**Plan Termination**

The Company was merged with and into ORIX Real Estate Capital Holdings, LLC on January 1, 2019. Effective January 1, 2019 the Plan was terminated, and contributions were discontinued. A new plan, ORIX Real Estate Capital Holdings, LLC was created. All amounts credited to participant accounts, including Company contributions, became fully vested upon termination. The assets of the Plan were transferred to the new plan effective April 1, 2019.

**Plan Description**

The following description of Lancaster Pollard & Co., LLC (the Company) Safe Harbor 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering all employees of the Company who are age 21 and have completed 90 days of service. Collective bargaining employees and non-resident aliens are ineligible to participate in the Plan. The Company's profit sharing contributions are limited to employees who are eligible to participate, have completed 1,000 hours of service during the Plan year, and are employed on the last day of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may authorize payroll deductions as before-tax contributions, not to exceed the federal limits. Participants who have attained age 50, before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes non-elective safe harbor contributions of 3% of eligible compensation for the Plan year. Additional discretionary profit sharing and qualified matching contributions may be made by the Company each year. For the periods ended April 1, 2019 and December 31, 2018, the Company did not elect to make any additional discretionary profit sharing or qualified matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Notes to Financial Statements**

---

Investment Options

A participant may direct contributions in any of the investment funds offered by the Plan. Participants may change their investment options at any time.

Vesting

Participants are vested immediately in their contributions and the employer's safe harbor contributions plus actual earnings thereon. Vesting in the Company's profit sharing contributions plus actual earnings thereon is based on years of service and is subject to the following vesting percentage provisions:

**Plan Description** (continued)

| <u>Years of Service</u> | <u>Vesting<br/>Percentage</u> |
|-------------------------|-------------------------------|
| Less than 3             | 0%                            |
| 3 or more               | 100%                          |

Payment of Benefits

A participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account upon termination of service due to separation of service, death, disability, retirement or other reasons. A participant may also receive the value of the participant's vested account by installment payments, partial payments, or an annuity contract.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Forfeited Accounts

Accounts forfeited by participants who terminate service prior to becoming fully vested may be used to reduce the contributions of the Company or used to pay plan expenses. There were no forfeitures in 2019 or 2018.

**Summary of Significant Accounting Principles**

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Fair Value Measurements footnote for discussion of fair value measurements.

Net appreciation in fair value of investments is reflected in the statements of changes in net assets available for benefits and includes realized gains and losses on investments bought and sold and the change in appreciation or depreciation from one period to the next.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the participant, as provided by the Plan agreement.

Subsequent Events

The Plan evaluated subsequent events through December 10, 2019, the date the financial statements were available to be issued. See Plan Termination footnote.

**Fair Value Measurements**

ASC 820, Fair Value Measurements and Disclosures establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1     Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2     Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;

---

**Notes to Financial Statements**

---

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 1, 2019:

*Mutual Funds and Money Market Account:* Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset values and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of April 1, 2019 and as of December 31, 2018:

| Investments at fair value as of April 1, 2019     |               |         |         |               |
