INTEGRAL MANUFACTURING 401(K) PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of Integral Manufacturing 401(k) Plan (the "Plan") are prepared on the accrual basis using accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Expenses

Certain expenses of the Plan are paid by its participating employers Integral Manufacturing, Inc. and Subsidiaries ("the Company"), and accordingly, are not reflected in the Plan's financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Related Party Transactions

Certain Plan investments are invested in funds with a registered investment company managed by Delaware Charter Guarantee and Trust Company d.b.a. Principal Trust Company. Principal Trust Company is the asset custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest.

Several employees of the Company provide administrative services to the Plan. These services include oversight and day-to-day administration. The Plan is not charged by the Company for these services, and accordingly they are not reflected in the Plan's financial statements.

INTEGRAL MANUFACTURING 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Company has evaluated events subsequent to the balance sheet date of June 30, 2019 through April 10, 2020, which is the date these financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Integral Manufacturing 401(k) Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan. The original effective date is November 1, 2018. All employees of the Company are eligible for participation in the Plan and for employer contributions if they have completed 3 months of service and have attained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of annual compensation, as defined by the Plan, on a pretax or aftertax (Roth) basis. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended. Eligible employees are automatically enrolled at 5% unless the employee affirmatively elects otherwise. Participants designate the percentage of their total contribution to be invested in any of the Plan's investment funds and target-date funds. Participants may change the percentage of their contributions invested in each account and may make transfers between accounts anytime during the year.

The Company contributes a safe harbor employer match contribution of 100% of the first 3% of eligible compensation, plus 50% of the next 2% of eligible compensation.

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Transfers

The Company had previously sponsored the Brassgate Industries, Inc. Retirement Plan, which was terminated effective May 31, 2019. Participant account balances from the Brassgate Industries Inc. Retirement Plan were transferred into the Integral Manufacturing 401(k) Plan during 2019.

INTEGRAL MANUFACTURING 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and a pro-rata allocation of the Plan's earnings. The pro-rata allocation is based on the proportion of individual account balances to total participants' account balances in the respective investment funds. Each participant's account is reduced by participant withdrawals, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and employer safe harbor match, plus actual earnings thereon.

Payment of Benefits

Upon a participant's retirement, death, total and permanent disability, other termination of employment with the Company, or termination of the Plan, the participant's account is distributed as a lump sum distribution.

In-service distributions are permissible from the Plan for participants that have attained the age of 65.

Notes Receivable from Participants

Participant loans are available on amounts in the participant's account. The minimum loan amount is \$1,000 and maximum loan amount is the lesser of $\frac{1}{2}$ of the participant's vested account balance or \$50,000. The vested participant account balance will be used as collateral for any loan. All loans shall bear a reasonable rate of interest as determined by the plan administrator. All loans must be repaid within 5 years except in the case of a loan for acquiring a home. Participants may only have 1 loan outstanding at any given time.

NOTE 3 TAX STATUS

The Plan has adopted a prototype plan. The Internal Revenue Service ("IRS") has determined and informed the prototype plan by a letter dated on March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the prototype provider received the advisory opinion, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified.

NOTE 4 FAIR VALUE MEASUREMENTS

GAAP provisions for Fair Value Measurements establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies' funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: Valued based on the NAV of units of a collective trust as published by the trustee. The existence of certain conditions can limit the trust's ability of the Plan to transact with participants at fair value of the collective trust. Specifically, any event outside the normal operation of the trust which causes a withdrawal from the investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, layoffs, bankruptcy, plant closings, plan termination, mergers, early retirement incentives, communications designed to induce participants to transfer from the fund, competing fund transfer or violation of equity wash or equivalent rules in the plan, and changes in qualification status of employer or plan. As of June 30, 2019, the occurrence of an event outside the normal operation of the trust which would cause a withdrawal from the investment contract is not considered probable.

INTEGRAL MANUFACTURING 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Pooled separate accounts: The NAV of the pooled separate account is based on the market value of its underlying investments. The pooled separate account is not a publicly-quoted price in an active market. The pooled separate accounts invest in various mutual funds, equity and debt securities and commercial real estate to generate their investment return.

The Company's management determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 1,045,491	\$ -	\$ -	\$ 1,045,491
Pooled separate accounts	-	1,394	-	1,394
Collective investment trust	-	22,251	-	22,251
	<u>\$ 1,045,491</u>	<u>\$ 23,645</u>	<u>\$ -</u>	<u>\$ 1,069,136</u>

NOTE 5 INFORMATION CERTIFIED BY CUSTODIAN

The following information provided by Delaware Charter Guarantee and Trust Company dba Principal Trust Company for the year ended June 30, 2019 was certified by them to be complete and accurate:

- (a) The assets held by Delaware Charter Guarantee & Trust Company dba Principal Trust Company at June 30, 2019 as well as the transactions involving these assets for the year ended June 30, 2019.

INTEGRAL MANUFACTURING 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 6 PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in all accounts.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.
