INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
The Furukawa Rock Drill USA
Defined Benefits Plan
Kent, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Furukawa Rock Drill USA Defined Benefits Plan, which comprise the statements of net assets available for benefits as of August 31, 2019 and 2018 and statement of accumulated plan benefits as of September 1, 2018 and 2017, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended August 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held and reportable transactions as of August 31, 2019, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on the Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following brief description of The Furukawa Rock Drill USA Defined Benefits Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefits plan covering substantially all employees of Furukawa Rock Drill USA. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation was closed to new entrants effective September 15, 2014.

Pension Benefits

Employees are entitled to annual pension benefits beginning at normal retirement age (65) equal to the number of years of credited service earned as of the date the employee ceased to accumulate credited years of service, multiplied by the dollar amount in effect at the time the employee ceased to accumulate credited years of service. The Plan permits early retirement at the age of (55) provided such participant has both attained the age of (55) and has completed ten years of service. If an employee terminates with a least five years of credited service, accrued benefits with respect to the date of termination are fully vested.

Death and Disability Benefits

Following are the types of benefits paid for death and disability:

Disability Retirements – Upon earning ten years of service, and becoming eligible for total and permanent disability, the unreduced accrued benefit is payable.

Pre-Retirement Survivor Benefits (After the Age of 55) – Upon the death of an employee that meets the eligibility requirements for early retirement, the employee’s spouse receives the same benefit as if the employee had retired the day before death under the survivor option.

Pre-Retirement Survivor Benefits (Before the Age of 55) – Upon the death of an employee that has earned five years of service, the employee’s spouse is eligible for 50% of the benefit that would have been payable, if the participant had lived to early retirement eligibility and elected 50% qualified joint and survivor annuity. The benefit is payable upon the participant’s early retirement eligibility date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Future Adoption of Accounting Pronouncements

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments-Overall (ASC Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities" ("ASU 2016-01"), which requires:

- ... Equity investments (except those consolidated or accounted for under the equity method) to be measured at fair value with changes in fair value recognized in net income.
- ... Elimination of the disclosure of methods and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost.
- ... The use of the exit price notion when measuring the fair value of financial instruments for disclosure purposes
- ... Separate presentation in other comprehensive income of the portion of the total change in fair value of a liability resulting from a change in own credit risk if the liability is measured at fair value under the fair value option.
- ... Separate presentation on the balance sheet or financial statement notes of financial assets and financial liabilities by measurement category and form of financial asset.

The provisions of ASU 2016-01 are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption only permitted for certain provisions. Initial adoption of ASU 2016-01 is required to be reported on a modified retrospective basis, with a cumulative-effect adjustment to the balance sheet as of the beginning of the year of adoption, except for certain provisions that are required to be applied prospectively. The Plan is determining the impact of adoption of the provisions of ASU 2016-01.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present vested employees or their beneficiaries. Benefits under the Plan are based on employees' number of years of credited service. The accumulated plan benefits for active employees are based on their number of years of credited service ending on the date which the benefit information is presented (the valuation date). Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee years of service rendered to the valuation date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Actuarial Present Value of Accumulated Plan Benefits -continued

The actuarial present value of accumulated plan benefits is determined by an actuary from the Arthur J. Gallagher & Co. and is that amount that results when applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts from interest) and the probability of payments (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant assumptions used in the valuation as of September 1, 2018 and 2017 were (a) life expectancy of participants (Unisex Pension 1984 Mortality Table was used), (b) retirement age assumptions (the assumed age of retirement is 65) or completion of five years of service if later, but no later than age 65, and (c) investment return. The assumed average rate of return is 3.16% and 11.32% for the actuarial period ended September 1, 2018 and 2017. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan Sponsor provides certain administrative and accounting services to the Plan at no cost. Most administrative expenses are paid directly by the Plan Sponsor and include audit and legal fees. Administrative expenses incurred by the Plan include investment management fees that are netted against investment returns.

3. FUNDING POLICY

The Company's funding policy is to make contributions to the Plan as it determines based on the recommendations provided by the actuary, that are required to maintain the Plan on a sound actuarial basis in accordance with the minimum funding requirements of ERISA. The Plan has met the minimum funding requirements as set forth by ERISA for the Plan years ended August 31, 2019 and 2018.

Although it has not expressed to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

THE FURUKAWA ROCK DRILL USA
DEFINED BENEFITS PLAN
Notes to the Financial Statements
August 31, 2019 and 2018

4. PLAN TERMINATION

In the event the Plan terminates, the Plan Administrator shall direct the Trustee to allocate and distribute the assets of the Trust Fund to satisfy the liabilities to participants and their beneficiaries in the priorities and according to the categories required by applicable law; provided, however, that any assets remaining in the Trust Fund after such allocation and distribution pursuant to the priorities and categories required by law shall revert to the Company.

Certain benefits under the Plan are insured by the PBGC if the Plan should terminate. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

5. TAX STATUS

The Plan obtained its latest determination letter on June 29, 2012, in which the Internal Revenue Service states that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2016.

6. FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

THE FURUKAWA ROCK DRILL USA
DEFINED BENEFITS PLAN
Notes to the Financial Statements
August 31, 2019 and 2018

6. FAIR VALUE MEASUREMENT – continued

- Level 2: Inputs to the valuation methodology include:
- ... quoted prices for similar assets or liabilities in active markets;
 - ... quoted prices for identical or similar assets or liabilities in inactive markets;
 - ... inputs other than quoted prices that are observable for the asset or liability;
 - ... inputs that are derived principally from or corroborated by observable market data by correlation or other matters.
- Level 3: Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimizes the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2019 and 2018.

Registered Investment Funds: are mutual funds for which quoted market price on the active market on which the individual securities are traded.

Pooled Separate Accounts: are valued at net asset value ("NAV") using pricing models maximizing the use of observable inputs for similar securities. This includes basing values on yields currently available on comparable securities of issues with similar credit ratings. When quoted prices are not available for identical or similar funds, the fund is valued under a discounted cash flow approach that maximizes observable inputs, such as fund yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or broker prices, if available.

Accounting Standard Codification ("820") allows NAV per share to serve as a practical expedient to estimate the fair value of pooled separate accounts as long as certain requirements are met. It is the trustee's assessment that the pooled separate accounts meet those requirements. For non-public business entities, effective for fiscal years beginning after December 15, 2016 ASU 2015-7 removes the requirement to categorize within the fair value hierarchy all investment for which fair value is measured using NAV.

6. FAIR VALUE MEASUREMENT – continued

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Notes to the Financial Statements

8. PARTY-IN-INTEREST TRANSACTIONS

The plan sponsor, Furukawa Rock Drill USA, provides the Plan with accounting and administrative services for which no fees are charged. Huntington National Bank was the custodian of the Plan's assets until August 25, 2017; the Plan's assets were then transferred to Principal Life Insurance Company. The transactions executed by the custodians qualify as party-in-interest transactions. Fees incurred by the Plan are paid directly by the Plan Sponsor. For the years ended August 31, 2019 and 2018, plan administration fees were \$21,818 and \$21,818, respectively. Members of the management team are currently participants in the Plan, and one member serves as plan administrator. Additionally, two officers serve as trustees of the Plan. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

9. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following investment information was certified by the trustee and was not subject to any auditing procedures performed by the auditors:

- ... Total investments shown in the accompanying Statements of Net Assets Available for Benefits of \$17,303,718 and \$16,764,242 as of August 31, 2019 and 2018, respectively.
- ... Net investment earnings shown in the accompanying Statements of Changes in Net Assets Available for Benefits of \$539,476 and (\$666,899) for the years ended August 31, 2019 and 2018, respectively.
- ... All investment-related information in the accompanying supplemental information; Schedule H, Line 4i Schedule of Assets (Held at end of Year) as of August 31, 2019.

10. RECONCILIATION OF FINANCIAL STATEMENT TO SCHEDULE H OF THE FORM 5500

The Plan reports net assets available for benefits and changes in net assets available for benefits on the same basis for both financial statements and Schedule H of Form 5500; therefore there were no reconciling items for the years ended August 31, 2019 and 2018.

11. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through March 28, 2020, which represents the date the financial statements were available to be issued.

Subsequent to year end the United States declared the coronavirus (COVID-19) to be a public health emergency. The virus has had consequences across the globe, although its full impact is not yet known. The event has altered national, state and local economies. The crisis could impact the fair market value of investments, interest rates and actuarial valuations of employee benefit plans. Management believes that although they will be affected by the crisis there are certain mitigating factors which will allow them to continue operations and fund the Plan. Because of the uncertainty no modifications have been made to these financial statements.
