Globe Metallurgical, Inc. Pension Plan
Notes to the Financial Statements
June 30, 2019 and 2018

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of Globe Metallurgical, Inc. Pension Plan (the Plan) have been prepared using the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investments - The Plan's investments are administered by Benefit Trust Company and are stated at fair value. Mutual Funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Investments are reflected at fair market value as determined by the trustee. Investment transactions are recorded on a settlement-date basis. Total investment value as recorded on a settlement-date basis does not materially differ from what total investment value would be if transactions were recorded on a trade-date basis.

Contributions - Globe Metallurgical, Inc. (the Company, Plan Sponsor and Plan Administrator) makes contributions in an amount at least equal to the amount necessary for the Plan to remain in compliance with the minimum funding requirements of the Internal Revenue Code (IRC) and the Employee Retirement Income Security Act of 1974 (ERISA). There were no employer contributions for the years ended June 30, 2019 and 2018, respectively.

Administrative Expenses - The expenses necessary to administer the Plan are paid by the Plan or plan sponsor including, but not limited to, those involved in retaining professional assistance from an attorney, an accountant, an actuary, or an investment adviser. Fees related to the administration of the Plan are included in management fees. All other investment related expenses are included in net appreciation in fair value of investments.

Income, Contributions, and Distribution Recognition - Interest income is recognized in the period earned. Dividend income is recognized in the period in which the dividends are declared. Employer contributions are recognized when determined. Distributions to participants are recorded in the period in which the payment is made.

Date of Management's Review of Subsequent Events - Subsequent events were evaluated through April 10, 2020, which is the date the financial statements were available to be issued.

B. SUMMARY OF THE PLAN

The following description of the Plan, which was amended on March 3, 2003 to freeze accruals of benefits at March 31, 2003, provides general information only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

The Plan is a defined benefit plan that was originally established on November 20, 1984 as the Pension Plan for Salaried Employees of the Alamet Division of Globe Metallurgical, Inc. On that date, in connection with a change in ownership, the Company became the sponsor of the Interlake, Inc. Pension Plan for Salaried Employees (the Prior Plan). Under the terms of the related purchase agreement: (1) all active participants in the Prior Plan automatically became participants in the Plan; (2) the Prior Plan continues to maintain all liability for benefit payments to participants who have retired before November 20, 1984; and (3) for participants retiring on or after November 20, 1984, the Prior Plan will be partially liable for benefit payments to participants in the amount of benefits accrued as of November 19, 1984 under the Prior Plan.

Globe Metallurgical, Inc. Pension Plan
Notes to the Financial Statements
June 30, 2019 and 2018

The Plan was amended and restated effective July 1, 1988 to expand its coverage to include all salaried employees of the Company and all nonunion hourly employees of the Beverly plant of the Company and, on the same date, the Plan's name was changed to the Globe Metallurgical, Inc. Pension Plan. The Plan was further amended and restated effective July 1, 1994 to include the salaried employees of the Niagara Falls, New York, plant and all employees of the Springfield, Oregon plant.

Generally, employees covered by the Plan were eligible to participate after completing one year of continuous service and became eligible to receive normal retirement benefits at age 65. Retirement benefits payable under the Plan are based upon the number of years of continuous service and average monthly earnings of each participant. Participants become 100% vested in accrued benefits after 5 years of continuous service. The Plan is noncontributory for the participants with all contributions being made by the Company.

Effective December 1, 2000, October 1, 2001, and February 1, 2002 the Plan was amended to provide early retirement window benefits for certain designated employees of the Company. The early retirement date as defined by the plan is age 55, provided the participant has performed at least five years of service. The early retirement benefit calculation is based on a percentage of the participant's normal retirement benefit and the participant may be deemed to have been born 5 years prior to his/her actual birth date, and he/she will be credited with additional years of service as provided by the Plan.

The Plan provides that the Company shall have the right to modify, change, or terminate the Plan at any time. Upon termination or partial termination of the Plan, the rights of all employees to benefits accrued through the date of such termination or discontinuance are nonforfeitable to the extent that those benefits have been funded by the Company or are required by the Pension Benefits Guaranty Corporation (PBGC) to be funded as a result of a plan termination.

C. FEDERAL INCOME TAXES

The Internal Revenue Service (IRS) determined that the Plan is qualified under section 401(a) of the IRC and the related trust is exempt from tax under Section 501(a) of the IRC. Accordingly, the accompanying financial statements do not include a provision for federal income taxes.

The Plan obtained its latest determination letter on October 7, 2015, in which the IRS stated that the Plan, as then designed was in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to June 30, 2016.

D. INFORMATION CERTIFIED BY THE CUSTODIANS

The Plan Administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by BMO Harris Bank N.A. and Benefit Trust Company, the current and former custodians for the Plan.

Globe Metallurgical, Inc. Pension Plan
Notes to the Financial Statements
June 30, 2019 and 2018

Benefit Trust Company has certified as to the completeness and accuracy of the investments it holds and changes in net assets arising from said investment activity as of July 31, 2018 and June 30, 2018, and for the period of July 1, 2018 through July 31, 2018. BMO Harris Bank N.A. has certified as to the completeness and accuracy of the investments it holds and changes in net assets arising from said investment activity as of June 30, 2019 and for the period August 1, 2018 through June 30, 2019.

BMO Harris Bank N.A. has certified as to the completeness and accuracy of the schedule of assets (held at end of year) as of June 30, 2019.

E. TRANSACTIONS WITH PARTIES-IN-INTEREST

Plan investments are managed by BMO Harris Bank N.A. (beginning August 1, 2018) and were managed by Benefit Trust Company (through July 31, 2018). BMO Harris Bank N.A. and Benefit Trust Company are the current and former custodians of the Plan and therefore, certain transactions qualify as party-in-interest transactions. Findley is the third-party administrator of the Plan, and also a party-in-interest. Certain plan fees for investment management, recordkeeping and administrative expenses are paid to the custodians and third-party administrator and those fees are not considered prohibited transactions under ERISA.

The custodians provide certain administrative services to the Plan pursuant to Service Agreements (SA) between the Company and the custodians. The custodians receive revenue from certain mutual fund service providers for services the custodians provide to the funds. The custodians remit the revenue to the Plan on a quarterly basis. Such amounts are applied to pay Plan administrative expenses.

F. ACTUARIAL VALUATION AND ASSUMPTIONS

Findley, an independent actuary, performed the actuarial valuations of the Plan as of July 1, 2019 and July 1, 2018. The valuations used the following assumptions.

Actuarial cost method	Pure Unit Credit
Assumed rate of investment return	7.0%
Retirement age	65
Mortality	Pri-2012 Blue Collar Mortality by participant status projected using MP-2019 (July 1, 2019); RP-2014 Blue Collar Mortality Table projected using MP-2018 (July 1, 2018)

Accumulated plan benefits are those future periodic retirement benefit payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees; (b) beneficiaries of employees who have died; and (c) present employees. Benefits under the Plan are based on employees' average monthly compensation during the last 120 full consecutive calendar months prior to the date of retirement or termination. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

G. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The levels of the fair value hierarchy under the FASB guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Globe Metallurgical, Inc. Pension Plan
Notes to the Financial Statements
June 30, 2019 and 2018

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2019:

Assets at Fair Value as of June 30, 2019				
	Level 1	Level 2	Level 3	Total
Total Mutual Funds	\$ 18,978,899	\$ -	\$ -	\$ 18,978,899
Investments at Fair Value	\$ 18,978,899	\$ -	\$ -	\$ 18,978,899

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2018:

Assets at Fair Value as of June 30, 2018				
	Level 1	Level 2	Level 3	Total
Total Mutual Funds	\$ 18,455,576	\$ -	\$ -	\$ 18,455,576
Investments at Fair Value	\$ 18,455,576	\$ -	\$ -	\$ 18,455,576

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits. The Plan has incurred significant losses in the market value of its investments during the first quarter of 2020 as a result of the COVID 19 pandemic. As a result, the pandemic may severely affect the financial condition of the Plan for the year ending June 30, 2020.

Globe Metallurgical, Inc. Pension Plan
Notes to the Financial Statements
June 30, 2019 and 2018

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

I. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the statement of changes in net assets available for benefits to the Form 5500 as of December 31:

PBGC Annual Interest Rates	24-month segment rates averaged through the end of February 2018 and published in March 2018 using the Alternative Method (as prescribed by IRC 430) as follows: - Segment 1 (0 – 5 years) 1.89% - Segment 2 (5 to 20 years) 3.66% - Segment 3 (more than 20 years) 4.46% - Effective Interest Rate 3.86%

Mortality	Funding: RP-2000 static, non-generational Mortality Table as described in Regulation 1.430(h)(3) projected by Scale AA, to between 7 and 15 years beyond the year of the obligation, male and female, with different rates for annuitants and nonannuitants (as prescribed by IRC 430). Rationale: based on the most recent SOA mortality study.

Rates of Retirement

Actives are assumed to retire based on age as follows:

<u>Age</u>	<u>Rate</u>
55-59	5%
60-61	10
62	20
63-64	15
65+	100

Weighted average retirement age is 62. This is the average retirement age for someone eligible to retire at all ages using the assumed retirement rates and no other decrements.

Terminated Vested participants and Deferred Beneficiaries are assumed to commence at Normal Retirement Date.

Rates of Turnover

200% of the Crocker-Sarason Table T-3. Sample rates and ages are as follows:

<u>Age</u>	<u>Rate</u>
25	10.54%
40	7.68
55	0.67
65	0.00

Rates of Disability

W(73i) Sarason's Advanced Pension Table with sample rates as follows:

<u>Age</u>	<u>Rate</u>
35	0.10%
45	0.40
55	1.00
65	0.00

Assumptions Made In Valuing Spouse's Benefit

60% of the employees included in the valuation are assumed to be married. This percentage is used as the probability that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Optional Form Selection

All employees are assumed to elect the life annuity form of benefit.

Provision for Expenses

The expected administrative (i.e. non-investment) expenses expected to be paid from plan assets for the upcoming year, which were assumed to equal actual expenses during the prior year, were included in the Target Normal Cost for Minimum Required Contribution purposes.

Standing Elections

None.

Appendix B (Continued)

BBA Elections	The BBA segment rates have been used for minimum funding purposes as well as for the calculation of the AFTAP.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
Employees Valued	Only participants as of the valuation date were valued.
Funding Method	Pure Unit Credit
Changes in Assumptions and Methods since the Last Actuarial Valuation	The interest rates used for determining the funding target were 4.16%, 5.72% and 6.48%. These rates were updated to the rates required for the current plan year. The mortality table for the funding target was changed as required under PPA '06.
Justification for Changes in Actuarial Assumptions	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."
