Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the plan document and *Summary Plan Description*, which are available from the plan administrator.

General

The Plan is a noncontributory, trustee, defined benefit retirement plan covering certain employees of Somerset Hospital (the "Plan Sponsor") who have attained the age of 21 and have one year of service with at least 1,000 hours of service. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

The Plan Sponsor previously determined that no employee who is hired after December 31, 2003, shall be eligible to participate in the Plan. As of June 30, 2008, all benefit accruals have been frozen. Refer to the *Summary Plan Description* for more detail regarding the transition from the freeze on plan entry to the final freeze on benefit accruals.

Effective February 1, 2019, the Plan Sponsor merged into the University of Pittsburgh Medical Center (UPMC) network of hospitals and became UPMC Somerset.

Contributions

The Plan Sponsor has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Plan Sponsor's present intention is to make contributions in amounts sufficient to fund the Plan's normal costs on a current basis and to fund prior service costs over periods permitted by ERISA. The Plan has met the minimum funding requirements established by ERISA.

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Benefits under the Plan are based on employees' five highest compensation years during their last ten years of credited service. Normal retirement occurs at age 65, but early retirement with a reduced benefit may be elected at age 55 with at least five years of service. Benefits upon retirement are paid in the form of an annuity or a lump-sum distribution. Participants with a present value of benefits of less than \$1,000 automatically receive a full distribution of the value of their benefit in a lump-sum payment from the Plan. Participants with a present value of benefits equal to or greater than \$1,000 and not greater than \$5,000 will receive an automatic rollover absent of an affirmative election to an IRA or elective lump-sum full distribution of the value of their benefit from the Plan.

Death Benefits

The Plan provides a death benefit for beneficiaries of vested plan participants who die prior to the commencement of benefits. The death benefit can be in the form of a monthly benefit or a lump sum.

When a retired participant who is receiving benefits dies, the participant's beneficiary is entitled to any benefits due under the form of benefit elected by the participant upon retirement.

Vesting

Eligible employees are fully vested upon completion of five years of vesting service.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are carried at fair value in the accompanying financial statements. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Cash equivalents consist of money market funds for which the carrying value reported in the statement of net assets available for benefits approximates fair value.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Plan Sponsor or the Plan, at the Plan Sponsor's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see *Note 5*) are those estimated future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Present employees or their beneficiaries

Benefits under the Plan are based on employees' five highest compensation years during their last ten years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances—retirement, death and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Note 3: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Retirement Plan for Employees of Somerset Community Hospital

Notes to Financial Statements

June 30, 2019 and 2018

- e. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 4: Certification of Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Somerset Trust Company, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate to the best of their knowledge.

- Investments as shown in the statements of net assets available for benefits as of June 30, 2019 and 2018.
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended June 30, 2019 and 2018.
- Investment information included in the accompanying schedule of assets (held at year end) as of June 30, 2019, and schedule of reportable transactions for the year ended June 30, 2019.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 5: Accumulated Plan Benefits

An independent actuary determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

The Plan's investments are held by Somerset Trust Company. Somerset Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan incurred fees of \$27,953 and \$33,524 for trust department services for the years ended June 30, 2019 and 2018, respectively.

Morgan Stanley Graystone Consulting served as investment consultant for the Plan beginning in July 2017. The Plan paid direct fees of \$32,431 and \$26,566 for investment consulting services for the years ended June 30, 2019 and 2018, respectively.

The Plan Sponsor provides certain administrative services at no cost to the Plan.

Note 7: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2019 and 2018:

2019				
Fair Value Measurements Using				
	Fair Value	Level 1	Level 2	Level 3
Mutual funds	\$ 19,206,838	\$ 19,206,838	\$ -	\$ -
Cash equivalents	10,183,730	10,183,730	-	-

2018

Mutual funds	\$ 19,216,889	\$ 19,216,889	\$ -	\$ -

Investments at fair value	<u>\$ 19,464,356</u>	<u>\$ 19,464,356</u>	<u>\$ -</u>	<u>\$ -</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended June 30, 2019 and 2018. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See *Note 2* for inputs and valuation techniques used to determine fair value.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10: Tax Status

The Plan obtained its latest determination letter on September 12, 2016, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 11: Recently Issued Accounting Standard

The Financial Accounting Standards Board amended its reporting and disclosure requirements for employee benefit plans that hold an interest in a master trust. Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – Employee Benefit Plan Master Trust Reporting* addresses limitations and inconsistencies of financial statements presentation and disclosure requirements among various plan types for investments in master trusts. The amendments require plans to present interest in the master trust and change in that interest on the face of the Plan's financial statements.

In addition to the existing requirement to disclose the fair value of investments held by the master trusts, the plan's interest in the master trust's investments will have to be disclosed by each general investment type. Plans also will be required to disclose the amount of the plan's interest in each investment type. As a result, plans with a divided interest, *i.e.*, specific rather than a proportionate interest, in the master trust's individual investments will no longer be required to disclose the plan's overall percentage in the trust.

Retirement Plan for Employees of Somerset Community Hospital

Notes to Financial Statements

June 30, 2019 and 2018

Plans also will be required to disclose the master trust's other asset and liability balances, which include – among other items – amounts due from brokers for securities sold, amounts due to brokers for securities purchased, accrued interest and dividends and accrued expenses. As with the investment disclosure, plans also will be required to disclose the amount of the plan's interest in each of those other assets and liability balances.

The standard is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. Retrospective application is required for each period the financial statements are presented.

Note 12: Subsequent Events

Subsequent events have been evaluated through March 3, 2020, which is the date the financial statements were available to be issued.

Plan Merger into UPMC Basic Retirement Plan

Effective December 31, 2019, the Plan was merged into the UPMC Basic Retirement Plan and the assets and liabilities of the Plan were transferred to the UPMC Basic Retirement Plan. Upon the transfer of such assets, the obligation to provide benefits accrued under this Plan as of December 31, 2019, shall cease to be an obligation of the Plan and will instead become an obligation of the UPMC Basic Retirement Plan.

In anticipation of the Plan merger, substantially all of the Plan's investments were liquidated and subsequently invested in the UPMC Master Trust during October 2019, which resulted in the Plan changing their trustee to BNY Mellon.

¹ Based on the option under 1.430(h)(3)-1(f)(2) to defer the updated mortality basis to 2019.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by fractions, 2/3 and 1/3 of the gain/(loss) in each of the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions. The expected return on assets is based on expected rates of return by asset category.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2018 Expected Return	7.00%	6.29%	6.29%
2017 Expected Return	7.00%	6.48%	6.48%
2016 Expected Return	7.00%	6.65%	6.65%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.
