PILLAR TECHNOLOGY GROUP, LLC RETIREMENT PLAN

Notes to Financial Statements
December 31, 2018 and 2017

Plan Description

The following description of the Pillar Technology Group, LLC (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to all employees of the Company who have been credited with three months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan pays substantially all administrative and professional fees related to the Plan.

During August 2018, the Company was sold to Accenture which resulted in the termination of the Plan. The liquidation was completed in 2019 with all participant balances either being rolled over into a successor 401(k) plan at Accenture or distributed to participants.

Contributions

Prior to August 2017, upon satisfying all eligibility requirements, employees were automatically enrolled in the Plan and contributed at a default rate of 3% of pre-tax or after tax annual compensation, as defined by the plan document, unless otherwise elected. During August 2017, the Plan was amended and now employees are automatically enrolled and contribute at a default rate of 6% of pre-tax or after tax annual compensation, as defined by the plan document. Participants may elect to defer up to 100% of pre-tax or after tax annual compensation. Further, employees may opt out of the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make discretionary employer matching and profit sharing contributions. Prior to August 2017, the Company matched 50% of the participants' elective deferrals up to 2% of their gross compensation. During August 2017, the Plan was amended and the Company now matches 50% of participants' elective deferrals up to 3% of their gross compensation. There were no discretionary profit sharing contributions made for 2018 or 2017. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

RETIREMENT PLAN

Notes to Financial Statements
December 31, 2018 and 2017

Plan Description (continued)

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Prior to the termination of the Plan in August 2018, vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, were based on years of continuous service and were subject to the following vesting schedule:

Years of Service	Vesting
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 but less than 4	75%
4 or more	100%

Notes Receivable from Participants

Participants may borrow from their individual vested account balances up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. However, the \$50,000 amount in the preceding sentence is reduced by the highest outstanding loan balance the participant had under the Plan during the previous 12-month period. Loans must be repaid within five years unless the loan is granted to allow the participant to purchase his or her principal residence in which the loan must be repaid no later than 30 years from issuance of the loan. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with rates charged by commercial lender charges under similar circumstance. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to separation of service, disability or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or receive installments. For termination of service due to death of a participant, the beneficiary will receive a lump-sum distribution that will be equal to the participant's account. The participant's account will become fully vested upon the death or disability of the participant before termination of employment or reaching age 65 while still employed. Participants may withdraw up to 100% of their elective accounts, matching contributions and discretionary contributions, plus actual earnings thereon, in the event of undue financial hardship as provided for in the plan agreement.

RETIREMENT PLAN

Notes to Financial Statements December 31, 2018 and 2017

Plan Description (continued)

Forfeited Accounts

As of December 31, 2018 and 2017, forfeited non-vested accounts were \$4,650 and \$9,713, respectively. These accounts are used by the Plan to restore previously forfeited accounts, pay administrative expenses of the Plan or to reduce future employer contributions. During 2018, \$21,282 forfeited non-vested accounts were used to pay administrative expenses of the Plan and \$3,501 forfeited non-vested accounts were used to reduce employer contributions. No forfeited non-vested accounts were used to pay administrative expenses or reduce employer contributions in 2017.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Effective August 2018, the Company was sold to Accenture which resulted in the termination of the Plan. As a result, the Plan's financial statements as of and for the year ended December 31, 2018 have been prepared on the liquidation basis of accounting. This basis of accounting is considered appropriate when, among other things, liquidation of an entity is probable and the net realizable value of assets are reasonably determinable. Under the liquidation basis of accounting, assets are stated at their estimated net realized cash value and liabilities are stated at their anticipated settlement amounts. The estimated net realizable cash value for investments as of December 31, 2018 would be fair value. There were no material changes to the 2017 financial statements as a result of the change under the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

PILLAR TECHNOLOGY GROUP, LLC RETIREMENT PLAN

Notes to Financial Statements December 31, 2018 and 2017

Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Information Prepared and Certified by the Trustees

The following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was obtained from the data that has been prepared and certified as complete and accurate by Sunwest Trust, Inc. and Nationwide Financial Services, Inc., including its subsidiary Nationwide Trust Company, FSB, a division of Nationwide Bank, the trustees of the Plan.

The trustees also certified the completeness and accuracy of the following related to the aforementioned assets for the years ended December 31:

	2018	2017
Net (depreciation) appreciation in fair value of investments	\$(1,377,228)	\$ 1,215,202

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 are significant unobservable inputs for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Exchange

Traded Funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The exchange traded funds are considered Level 1 investments as of December 31, 2018 and 2017.

PILLAR TECHNOLOGY GROUP, LLC

RETIREMENT PLAN

Notes to Financial Statements December 31, 2018 and 2017

Plan Termination

During August 2018, the Company elected to terminate the Plan subject to the provisions of ERISA. As a result of the Plan's termination, participants became 100% vested in their accounts.

Tax Status

The Company utilizes a prototype non-standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-in-Interest Transactions

The Plan pays certain investment management and administrative expense to the trustees and a third party administrator (TPA). Therefore, these transactions qualify as party-in-interest. Total expenses paid to the trustees and TPA during 2018 and 2017 were approximately \$88,000 and \$42,000, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the accompanying 2018 statement of net assets available for benefits.

Subsequent Events - Date of Management's Review
