PETERSEN ALUMINUM CORPORATION
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019 AND 2018

(1) DESCRIPTION OF PLAN:

The following description of the Petersen Aluminum Corporation 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General -

The Plan is a defined contribution plan covering all eligible employees of Petersen Aluminum Corporation and Petersen Finishing Corporation, an affiliated company through common ownership. On January 10, 2019, these two entities merged and the surviving company was Petersen Aluminum Corporation. An employee becomes eligible to participate upon completion of one year of Company service and attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions -

Each year, participants may contribute to the plan up to 92 percent of their annual compensation, with such contributions not to exceed the maximum allowable by law annually. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company safe harbor contribution to the plan equals 100% of the participant's elective deferrals that do not exceed 4% of the participant's compensation. Company profit sharing contributions to the Plan are discretionary as determined by the Employer.

Participant Accounts -

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings, net of administrative expenses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Vesting -

Participants are vested immediately in their contributions and safe harbor matching contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

(1) DESCRIPTION OF PLAN (continued):

Notes Receivable from Participants -

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. Notes receivable must bear a reasonable rate of interest and must be repaid over a reasonable period of time. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits -

On termination of service due to death, disability, or retirement, the vested account balance shall be paid as soon as administratively feasible, following the close of the valuation period during which a distribution is requested.

The Plan also allows for in-service hardship withdrawals and employee loans under certain conditions.

Forfeitures -

At June 30, 2019 and 2018, forfeited non-vested accounts totaled $33,352 and $31,225, respectively. These accounts will be used to reduce future employer contributions. During the year ended June 30, 2019 and 2018 the Plan used $41,150 and $27,000 of forfeitures to reduce employer contributions.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting –

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results may differ from those estimates.

Investment Valuation and Income Recognition -

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Notes Receivable from Participants -

Notes receivable from participants are measured and reported at their unpaid principal balances plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2019 and 2018.

Payment of Benefits –

Benefits are recorded when paid.

Expenses -

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in the administrative expenses. Investment related expenses are included in net appreciation of fair value investments.

Subsequent Events -

The Plan has evaluated subsequent events through March 27, 2020, the date the financial statements were available to be issued. See Note 6.

(3) FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(3) FAIR VALUE MEASUREMENTS (continued):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019:

	Level 1	Total
Mutual Funds	$30,110,101	$30,110,101
Investments at Fair Value	$30,110,101	$30,110,101

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2018:

	Level 1	Total
Mutual Funds	$26,662,119	$26,662,119
Investments at Fair Value	$26,662,119	$26,662,119

(4) STABLE ASSET PORTFOLIO:

The Plan has a stable asset portfolio option that is considered a benefit-responsive guaranteed investment contract with JPMorgan totaling $2,709,443 for 2019 and $2,157,261 for 2018. JPMorgan maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(4) STABLE ASSET PORTFOLIO (continued):

The contract meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under terms of the Plan. Contract value, as reported to the Plan by JPMorgan, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal incomes taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

(5) TRANSACTIONS WITH PARTIES-IN-INTEREST:

For the Plan years ended June 30, 2019 and 2018, certain accounting fees were paid by the Plan Sponsor. Certain employees of the companies perform administrative services for the Plan. These employees receive no compensation from the Plan for these services. Certain Plan investments are managed by JP Morgan. JPMorgan is a Plan trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan has had no other transactions with parties in interest.

(6) PLAN TERMINATION:

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. On August 30, 2019, the Plan was terminated and merged into another qualified benefit plan. The Plan the assets were transferred into is identified on Form 5500 Schedule H for the period ending August 30, 2019. Because the termination and merger are not considered a liquidation, these financial statements as of June 30, 2019, are not reported on a liquidation basis.

(7) TAX STATUS:

The IRS has determined and informed the company by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the appropriate taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

(8) RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(9) CERTIFIED INVESTMENTS:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investment values, notes receivable from participants, net appreciation in fair value of investments and interest and dividend income as of, and for the year ended June 30, 2019 and 2018, were certified as complete and accurate by Reliance Trust (the trustee of the plan).
