Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollover).

At the discretion of the Company's Board of Directors, the Company may contribute a discretionary profit-sharing or a discretionary matching contribution based on participant classification and their eligible compensation. Participants must have completed six months of service, as defined, to be eligible for employer contributions. For the year ended June 30, 2019, the Company's Board of Directors elected to make a discretionary profit-sharing contribution equal to 3% of eligible compensation for certain eligible participants and a discretionary matching contribution of up to 3% of eligible compensation for certain eligible participants, as defined by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions, as well as allocations of any of the Company's discretionary profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF THE PLAN – CONTINUED

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching, profit sharing and non-elective contribution portions of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after five years of credited service.

Effective June 28, 2019, any Participant who was employed by the Company in the Washington, DC Operations on the date of the sale/divestiture of the Washington, DC Operations to Thompson Gray is 100% vested in his Account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a fixed rate that ranges from 4.25% to 6.50%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant becomes eligible for benefits upon termination of employment, death, or disability. In-service withdrawals are permitted after age 59-1/2 or due to financial hardship. Benefits are payable in a lump-sum or installments. Terminated participants with a vested balance less than \$5,000 that have not elected payment will automatically be rolled over to an IRA by the Plan administrator, in the absence of participant distribution instructions.

Forfeitures

Forfeitures will be used to reduce future employer contributions or pay administrative expenses. Forfeited nonvested accounts totaled \$54,204 and \$20,142 at June 30, 2019 and July 1, 2018, respectively. During the year ended June 30, 2019, forfeitures of \$412,659 funded employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the guaranteed investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Advisory Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2019 or July 1, 2018.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the Company. Fees related to certain participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

3. CERTIFIED INVESTMENTS BY THE CERTIFYING ENTITIES

The following is a summary of the unaudited information regarding the Plan as of June 30, 2019 and July 1, 2018 and for the year ended June 30, 2019 included in the Plan's financial statements and supplemental schedule, which was prepared by or derived from information prepared by the John Hancock Trust Company, LLC (the Trustee) and the New York Life Insurance Company (NYLIC or the Insurance Company), and furnished to the Plan administrator.

	<u>2019</u>	<u>2018</u>
Statements of Net Assets Available for Benefits		
Investments, at fair value	\$ 252,617,937	\$ 225,307,377
Investments, at contract value	32,354,937	27,674,967
Statement of Changes in Net Assets Available for Benefits		
Net appreciation in fair value of investments	10,038,789	
Dividend and interest income	3,914,354	

Supplemental schedule: All investment balances and information included in the supplemental Schedule of Assets (Held at End of Year).

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement, are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2019 and July 1, 2018

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage investments: Accounts primarily consist of interest-bearing deposits, mutual funds, and common stocks that are valued on a basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019 and July 1, 2018:

Assets at Fair Value as of June 30, 2019				
Description	Quoted Prices in Active Markets Level 1	Significant		Total

5. GUARANTEED INTEREST ACCOUNT WITH INSURANCE COMPANY

The Plan maintains a benefit-responsive guaranteed investment contract with NYLIC in the form of a fixed income account. NYLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by NYLIC.

Because the fixed income account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed income account. Contract value, as reported to the Plan by the Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption under ERISA. In the event of discontinuance, the Plan must elect Option A or Option B to take effect. Under Option A, NYLIC will pay an amount equal to 100% of the withdrawal at discontinuance in full discharge of all liability of NYLIC in respect thereto. NYLIC reserves the right to make such payment in annual installments over a period not to exceed six years, in which event interest will be credited on the unpaid balance at a rate per annum. Under Option B, the Plan may specify that the withdrawal at discontinuance be made in one lump-sum payment not to exceed 90 days from the date NYLIC receives notice of discontinuance. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee, the Insurance Company and Ameritrade Retirement Services; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. The Plan Sponsor pays directly any other fees related to the Plan's operation.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer profit-sharing contributions.

NOTES TO THE FINANCIAL STATEMENTS

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated August 14, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and; therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. TRANSFER OF ASSETS

During the Plan year ended July 2, 2017, the Company opened an internal market to transfer assets from the 401(k) Plan to the Company's Employee Stock Ownership Plan (ESOP). Participants are not permitted to liquidate more than \$200,000 of their 401(k) Plan accounts in connection with these transfers. During the Plan year ended June 30, 2019, participants transferred assets of \$2,678,400 from the Plan to the ESOP as part of the internal market. Additionally, assets of \$3,705,790 were transferred to the Plan from the ESOP during the Plan year ended June 30, 2019 as a result of diversification of assets, segregation of terminated participant accounts, and loan transfers.

10. SUBSEQUENT EVENTS

Effective July 1, 2019, the Plan was amended to add an automated increase provision to the automatic enrollment feature. For employees hired after July 1, 2019, the deferral rate for each employee will be increased by 1% annually on their anniversary date of plan entry to a maximum of 15% unless the Participant elects otherwise.

10. SUBSEQUENT EVENTS – CONTINUED

On December 17, 2019, Leidos Holdings, Inc. entered into a definitive Stock Purchase Agreement to acquire the Company. The Board of Directors of both companies unanimously approved the transaction. Upon satisfaction of customary closing conditions, including receipt of regulatory approvals, the transaction closed January 31, 2020. Management is currently evaluating the impact of the transaction on the Plan. Pursuant to the Stock Purchase Agreement, the ESOP will be terminated contingent upon and effective as of the first business day following the close of the transaction (the Termination Date). Effective as of the Termination Date, the Plan is amended to provide for the receipt and acceptance of amounts transferred from the ESOP and to permit active employees of the Company to roll over to the Plan amounts distributed from the ESOP, as defined by the Plan Document.

Subsequent to year end, the coronavirus pandemic along with the government responses to attempt to control the spread of the pandemic has created a disruption in the global supply chains. This has triggered a global economic slowdown which is adversely impacting many industries. It is currently uncertain as to how long this pandemic could impact the economic and market conditions. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact. This pandemic presents material uncertainty and risk that could negatively impact the Plan and its future performance and financial results.

Management has evaluated subsequent events through April 6, 2020, which is the date the financial statements were available to be issued and have determined there are no additional subsequent events that require disclosure under FASB ASC 855, *Subsequent Events*.
