed and turnaround strategies. Venture capital investments include start-up companies and companies developing new business solutions and technologies.

THE J. M. SMUCKER COMPANY
EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note E. Fair Value Measurements (Continued)

(b) The SEI Core Property Collective Investment Trust (the "Fund") seeks both current income and appreciation through investment in underlying funds that acquire, manage, and dispose of commercial real estate properties. The Fund expects to invest at least 85% of its assets in open-end core underlying funds focused on properties in the U.S. with "core" meaning high-quality, low-leveraged, income-generating office, industrial, retail, and multi-family properties, generally fully-leased to creditworthy companies and governmental entities. Up to 5% of the Fund's net assets may be invested in liquid real estate strategies (publicly-traded REITs) for cash management purposes and the Fund may have up to a 15% allocation to non-core sectors and strategies.

Note F. Related Party/Party-in-Interest Transactions

The Trustee of the Plan and the Company are defined as a party-in-interest and a related party, respectively, with respect to the Plan. The Plan, through the master trust, invested in common shares of the Company and also currently holds investments which are under the management of the Trustee. However, such transactions are exempt and are not prohibited under ERISA. Fees paid to the Trustee by the Plan were \$608,498 and \$272,089 for the years ended April 30, 2019 and 2018, respectively.

Note G. Income Tax Status

The Plan obtained a determination letter on October 31, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Included in the Plan's underlying investments are units of funds structured as limited partnerships. In any given year, these partnerships may generate unrelated business income ("UBI") to the trust. In turn, each plan holding these investments would be liable for any income tax resulting from these investments after offsetting any related expenses and/or investment loss carry-forward amounts. Because the amount of any future UBI passing through to the Plan cannot be determined, the Plan's management has not recorded any deferred income tax benefit (loss) on the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of April 30, 2019, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements.

Note H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

THE J. M. SMUCKER COMPANY
EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note H. Risks and Uncertainties (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note I. Reconciliation to Form 5500 Presentation

Components of the changes in net assets available for benefits as reported on Form 5500 differ from those reported in these financial statements due to investment expenses which, on Form 5500, are netted against the net investment gain from the Master Trust, as follows:

	Year Ended April 30,	
	<u>2019</u>	<u>2018</u>
Net investment gain from master trust as reported in financial statements	\$5,298,427	\$5,815,046
Less investment expenses incurred	<u>244,144</u>	<u>272,089</u>
Net investment gain from master trust as reported on Form 5500	<u><u>\$5,054,283</u></u>	<u><u>\$5,542,957</u></u>

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality

■ Healthy For minimum funding purposes, the prescribed mortality assumption for the 2017 plan year 430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants with an additional year of mortality improvements using Scale AA. This assumption is consistent with the plan sponsor's election to defer application of the IRS mortality tables released in Revenue Procedure 2017-55.

■ Disabled The permitted tables under IRS Revenue Ruling 96-7 are used for disabled participants.

■ Lump Sum The 2018 unisex mortality table under Revenue Ruling 2017-60.

Termination Rates varying by age and gender

Representative Termination Rates (per 100 employees) not Due to Disability, Retirement or Mortality

Benefit commencement date:

- Preretirement death benefit
The later of the death of the active participant or the date the participant would have attained age 55. For the supplemental portion attributable to employee contribution the beneficiary receives the benefit upon death of the participants.
- Deferred vested benefit
Future terminated participants (not retirement eligible) are assumed to take a lump sum upon termination. Current deferred vested participants are assumed to begin annuity payments at age 65.
- Disability benefit
Upon disablement with at least 10 years of service.
- Retirement benefit
Upon termination of employment and at least age 55 with 10 years of service or age 65.

Form of payment

50% of participants reaching retirement are assumed to elect a lump sum payment and 50% are assumed to elect a single life annuity. 100% of participants who terminate prior to reaching retirement are assumed to elect a lump sum payment. All current deferred vested participants are assumed to elect a single life annuity.

Percent married

It was assumed that 85% of males and 50% of females are married.

Spouse age

Females are assumed to be three years younger than males.

Covered pay

Compensation assumed paid in the current year beginning on the valuation date is the current annual base rate of pay.

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with The J.M. Smucker Company regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with The J.M. Smucker Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate, adjusted as required to account for the fact that the plan's lump sum conversion rate is either IRC 417(e) assumptions or whichever produces the larger lump sum.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age and gender because of observed and expected differences in termination rates by age and gender.
Disability	Assumed disability rates differ by age and gender because of observed and expected differences in disability rates by age and gender.
Retirement	Retirement rates are based on plan sponsor expectations for the future reflecting plan changes, availability of Social Security and Medicare, and workforce events like early retirement windows that have occurred and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of May 1, 2018

See Schedule SB, Part V, Statement of Actuarial Assumptions and Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

As of the valuation date, the weighted average retirement age is 62.

66	100.00%	100.00%	2.37%	1.5632

Retirement Age

62

*Separate retirement rates (or decrements) are used for participants who reach an eligible retirement age prior to completing 30 years of service and those who reach an eligible retirement age after completing 30 years of service as shown above. An individual's average retirement age is determined based on the appropriate retirement decrement looking at the participant's age and service at each non-zero decremented retirement age. The weighted average retirement age for the plan represents the average of the individual averages for each active participant included in the current year's valuation.

It is estimated that 80% of the current active population will be eligible to retire with over 30 years of service, thus the derivation of the weighted average retirement age for the plan can be demonstrated using an earliest retirement age of age 55 for all individuals, and a 20% weighting of the decrements applicable to those with under 30 years of service combined with an 80% weighting of the decrements applicable to those with over 30 years of service as shown above.

Vested Benefits Upon Termination of Service

Eligible if the employee terminates after 5 years of service.

The vested termination benefit is the accrued normal retirement benefit commencing at age 65 or, if the employee has 10 years of service, commencing as early as age 55 on an actuarially reduced basis.

Lump Sum Window

A window was offered to deferred vested pensioners to take their benefits as a lump sum as of March 1, 2013.

Death Benefits for Participants in Active Service

Return of a participant's contributions to the Supplemental pension benefit together with accumulated interest.

Preretirement Spouse's Benefit

Eligible upon death of a participant after 5 years of service.

The spousal death benefit is the benefit to which the spouse would have been entitled had the deceased employee retired on the day of his death with a 50% Joint and Survivor option in effect. If death occurs prior to age 55, benefits to the spouse will commence with the month following the date that the employee would have reached age 55.

Optional Forms of Retirement Income

An employee may elect to receive his benefit on a single life, 100% Joint and Survivor, 75% Joint and Survivor, 50% Joint and Survivor, 66-2/3% Joint and Survivor basis, or 120-month Certain and Continuous basis.

- Participants who terminate or retire after July 1, 2012 may elect to receive their benefits as a lump sum.
- Unless otherwise elected, any benefit payable under the plan shall be paid on a 50% Joint and Survivor basis if the employee has been married to his current spouse for at least one year, or on a straight-life basis otherwise with the further provision that any benefits payable will be the actuarial equivalent of a straight-life benefit.

Schedule SB, Line 25 Change in Method

■ BOY to RMOY:

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

■ Alt MOY to RMOY:

The decrement timing used in the valuation was changed from alternative middle of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under alternative middle of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the middle of the year, and all other events are assumed to occur on valuation date anniversaries. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.
