Note 1 - Plan Description

The following description of JCIM US, LLC Pension Plan for Bryan Ohio Union Employees (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of plan provisions.

The Plan was terminated effective June 30, 2019. Accordingly, the descriptions below are provisions of the Plan prior to termination. See Note 8 for additional information.

General

The Plan is a defined benefit plan covering all employees of Adient plc who were employed by Plastech on or after July 1, 2004 and was a participant in the Plastech Exterior Systems, Inc Retirement Plan as of June 30, 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On October 31, 2016, the Company was separated from Johnson Controls, Inc. Prior to the separation, the Plan was sponsored by Johnson Controls, Inc.

Effective September 30, 2003, the Plan no longer allowed new entrants, and benefit accrual was frozen.

Contributions

All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Pension Benefits

Eligible employees with five or more years of service are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65, as described in the Plan. The individual pension benefit is equal to credited service times a monthly pension basic benefit. Special provisions for retirement at other than the normal retirement age are described in the plan and union agreements, if applicable. Employees with at least 10 years of service may elect early retirement and receive the accrued normal retirement benefits at age 60 or a reduced monthly retirement benefit payable immediately in accordance with the plan agreement.

Death Benefits

If an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the benefit the employee would have received under the qualified joint and survivor annuity form had they retired on the day immediately preceding the date of his or her death will be paid to the surviving spouse. Beneficiaries of unmarried participants and those who have elected to waive the preretirement surviving spouse benefit will receive a lump-sum benefit or monthly installments equal to the actuarial equivalent of the participant's vested accrued normal retirement benefit at the date of break in service.

Payment of Benefits

Distributions are payable in the form of a single life annuity for unmarried participants and an automatic 55 percent joint and survivor annuity for married participants, unless otherwise elected. Participants can also elect a lump-sum payment, 75 percent joint and survivor annuity, 100 percent joint and survivor annuity, or a defined-term 10-year annuity.

June 30, 2019 and 2018

Note 1 - Plan Description (Continued)

Administration

Under a trust agreement, U.S. Bank, N.A. (the "Trustee") was appointed trustee of the Plan. In accordance with the powers and duties of the Trustee, as designated by the Company, the Trustee administers the Plan in accordance with the orders of the administrative committee and invests the Plan's assets and the income therefrom, as directed by the Plan's investment manager. Certain administrative fees incurred in administering the Plan are paid from the assets of the Plan.

Termination

The Plan has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. The Plan was terminated as of June 30, 2019. See Note 8 for additional information.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 8 to the financial statements, the plan sponsor terminated the Plan effective June 30, 2019. As a result, the Plan changed its basis of accounting for periods subsequent to June 30, 2018 from the going-concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process, and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation

The fair value of the Plan's interest in the Adient US LLC Master Pension Trust (the "Master Trust") is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

See Note 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

June 30, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits as of June 30, 2018 are summarized as follows:

Mortality rates	Aggregate 2006 base rates from the RP-2014 mortality study, with 100 percent blue collar adjustments, projected generationally from 2006 with Scale MP-2017
Actuarial cost method	Unit Credit Method
Interest rate	5.15

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

In January 2020, the Company filed an application for approval from the Internal Revenue Service (IRS) for the termination of the Plan effective June 30, 2019. The effect of the termination has not been reflected in the accumulated plan benefits as of June 30, 2018.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

New Accounting Pronouncement

In February 2017, Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including April 8, 2020, which is the date the financial statements were available to be issued.

Notes to Financial Statements**June 30, 2019 and 2018****Note 2 - Summary of Significant Accounting Policies (Continued)**

Subsequent to year end, the Plan's investment portfolio has incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of June 30, 2018, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 1,962,388
Other vested participants	<u>3,976,499</u>
Total vested benefits	5,938,887
Nonvested benefits	<u>147,974</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 6,086,861</u></u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended June 30, 2018 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 6,045,160
Increase (decrease) during the year attributable to:	
Benefits accumulated	325,050
Benefits paid	(262,723)
Changes in actuarial assumptions	123,476
Benefits accrual and plan experience	<u>(144,102)</u>
Net increase	<u>41,701</u>
Actuarial present value of accumulated plan benefits - End of year	<u><u>\$ 6,086,861</u></u>

This information is based on the actuarial assumptions, which are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The increase to the change in actuarial assumptions was the result of the change in mortality basis from the aggregate 2006 base rates from the RP-2014 mortality study with 100 percent blue collar adjustments, projected generationally from 2006 with scale MP-2016 to the aggregate 2006 base rates from the RP-2014 mortality study with 100 percent blue collar adjustments, projected generationally from 2006 with scale MP-2017, as well as a change in the interest rate from 5.50 to 5.15 percent.

Note 4 - Interest in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Adient US LLC-sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee.

At June 30, 2019 and 2018, the Plan's interest in the net assets of the Master Trust was approximately 41 percent and 47 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Notes to Financial Statements**June 30, 2019 and 2018****Note 4 - Interest in Master Trust (Continued)**

The fair value of investments for the Master Trust at June 30, 2019 and 2018 are as follows:

	2019	2018
Mutual funds - At fair value	\$ 15,638,626	\$ 17,098,273

The investment income for the Master Trust for the years ended June 30, 2019 and 2018 is as follows:

	2019	2018
Net realized and unrealized gains and losses:		
Investments - Mutual funds	\$ 1,135,547	\$ (238,746)
Interest and dividends	591,020	571,542
Total investment income	<u>\$ 1,726,567</u>	<u>\$ 332,796</u>

Note 5 - Unaudited Information

U.S. Bank, N.A. holds the Master Trust's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustee.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements**June 30, 2019 and 2018****Note 6 - Fair Value Measurements (Continued)**

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at June 30, 2019 and 2018.

	Master Trust Assets at June 30, 2019	
	Master Trust Balance	Level 1
Investments at fair value - Mutual funds	\$ 15,638,626	\$ 15,638,626

	Master Trust Assets at June 30, 2018	
	Master Trust Balances	Level 1
Investments at fair value - Mutual funds	\$ 17,098,273	\$ 17,098,273

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 7 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 8 - Termination

On May 22, 2019, the plan sponsor elected to terminate the Plan effective June 30, 2019. The Plan adopted the liquidation basis of accounting in the fiscal year ended June 30, 2019. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected, and liabilities are recorded at amounts expected to be paid during the course of liquidation.

Liquidation of assets through distributions to participants is expected to occur during 2020, with full liquidation expected by August 2020. Participants have until April 15, 2020 to determine whether they will elect a lump-sum distribution or annuity as a result of the determination. Once the election is made, liquidation of assets through lump-sum distributions to participants is expected to occur by June 2020. For individuals who elect an annuity payment or were already receiving an annuity payment under the Plan, an annuity contract will be purchased to cover the remaining payments.
