NOTE 1 DESCRIPTION OF THE PLAN

The following description of Captek Softgel International, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Captek Softgel International, Inc. (the Company) who attain the age of 21 and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible participants may elect to make pre-tax or Roth contributions. They may contribute to the Plan each payroll period up to the maximum amount allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company provides safe harbor matching contribution to the Plan that is equal to the sum of (a) 100% of an eligible participant's contributions that do not exceed 3% of his or her compensation for the allocation period, and (b) 50% of the participant's contributions that exceed 3% of his or her compensation for the allocation period but not to exceed 5% of his or her compensation for the allocation period.

Participant Accounts

Each participant's account is credited (charged) with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with participant-directed administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested for their entire contributions plus actual earnings thereon.

Vesting in the Company's matching contribution of the participant's accounts plus actual earnings thereon is based on years of continuous service. For the Company matching contribution, a participant vests 100% upon the completion of six years of service. Termination of employment prior to attaining six years of service will result in the forfeiture of the non-vested account balance.

Participants are automatically 100% vested upon reaching the age of 65 while employed, or in case of death, disability (as defined in the Plan), or termination of the Plan.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The interest on the loans is based on the prime rate as specified in Wall Street Journal plus 1 percent. Principal and interest is paid ratably through monthly payroll deductions. The term of the loan should not exceed five years except in the case of a loan used to acquire a dwelling unit that is to be the principal residence of the participant.

Payment of Benefits

Upon retirement or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or, if the balance is over $5,000, payment in installments as described in the Plan Document.

Forfeited Accounts

Forfeited accounts are used to reduce future Company contributions and administration fees. At June 30, 2019 and 2018, the forfeiture account balance was $34,589 and $30,169, respectively.

Plan Amendment

Effective October 1, 2017, the Plan was amended to include the adoption of the Plan as participating employers by the Company's affiliated employers, namely, Natutac Corporation and J&D Laboratories.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is calculated based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Realized and unrealized appreciation (depreciation) is reported in the accompanying Statements of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Participant Loans
Participant loans are recorded at amortized cost which represents unpaid principal plus accrued interest balance at year end.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
All usual and reasonable expenses are paid by the employer, and any expenses not paid by the employer may be paid from the plan assets if not prohibited by applicable laws or regulations.

NOTE 3 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access, quoted prices for similar assets or liabilities in active markets and/or quoted prices for identical or similar assets or liabilities in inactive markets.

Level 2 - Inputs to the valuation methodology include inputs other than quoted prices that are observable for the asset or liability and/or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/collective trusts: Valued at the NAV per share/unit reported at the close of business every day. Shares/units in common/collective trusts can be redeemed daily on demand. The NAV is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019 and 2018:

	June 30, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 7,952,376	$ -	$ -	$ 7,952,376
	$ 7,952,376	$ -	$ -	7,952,376
Investments measured at net asset value (a)				1,118,309
Total investments at fair value				$ 9,070,685

	June 30, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 7,181,283	$ -	$ -	$ 7,181,283
	$ 7,181,283	$ -	$ -	7,181,283
Investments measured at net asset value (a)				889,323
Total investments at fair value				$ 8,070,606

(a) In accordance with Subtopic 820-10, the common/collective trusts are measured at net asset value per share (or its equivalent) and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

NOTE 4 INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, Reliance Trust Company and Reliance Financial Corporation, the custodian, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as reflected in the statements of net assets available for plan benefits as of June 30, 2019 and 2018.
- Investment activity, as reflected in the statements of changes in net assets available for plan benefits for the years ended June 30, 2019 and 2018.
- Investment information disclosed in note 3; and,
- Investments, as reflected in schedule H, line 4i - schedule of assets (held at end of year) as of June 30, 2019.

The Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures on certified information, except for comparing such information with related information included in the financial statements and supplemental schedule.

NOTE 5 TAX STATUS

The Plan Administrator adopted a Prototype Non-standardized Profit Sharing Plan, which states that the Plan and related trust were designed in accordance with the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of liability (or asset) or disclosure in these financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 7 TRANSFERS FROM OTHER PLAN

At the end of 2018, assets of a liquidated plan amounting to $187,704, which were owned by certain participants who were transferred to the Company were transferred to the Plan, as permitted under the IRC.

NOTE 8 SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events for the Plan through April 15, 2020, which is the date the financial statements were available to be issued. There were no subsequent events that would require recognition or additional disclosure in the Plan’s financial statements other than the matter described below.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the United States.

It is unknown how long these conditions and orders will remain in effect, or what the complete financial effect will be to the Plan. However, the Plan Administrator does not expect the impact to be material to the Plan’s June 30, 2019 financial statements.

NOTE 1 DESCRIPTION OF THE PLAN

The following description of Captek Softgel International, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the employees of Captek Softgel International, Inc. (the Company) who attain the age of 21 and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible participants may elect to make pre-tax or Roth contributions. They may contribute to the Plan each payroll period up to the maximum amount allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company provides safe harbor matching contribution to the Plan that is equal to the sum of (a) 100% of an eligible participant's contributions that do not exceed 3% of his or her compensation for the allocation period, and (b) 50% of the participant's contributions that exceed 3% of his or her compensation for the allocation period but not to exceed 5% of his or her compensation for the allocation period.

Participant Accounts

Each participant's account is credited (charged) with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses), and charged with participant-directed administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested for their entire contributions plus actual earnings thereon.

Vesting in the Company's matching contribution of the participant's accounts plus actual earnings thereon is based on years of continuous service. For the Company matching contribution, a participant vests 100% upon the completion of six years of service. Termination of employment prior to attaining six years of service will result in the forfeiture of the non-vested account balance.

Participants are automatically 100% vested upon reaching the age of 65 while employed, or in case of death, disability (as defined in the Plan), or termination of the Plan.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The interest on the loans is based on the prime rate as specified in Wall Street Journal plus 1 percent. Principal and interest is paid ratably through monthly payroll deductions. The term of the loan should not exceed five years except in the case of a loan used to acquire a dwelling unit that is to be the principal residence of the participant.

Payment of Benefits

Upon retirement or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her vested account or, if the balance is over $5,000, payment in installments as described in the Plan Document.

Forfeited Accounts

Forfeited accounts are used to reduce future Company contributions and administration fees. At June 30, 2019 and 2018, the forfeiture account balance was $34,589 and $30,169, respectively.

Plan Amendment

Effective October 1, 2017, the Plan was amended to include the adoption of the Plan as participating employers by the Company's affiliated employers, namely, Natutac Corporation and J&D Laboratories.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is calculated based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Realized and unrealized appreciation (depreciation) is reported in the accompanying Statements of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Participant Loans
Participant loans are recorded at amortized cost which represents unpaid principal plus accrued interest balance at year end.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
All usual and reasonable expenses are paid by the employer, and any expenses not paid by the employer may be paid from the plan assets if not prohibited by applicable laws or regulations.

NOTE 3 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access, quoted prices for similar assets or liabilities in active markets and/or quoted prices for identical or similar assets or liabilities in inactive markets.

Level 2 - Inputs to the valuation methodology include inputs other than quoted prices that are observable for the asset or liability and/or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/collective trusts: Valued at the NAV per share/unit reported at the close of business every day. Shares/units in common/collective trusts can be redeemed daily on demand. The NAV is used as a practical expedient to estimate fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019 and 2018:

	June 30, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 7,952,376	$ -	$ -	$ 7,952,376
	$ 7,952,376	$ -	$ -	7,952,376
Investments measured at net asset value (a)				1,118,309
Total investments at fair value				$ 9,070,685

	June 30, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 7,181,283	$ -	$ -	$ 7,181,283
	$ 7,181,283	$ -	$ -	7,181,283
Investments measured at net asset value (a)				889,323
Total investments at fair value				$ 8,070,606

(a) In accordance with Subtopic 820-10, the common/collective trusts are measured at net asset value per share (or its equivalent) and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

NOTE 4 INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Accordingly, Reliance Trust Company and Reliance Financial Corporation, the custodian, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as reflected in the statements of net assets available for plan benefits as of June 30, 2019 and 2018.
- Investment activity, as reflected in the statements of changes in net assets available for plan benefits for the years ended June 30, 2019 and 2018.
- Investment information disclosed in note 3; and,
- Investments, as reflected in schedule H, line 4i - schedule of assets (held at end of year) as of June 30, 2019.

The Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures on certified information, except for comparing such information with related information included in the financial statements and supplemental schedule.

NOTE 5 TAX STATUS

The Plan Administrator adopted a Prototype Non-standardized Profit Sharing Plan, which states that the Plan and related trust were designed in accordance with the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of liability (or asset) or disclosure in these financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 7 TRANSFERS FROM OTHER PLAN

At the end of 2018, assets of a liquidated plan amounting to $187,704, which were owned by certain participants who were transferred to the Company were transferred to the Plan, as permitted under the IRC.

NOTE 8 SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events for the Plan through April 15, 2020, which is the date the financial statements were available to be issued. There were no subsequent events that would require recognition or additional disclosure in the Plan’s financial statements other than the matter described below.

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the United States.

It is unknown how long these conditions and orders will remain in effect, or what the complete financial effect will be to the Plan. However, the Plan Administrator does not expect the impact to be material to the Plan’s June 30, 2019 financial statements.
