Notes to Financial Statements

October 1, 2019

1. Plan Description

The following descriptions provide only general information. Participants of the Siplast, Inc. 401(k) Salary Reduction Plan and Trust (the Plan) should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1986, for eligible employees of Siplast, Inc. (Company or Plan Sponsor). The Plan is a defined contribution plan designed to comply with the Employee Retirement Income Security Act of 1974 (ERISA). Lincoln National Life Insurance Company (Lincoln or Custodian) acts as custodian for the Plan pursuant to an agreement between the Custodian and the Company.

On November 9, 2016, the Plan Sponsor approved a resolution to cease employee and employer contributions to the Plan and no new participants were permitted to join the Plan effective December 29, 2016.

Effective October 1, 2019, the Plan was merged into the GAF LLC 401(k) Plan. As part of this merger, \$38,898,454 of assets were transferred from the Plan into the GAF LLC 401(k) Plan. This transaction has been reflected in the Statement of Changes in Assets Available for Benefits.

Vesting

All participant contributions were immediately vested. Employer contributions vested 20% per year, beginning after the second anniversary of the employee's hire date, with full vesting occurring after the sixth year. All participants were fully vested in their accounts upon merging into the GAF LLC 401(k) Plan.

Forfeitures

When certain terminations of participation in the Plan occurred, the non-vested portion of the participant's account, as defined by the Plan, represented a forfeiture. Forfeitures were used to offset Plan expenses. For 2019 and 2018, no forfeitures were used to offset Plan expenses. At December 31, 2018, forfeitures available to be allocated in future years totaled \$36,598. On October 1, 2019, \$37,393 of forfeitures were included in the transfer to the GAF LLC 401(k) Plan leaving \$0 of forfeitures remaining in the Plan.

1. Plan Description (continued)

Notes Receivable From Participants

Notes receivable from participants represent loans which were recorded at their unpaid principal balance plus any accrued but unpaid interest. Plan participants may have borrowed from their accounts an amount generally not to exceed the lesser of \$50,000 or 50% of their vested account balance. The loans were required to be repaid at a reasonable rate of interest within five years, unless the proceeds were used to purchase the participant's primary residence. Principal and interest were paid ratably through automatic payroll deductions. No allowance for credit losses has been recorded as of October 1, 2019 or December 31, 2018. If a participant ceased to make loan repayments and the Plan administrator deemed the loan to be a distribution, notes receivable from participants was reduced and a benefit payment was recorded.

Participant Accounts

Each participant's account was credited with Plan earnings. Allocations of Plan earnings were based on participant account balances, as defined in the Plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Benefits Paid to Participants

Participants were able to withdraw funds from their vested account in the event of their retirement, death, termination, or hardship withdrawal, as defined. In addition, upon attainment of 65 years of age, participants were able to withdraw all or any portion of their remaining participant account balance in the Plan. Upon termination of employment or death of a participant, the vested account balance was distributed to a participant or beneficiary either in the form of a lump-sum payment or periodic installments.

Administrative Expenses

The Company paid substantially all administrative fees and expenses related to maintaining the Plan. Expenses paid by the Company have been excluded from the statement of changes in assets available for benefits. Investment related expenses were included in the net (depreciation) appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Plan:

Basis of Accounting

The financial statements have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments in pooled separate accounts were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan presented the net change in fair value of pooled separate accounts, which consisted of realized gains or losses, unrealized appreciation (depreciation), and any income or capital gain distributions from such investments, in the accompanying statement of changes in assets available for benefits.

Purchases and sales of investments were recorded on a trade date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net (depreciation) appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants

Benefits were recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provided for various investment options in pooled separate accounts and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks.

3. Information Certified by the Custodian

The Plan Sponsor elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In the accompanying financial statements, total investments and net investment earnings (net (depreciation) appreciation in fair value of investments and interest and dividends, investments), and interest income on notes receivable, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Custodian.

4. Fair Value Measurements

Under the *Fair Value Measurements and Disclosures* topic of the *Codification*, ASC 820, disclosures are required about how fair value is determined for assets and liabilities and a hierarchy for which these assets and liabilities must be grouped is established, based on significant levels of inputs as follows:

Level 1 – Quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; and model-derived valuations in which all significant inputs are observable in active markets.

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies that were used for assets measured at fair value.

Pooled Separate Accounts

These investments were a public investment vehicle valued using the net asset value (NAV) provided by the administrator of the trust. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value.

	2019	2018
Investments at fair value pooled separate accounts measured at NAV ^(a)	\$ —	\$ 17,037,902

^(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of assets available for benefits.

5. Fully Benefit-Responsive Investment Contract

The Plan held a traditional investment contract. This contract met the fully benefit-responsive investment contract criteria and, therefore, was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Siplast, Inc. 401(k) Salary Reduction Plan and Trust

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contract (continued)

The contract held by the Plan was a guaranteed investment contract. The contract issuer was contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rates were set to be at least as high as the guaranteed minimum interest rate for a given contract and were guaranteed for at least one quarter. These rates were established without the use of a specific formula. Such interest rates were reviewed on a quarterly basis for resetting.

Market value adjustments and surrender charges could limit the ability of the Plan to initiate a transaction at contract value and result in an adjustment to the net asset value. There are not any events that allow the issuer to terminate the contract and which require the Plan administrator to settle at an amount different than contract value paid either within 60 days or over time.

6. Tax Status

The underlying volume submitter plan received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that they will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 1, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Siplast, Inc. 401(k) Salary Reduction Plan and Trust

Notes to Financial Statements (continued)

7. Party-In-Interest Transactions

Certain Plan investments were shares of pooled separate accounts and an investment contract managed by Lincoln and, therefore, these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for the investment management services were included in net appreciation in fair value of the investment, as they were paid through revenue sharing, rather than a direct payment.

8. Subsequent Events

Management evaluated subsequent events for the Plan through April 27, 2020, the date the financial statements were available to be issued.
