Notes to the Financial Statements

Note 1 – Plan Description

The following summary description of the Accurate Metal Machining, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan which was formed for the purpose of providing retirement benefits to employees of Accurate Metal Machining, Inc. (the Company). Employees become eligible to participate in the Plan on the first day of the Plan year quarter coinciding with or next following the employee reaching age 20½ and completing one year of service, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Investment Committee, which includes all members of the Board of Trustees, is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions

Each year, participants may elect to contribute up to 100% of their pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover contributions). The Company may, at its discretion, make matching contributions to employees who have completed 1,000 hours of service during the Plan year and who are employed on the last day of the Plan year. Matching contributions equal to 20% of the compensation that a participant contributes to the Plan were made for the year ended September 30, 2019. These contributions are funded in the year subsequent to their authorization. At the discretion of the Board of Trustees, additional discretionary profit sharing contributions may be authorized for the related Plan year. These contributions would also be funded in the year subsequent to their authorization. The Board of Trustees did not authorize profit sharing contributions for the year ended September 30, 2019. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-Directed Investment Options

Upon enrollment in the Plan, a participant may direct the investment of their contributions into any of several investment options with varying degrees of risk and volatility, allowing participants to allocate their investments in accordance with their own risk tolerances and time horizons. Participants may change their investment option allocations at any time.

Notes to the Financial Statements

Note 1 – Plan Description (Continued)

Vesting

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions is based on years of continuous service. A participant is 100% vested after 5 years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined at inception, is set at 1% above the Prime interest rate (5.00% and 5.25% at September 30, 2019 and 2018, respectively), as defined, in accordance with the Plan's loan policy. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in substantially equal installments if the participant is subject to required minimum distributions. An in-service distribution from fully vested accounts may be made upon attainment of age 59½ as defined by the Plan document. Distributions of a participant's 401(k) deferral account balance may be authorized at any time by the plan administrator under certain hardship conditions.

Forfeited Amounts

Forfeited non-vested accounts are used to reduce future Company contributions. At September 30, 2019 and 2018, forfeited non-vested accounts totaled \$253 and \$0, respectively. For the 2019 Plan year, forfeitures were not used to reduce Company contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to the Financial Statements

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, and are expensed when they are incurred. No allowance for credit losses has been recorded as of September 30, 2019 and 2018.

Payment of Benefits

Benefits are recorded when paid.

Administration Expenses

Expenses of maintaining the Plan, including participant recordkeeping, are paid by the Company and are excluded from these financial statements. Certain fees related to distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent Events

Plan management has evaluated subsequent events through March 23, 2020, the date the financial statements were available to be issued.

Effective December 1, 2019, the Plan was amended and restated to adopt a volume submitter plan document sponsored by CCH Incorporated DBA FTWilliam.com (CCH). This occurred after the change in recordkeeper from American Funds to Empower in October 2019.

Notes to the Financial Statements

Note 3 – Information Prepared and Certified by Capital Bank & Trust

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at September 30, 2019 and 2018, and net depreciation in fair value of investments, interest and dividends, for the year ended September 30, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Capital Bank & Trust, the trustee of the Plan.

Note 4 – Fair Value Measurements

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the valuation methodologies used at September 30, 2019 and 2018.

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to the Financial Statements

Note 4 - Fair Value Measurements (Continued)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at September 30, 2019:

<u>Description</u>	<u>(Level 1)</u>	<u>(Level 2)</u>	<u>(Level 3)</u>	<u>Total</u>
Mutual and money market funds	<u>\$ 7,916,885</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,916,885</u>
Investments at fair value	<u>\$ 7,916,885</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,916,885</u>

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at September 30, 2018:

<u>Description</u>	<u>(Level 1)</u>	<u>(Level 2)</u>	<u>(Level 3)</u>	<u>Total</u>
Mutual and money market funds	<u>\$ 7,536,822</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,536,822</u>
Investments at fair value	<u>\$ 7,536,822</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 7,536,822</u>

The Plan did not hold any Level 3 assets during the Plan year ended September 30, 2019.

Note 5 - Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by American Funds, who is affiliated with Capital Bank & Trust, the trustee of the Plan. Therefore, such investments and related administrative expenses qualify as party-in-interest transactions.

Additionally, the Plan holds party-in-interest receivables of \$160,355 and \$186,261 as of September 30, 2019 and 2018, respectively, in the form of participant loans.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes to the Financial Statements

Note 7 – Tax Status

Group Health & Benefit Administrators, Inc., sponsor of the prototype non-standardized profit sharing plan with CODA, has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Company previously adopted this restated prototype plan document on October 1, 2015. The prototype plan opinion letter was previously relied upon by this Plan.

As discussed in Note 2, effective December 1, 2019, the Plan was amended and restated to adopt a volume submitter plan document sponsored by CCH. CCH has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the restated volume submitter plan document was in compliance with the applicable requirements of the IRC. The volume submitter plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2019 statement of net assets available for benefits.

As of September 30, 2019, the Plan held \$7,916,885 of American Funds mutual funds, which was 100% of total investments. Therefore, net assets available for benefits are particularly sensitive to changes related to these investments.
