NOTE 1 – PLAN DESCRIPTION

The following description of NR Parentco LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established effective January 1, 2018, by NR Parentco LLC, (the "Company" or "Employer"), to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (IRC), and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan had transfers in of $145,633 from another plan on June 21, 2018.

Administration

The Company has appointed a Plan administrator to manage the operation and administration of the Plan, as well as the investments selected. The Company has contracted with Matrix Trust Company to act as the custodian, and Alliance Benefit Group to act as the third-party administrator to process and maintain the records of the participant data.

Eligibility

The Plan covers all full-time employees of the Company who have attained age 21 and have completed six months of service, excluding leased employees, employees covered by a collective bargaining agreement or nonresident aliens. All newly eligible employees may enroll in the Plan on the first day of the month.

Participant Contributions

Participants may elect to have the Company contribute their eligible pretax, or other after-tax, compensation to the Plan. Participants who have elected to contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The amount of such automatic enrollment will increase by 1% in the second through fourth year to a maximum of 6%. Contributions are subject to certain IRS limitations.

NOTE 1 – PLAN DESCRIPTION (Continued)

Employer Contributions
The Company may make discretionary matching, qualified non-elective and profit-sharing contributions to eligible employees. There were no contributions for the year ended December 31, 2018.

Vesting
Participants are immediately vested in their elective deferral contributions and qualified non-elective contributions, including actual earnings thereon. Participants are vested in discretionary matching and profit sharing contributions, as follows:

Completed Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

A participant's vesting percentage is 100% if any of the following conditions are met:

1. The participant has died.
2. The participant has become totally and permanently disabled, as defined by the Plan.
3. The participant reaches the Plan's normal retirement age of 65.
4. The Plan is terminated, or contributions to the Plan are discontinued.

Investment Options
Participants direct their salary deferral contributions to selected investments, as made available and determined by the Plan administrator. Participants may change their investment options any time throughout the year, via the internet website.

Forfeitures
Forfeited non-vested amounts are applied against future employer contributions or to pay Plan expenses. There were no forfeited non-vested account balances at December 31, 2018, applied to employer contributions.

Participant Accounts
Each participant's account is credited with the participant's contributions, employer contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – PLAN DESCRIPTION (Continued)

Benefit Payments
Upon termination of service due to death, disability, or retirement, a participant will receive a lump-sum or installment amount equal to the value of the participant's vested interest in his or her account. The Plan allows for an automatic distribution of participants' vested account balances more than $1,000 but less than $5,000. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Financial Hardship Distributions
The Plan allows hardship withdrawals in accordance with IRS regulations. Among other things, the withdrawal must be necessary in light of immediate and heavy financial needs of the participant and is limited to certain purposes.

Administrative Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Administrative expenses not paid by the Company will be charged on a pro rata basis to the value of the participants' account balances.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought or sold, as well as held during the year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)
Management fees charged to the Plan for investments are based on assets invested and are deducted on a daily basis. Management fees are reflected as a reduction of investment return for such investments.

Benefit Payments
Benefits are recorded when paid.

Income Taxes
The Plan has adopted a standardized form of a volume submitter profit sharing plan sponsored by Alliance Benefit Group. The volume submitter profit sharing plan has received an opinion letter from the Internal Revenue Service (IRS) as to the volume submitter profit sharing plan's qualified status. The volume submitter profit sharing plan's opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed, and is being operated, in compliance with the applicable provisions of the IRC.

Risks and Uncertainties
The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors will occur in the near term, and that such changes would materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent Events
The Plan has evaluated subsequent events through February 12, 2020, which is the date the financial statements were available to be issued and has determined that there are no subsequent events that require disclosure.

NOTE 3 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs, other than quoted prices, that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data, by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in methodologies used during the year ended December 31, 2018. Following are descriptions of the valuation methodologies used for assets measured at fair value:

Registered investment companies (mutual funds)	Valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value, and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value, or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses the fair value hierarchy of the Plan's investments by level, as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 186,594	$ -	$ -	$ 186,594
Total assets in the fairvalue hierarchy	$ 186,594	$ -	$ -	186,594
Investments measured at NAV (practical expedient) (guaranteed investment (contracts) (a)				211
				$ 186,805

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent), and were measured this way as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit responsive group annuity contract with the Standard Insurance Company by investing in the Standard Stable Asset Fund. The Standard Insurance Company maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the Standard Insurance Company.

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The fully benefit-responsive group annuity contract is a traditional contract, whereby the Plan owns only the contract itself. Contract value at December 31, 2018 totaled $211.

The Plan's investment contract specifies that generally there are not any events that could limit the ability of the Plan to transact at contract value paid within 30 days or, in rare circumstances, contract value paid over time. There are not any events that allow the issuer to terminate the contract and which require the plan sponsor to settle at an amount different than contract value paid within 30 days or over time. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

The crediting interest rate of the contract is based on an agreed-upon formula with the Standard Insurance Company, as defined in the contract agreement, but cannot be less than 1.0%. Such interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future crediting rates could include the following: current economic and market conditions; the level of market interest rates; and both the expected and actual experience of a reference portfolio within the Standard Insurance Company's general account.

NOTE 5 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by affiliates of Matrix Trust Company, the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 6 – CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2018, and net depreciation in fair value of investments, interest, and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator, and certified as completed and accurate by Matrix Trust Company, the custodian of the Plan.

NOTE 7 – UNCERTAIN TAX POSITIONS

U.S. GAAP requires the Plan administrator to evaluate tax positions taken by the Plan, and recognize a tax liability or asset if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS or the DOL. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or asset, or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in question.

NOTE 8 – PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time, by resolution of its board of directors, and is subject to the provisions of ERISA. Upon termination of the Plan, further contributions to the Plan shall cease, and all participants who are affected by such termination shall become 100% vested. Net assets available for benefits would be distributed to the participants, based on each participant's interest in the Plan.
