Note 1. Plan Description

The following description of the T.A. Kaiser Heating & Air, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of T.A. Kaiser Heating & Air, Inc. (Employer or Company), who are age 21 or older and have completed one year of service, are not covered under a collective bargaining agreement and are not nonresident aliens, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a percentage of their annual pre-tax compensation, as defined, up to the maximum amount allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes a non-elective Safe Harbor contribution equal to 100 percent of the amount a participant contributes of the first 3 percent of plan compensation plus 50 percent of the amount a participant contributes between 3 percent and 5 percent of plan compensation. In addition, the Company may make additional discretionary matching contributions or profit sharing contributions to the Plan at the option of the Company's Board of Trustees. There were no discretionary matching or profit sharing contributions approved in 2019. Company contributions are invested in a manner that is consistent with participant contributions. All contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company’s Safe Harbor matching contribution, the Company's discretionary matching contribution, if any, an allocation of the discretionary Company profit-sharing contributions, if any, plan earnings and administrative expenses. Allocations are based on account balances or compensation, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and the Company Safe Harbor matching contributions, including the actual earnings thereon. Vesting for the Company discretionary matching and profit sharing contributions is based on years of service, as defined by the Plan Agreement. A participant is 100 percent vested after three years of credited service.

Investment options: Upon enrollment in the Plan, participants direct the investment of their contributions into a variety of investment options, as more fully described in the Plan’s literature. Participants may change their investment options at any time.

Notes receivable from participants: Active participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Three outstanding loans are permitted per participant at any time. The maximum loan term allowed is five years unless used to purchase the participant’s principal residence. The loans are collateralized by the balance in the participant's account and bear interest at rates commensurate with prevailing rates. At August 5, 2019, interest rates ranged from 4.25 percent to 6.50 percent. Principal and interest are payable each pay period, primarily through payroll deduction.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of employment for any reason including retirement, the participant may elect to receive a lump-sum amount equal to the vested value of his or her account. Participants may make withdrawals of discretionary employer matching and profit sharing contributions upon reaching age 58 and withdrawals of salary deferrals and safe harbor contributions upon reaching age 59 ½. In addition, participants may make withdrawals by determination that a financial hardship, as defined by the Plan Agreement, has been incurred.

Forfeited accounts: Forfeitures of the employer's contributions will be used for the payment of plan expenses or to reduce future employer matching contributions. At August 5, 2019 and December 31, 2018 there were no forfeited non-vested accounts. No forfeitures were used to reduce Company contributions during the period ended August 5, 2019 and the year ended December 31, 2018.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for fully-benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the Plan's investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administration of plan assets: Administrative expenses for the 2019 plan year for the trustee's fees were paid by the Plan.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through April 3, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified by Massachusetts Mutual Life Insurance Company (MassMutual)

The following is a summary of the Plan's asset information as of August 5, 2019 and December 31, 2018, and for the period ended August 5, 2019, included throughout the Plan's financial statements, that was prepared by or derived from information provided by MassMutual and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears in this Note, Note 4, and throughout the financial statements related to the following assets:

	2019	2018
Investments, at fair value:		
Mutual funds	$ -	$ 2,800,062
Investments, at contract value:		
Guaranteed investment contract	-	226,018
	$ -	$ 3,026,080
Notes receivable from participants	$ -	$ 116,171

MassMutual also certified as to the completeness and accuracy of $465,390 of net appreciation in fair value of investments, $4,547 of interest and dividends and $3,253 of interest income on notes receivable from participants for the period ended August 5, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 5, 2019 and December 31, 2018.

***Shares of mutual funds*:** Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of August 5, 2019 and December 31, 2018:

	Assets at Fair Value as of August 5, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ -	$ -	$ -

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,800,062	$ -	$ -	$ 2,800,062

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the period ended August 5, 2019, the only transfer relates to the plan merger, as discussed in Note 6.

Note 5. Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive investment contract with MassMutual, who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5. Investment Contract with Insurance Company (Continued)

The guaranteed investment contract is fully benefit-responsive, and as such, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contact, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average annual yield and crediting interest rates were approximately 3.2 percent for the period ended August 5, 2019. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with MassMutual. The Plan Administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan's participants is not probable.

The guaranteed investment contract does not permit MassMutual to terminate the agreement prior to the scheduled maturity date.

Note 6. Plan Merger

On November 30, 2018, the Plan's Sponsor, T.A. Kaiser Heating & Air, Inc., was acquired by Airtron, Inc. On August 5, 2019, the T.A. Kaiser Heating & Air Inc. 401(K) Profit Sharing Plan was merged into the Direct Energy U.S. 401(k) plan, sponsored by the parent of Airtron, Inc. As a result, all net assets of the plan, which approximated $3,770,000, were transferred to the control of Direct Energy U.S. 401(K) plan at August 5, 2019. The merger does not impact participant benefits as the benefit provisions were incorporated in the Direct Energy U.S. 401(k) Plan.

Note 7. Related-Party Transactions

The MassMutual Guaranteed Interest Account Fund (GIA) is managed by MassMutual Life Insurance Company. The GIA is provided through a group annuity contract issued by MassMutual to a retirement plan. MassMutual is the directed trustee for the fund and, therefore, these transactions qualify as exempt party-in-interest transactions. During the plan period ended August 5, 2019, MassMutual and a third party advisor received fees paid by the Plan for their services provided to the Plan totaling $19,786.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2015, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is exempt from taxation at the financial statement date.

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded as of August 5, 2019, there are no uncertain positions taken by or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1. Plan Description

The following description of the T.A. Kaiser Heating & Air, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of T.A. Kaiser Heating & Air, Inc. (Employer or Company), who are age 21 or older and have completed one year of service, are not covered under a collective bargaining agreement and are not nonresident aliens, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a percentage of their annual pre-tax compensation, as defined, up to the maximum amount allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes a non-elective Safe Harbor contribution equal to 100 percent of the amount a participant contributes of the first 3 percent of plan compensation plus 50 percent of the amount a participant contributes between 3 percent and 5 percent of plan compensation. In addition, the Company may make additional discretionary matching contributions or profit sharing contributions to the Plan at the option of the Company's Board of Trustees. There were no discretionary matching or profit sharing contributions approved in 2019. Company contributions are invested in a manner that is consistent with participant contributions. All contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company’s Safe Harbor matching contribution, the Company's discretionary matching contribution, if any, an allocation of the discretionary Company profit-sharing contributions, if any, plan earnings and administrative expenses. Allocations are based on account balances or compensation, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and the Company Safe Harbor matching contributions, including the actual earnings thereon. Vesting for the Company discretionary matching and profit sharing contributions is based on years of service, as defined by the Plan Agreement. A participant is 100 percent vested after three years of credited service.

Investment options: Upon enrollment in the Plan, participants direct the investment of their contributions into a variety of investment options, as more fully described in the Plan’s literature. Participants may change their investment options at any time.

Notes receivable from participants: Active participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Three outstanding loans are permitted per participant at any time. The maximum loan term allowed is five years unless used to purchase the participant’s principal residence. The loans are collateralized by the balance in the participant's account and bear interest at rates commensurate with prevailing rates. At August 5, 2019, interest rates ranged from 4.25 percent to 6.50 percent. Principal and interest are payable each pay period, primarily through payroll deduction.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of employment for any reason including retirement, the participant may elect to receive a lump-sum amount equal to the vested value of his or her account. Participants may make withdrawals of discretionary employer matching and profit sharing contributions upon reaching age 58 and withdrawals of salary deferrals and safe harbor contributions upon reaching age 59 ½. In addition, participants may make withdrawals by determination that a financial hardship, as defined by the Plan Agreement, has been incurred.

Forfeited accounts: Forfeitures of the employer's contributions will be used for the payment of plan expenses or to reduce future employer matching contributions. At August 5, 2019 and December 31, 2018 there were no forfeited non-vested accounts. No forfeitures were used to reduce Company contributions during the period ended August 5, 2019 and the year ended December 31, 2018.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for fully-benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the Plan's investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administration of plan assets: Administrative expenses for the 2019 plan year for the trustee's fees were paid by the Plan.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through April 3, 2020, the date the financial statements were available to be issued.

Note 3. Information Certified by Massachusetts Mutual Life Insurance Company (MassMutual)

The following is a summary of the Plan's asset information as of August 5, 2019 and December 31, 2018, and for the period ended August 5, 2019, included throughout the Plan's financial statements, that was prepared by or derived from information provided by MassMutual and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears in this Note, Note 4, and throughout the financial statements related to the following assets:

	2019	2018
Investments, at fair value:		
Mutual funds	$ -	$ 2,800,062
Investments, at contract value:		
Guaranteed investment contract	-	226,018
	$ -	$ 3,026,080
Notes receivable from participants	$ -	$ 116,171

MassMutual also certified as to the completeness and accuracy of $465,390 of net appreciation in fair value of investments, $4,547 of interest and dividends and $3,253 of interest income on notes receivable from participants for the period ended August 5, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 5, 2019 and December 31, 2018.

***Shares of mutual funds*:** Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of August 5, 2019 and December 31, 2018:

	Assets at Fair Value as of August 5, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ -	$ -	$ -	$ -

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,800,062	$ -	$ -	$ 2,800,062

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the period ended August 5, 2019, the only transfer relates to the plan merger, as discussed in Note 6.

Note 5. Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive investment contract with MassMutual, who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5. Investment Contract with Insurance Company (Continued)

The guaranteed investment contract is fully benefit-responsive, and as such, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contact, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average annual yield and crediting interest rates were approximately 3.2 percent for the period ended August 5, 2019. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with MassMutual. The Plan Administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan's participants is not probable.

The guaranteed investment contract does not permit MassMutual to terminate the agreement prior to the scheduled maturity date.

Note 6. Plan Merger

On November 30, 2018, the Plan's Sponsor, T.A. Kaiser Heating & Air, Inc., was acquired by Airtron, Inc. On August 5, 2019, the T.A. Kaiser Heating & Air Inc. 401(K) Profit Sharing Plan was merged into the Direct Energy U.S. 401(k) plan, sponsored by the parent of Airtron, Inc. As a result, all net assets of the plan, which approximated $3,770,000, were transferred to the control of Direct Energy U.S. 401(K) plan at August 5, 2019. The merger does not impact participant benefits as the benefit provisions were incorporated in the Direct Energy U.S. 401(k) Plan.

Note 7. Related-Party Transactions

The MassMutual Guaranteed Interest Account Fund (GIA) is managed by MassMutual Life Insurance Company. The GIA is provided through a group annuity contract issued by MassMutual to a retirement plan. MassMutual is the directed trustee for the fund and, therefore, these transactions qualify as exempt party-in-interest transactions. During the plan period ended August 5, 2019, MassMutual and a third party advisor received fees paid by the Plan for their services provided to the Plan totaling $19,786.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2015, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is exempt from taxation at the financial statement date.

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded as of August 5, 2019, there are no uncertain positions taken by or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
