STEEL IMPROVEMENT BOILERMAKERS AND BLACKSMITHS PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED MAY 31, 2019 AND 2018

NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of the Steel Improvement Boilermakers and Blacksmiths Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined benefit pension plan covering employees of SIFCO Industries, Inc. (the Company) that are members of the International Association of Machinists and Aerospace Workers District No. 54 and its Lodge No. DS 439 Main Bargaining Unit (Union), or were covered under the Plan prior to June 1, 2002. The Plan is administered by the SIFCO Industries, Inc. Retirement Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and restated.

PENSION BENEFITS

Participants with five or more years of service are entitled to a monthly pension benefit beginning at normal retirement age (age 65) equal to their years of credited service multiplied by the applicable benefit rate. The Plan allows participants to elect to take early retirement during the five year period preceding normal retirement age and receive an actuarially equivalent benefit as determined on the date they cease to be an employee of the Company. Unless a participant specifically elects otherwise, an early or normal pension benefit will be payable as a qualified joint and survivor pension benefit if a participant has an eligible spouse on their retirement date. Optional forms of pension benefit payments include contingent annuity, level income, and lump sum.

PRE-RETIREMENT DEATH BENEFIT

If a participant dies while in the employ of the Company and a member of the Union, his/her beneficiary will be entitled to receive a \$1,000 death benefit, paid in a lump sum.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared on the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED MAY 31, 2019 AND 2018

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

INVESTMENTS

Quantitative Management Associates, a registered investment advisor and wholly owned subsidiary of Prudential Financial, Inc., manages the Plan's investments according to the Plan's investment guidelines. The Plan's assets are invested in pooled separate accounts and common/collective trusts through contracts with The Prudential Insurance Co. of America (the custodian) and The Prudential Trust Company (the trustee), respectively. The Plan's investments and investment activity were certified as complete and accurate by the custodian and trustee.

The Plan's investments in pooled separate accounts and common/collective trusts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's valuation policies utilize information provided by the investment advisor and trustee and custodian. See Note 4 for a discussion on the investments' fair value measurement. The investment income earned by the pooled separate accounts and common/collective trusts is net of investment management expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) present employees, (b) retired or terminated employees with vested rights, and (c) beneficiaries of present, retired, or terminated employees. Benefits payable under all circumstances (retirement, death, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BENEFIT PAYMENTS

Benefit payments to participants are recorded when paid.

ADMINISTRATIVE EXPENSES

Certain administrative and management advisory fees were paid by the Plan during the years ended May 31, 2019 and 2018. The Plan's other expenses were paid by the Company. Expenses paid by the Company are not included in the financial statements.

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events and transactions that occurred through March 16, 2020, the date these financial statements were available to be issued. In January 2020, members covered under this Plan that belong to the Union were made aware that after their contract expires on May 15, 2020, the Union would no longer represent the members. As this matter is still evolving, it is not known if this group will become represented by another union or become union-free. If they become represented by another union, their retirement benefits will be collectively bargained as required. If they become union-free, benefits under the Plan would stop accruing. The members would become eligible for the Company's non-union 401k Plan. There were no additional subsequent events that required recognition or disclosure in these financial statements.

NOTE 3 – FUNDING POLICY

Contributions to the Plan are made by the Company based on a calculation proposed by the Plan's independent actuary. The Company's funding policy is to contribute an amount equal to the minimum required contribution under ERISA. The Company was not required to make any minimum required contributions in 2019 and 2018, which resulted in contributions of \$0 in both years.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED MAY 31, 2019 AND 2018

NOTE 4 – FAIR VALUE MEASUREMENTS

The Plan provides disclosures consistent with the Financial Accounting Standards Board (FASB) fair value measurement guidance, which establishes a framework. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

This hierarchy gives the highest priority to observable inputs (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 – Observable inputs such as quoted prices in an active market for identical assets or liabilities.

Level 2 – Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 – Inputs to the valuation methodology that are unobservable and supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The fair value measurement level of assets and liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description based on information provided to the Company or Plan by the custodian of the pooled separate accounts and the trustee of the common/collective trusts and it describes the valuation methodologies used for assets measured at fair value as of May 31, 2019 and 2018. There has been no change to the methodologies for 2019 and 2018.

- U.S. stock funds are comprised of domestic equities that are valued using the closing price on the applicable nationally recognized stock exchange. These funds are included in both pooled separate accounts and common collective trusts. The stock funds are made up of the following: Jennison Growth Equity Fund, Jennison U.S. Small Cap Equity Fund, QMA S&P 500 Index Fund, QMA U.S. Core Equity Account, QMA U.S. MidCap Core Equity Account and QMA Value Equity Account.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED MAY 31, 2019 AND 2018

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

- U.S. bond funds are comprised of domestic fixed income securities that are valued by interactive data using inputs such as benchmark yields, reported trades, broker/dealer quotes, or issuer spreads. The fair value of investments classified as Level 3 involves the use of a discounted cash flow model. These funds are included in both pooled separate accounts and common collective trusts. The bond funds are made up of the following: Privest Account, Prudential Core Bond Fund, Prudential Core Conservative Bond Fund, Prudential Core Conservative International Bond Fund, Prudential High Yield Fund and Prudential Inflation Protected Bond Fund.
- International bond fund is comprised of international fixed income securities that are valued by interactive data using inputs such as benchmark yields, reported trades, broker/dealer quotes, or issuer spreads. This fund is included in common collective trusts. The Prudential Emerging Market Debt Fund is an international bond fund.
- Short-term investment fund is comprised of short-term securities and cash equivalent securities, which seek to provide high current income consistent with the preservation of principal and liquidity. Such securities are valued at cost, which equals fair value. This fund is included in pooled separate accounts. The Short Term Account is a short-term investment fund.

The following table sets forth by measurement level, within the fair value hierarchy, the Plan's assets at fair value as of May 31, 2019:

	Level 2	Level 3	Total
Pooled separate accounts	\$1,725,277	\$545,197	\$2,270,474
Common/collective trusts	<u>2,306,787</u>	<u>--</u>	<u>2,306,787</u>
Total Assets at Fair Value	<u>\$4,302,064</u>	<u>\$545,197</u>	<u>\$4,577,261</u>

The following table sets forth by measurement level, within the fair value hierarchy, the Plan's assets at fair value as of May 31, 2018:

	Level 2	Level 3	Total
Pooled separate accounts	\$1,930,659	\$511,465	\$2,442,124
Common/collective trusts	<u>2,369,792</u>	<u>--</u>	<u>2,369,792</u>

NOTES TO FINANCIAL STATEMENTS

NOTE 5 – INFORMATION CERTIFIED BY THE CUSTODIAN AND TRUSTEE

The following table presents the fair value of investments at May 31, 2019 and 2018. The investments and investment activity have been certified as complete and accurate by The Prudential Insurance Co. of America, the custodian of the pooled separate accounts, and The Prudential Trust Company, the trustee of the common/collective trusts, and have not been audited by independent auditors.

	2019	2018
Pooled separate accounts	\$2,270,474	\$2,442,124
Common/collective trusts	<u>2,306,787</u>	<u>2,369,792</u>
Total Fair Value of Investments	<u>\$4,577,261</u>	<u>\$4,811,916</u>

During the years ended May 31, 2019 and 2018, the Plan's investments, (including gains and losses on investments bought and sold, as well as held during the year), appreciated (depreciated) in fair value as follows:

	2019	2018
Pooled separate accounts	\$ 2,518	\$230,482
Common/collective trusts	<u>50,020</u>	<u>(28,317)</u>
Totals	<u>\$52,538</u>	<u>\$202,165</u>

STEEL IMPROVEMENT BOILERMAKERS AND BLACKSMITHS PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED MAY 31, 2019 AND 2018

NOTE 6 – ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFITS

The significant assumptions underlying the actuarial computation are as follows:

	2019	2018
Effective interest rate	5.71% per year	5.87% per year
Mortality basis	RP-2014 Mortality Table	RP-2014 Mortality Table
Normal Retirement age	Weighted average retirement age 62	Weighted average retirement age 62

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, who uses the projected unit credit method to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits information is as follows:

	June 1, 2019	June 1, 2018
Vested Benefits		
Participants currently receiving benefits	\$1,190,086	\$1,251,552
Other participants	<u>2,898,646</u>	<u>2,815,136</u>
Total Vested Benefits	4,088,732	4,066,688
Non-Vested Benefits	<u>232,501</u>	<u>240,406</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$4,321,233</u>	<u>\$4,307,094</u>

NOTE 6 – ACTUARIAL PRESENT VALUE OF ACCUMULATED BENEFITS (CONTINUED)

The following summarizes the changes in the actuarial present value of accumulated plan benefits:

	June 1, 2019	June 1, 2018
Actuarial Present Value of Accumulated Plan Benefits – Beginning of Year	\$4,307,094	\$4,240,702
Increase (decrease) during the year attributable to:		
Additional benefits accumulated (including gains and losses)	175,663	246,947
Interest due to decrease in discount period	267,682	259,818
Change in actuarial assumptions	(45,340)	54,426
Benefits paid	<u>(383,866)</u>	<u>(494,799)</u>
Actuarial Present Value of Accumulated Plan Benefits – End of Year	<u>\$4,321,233</u>	<u>\$4,307,094</u>

During the 2019 and 2018 Plan years, the actuarial present value of accumulated plan benefits increased by \$14,139 and \$66,392, respectively, in part as a result of a change in actuarial assumptions and interest rate changes, which were updated to the rates required for the current Plan year under the Highway and Transportation Funding Act.

NOTE 7 – INCOME TAX STATUS

The Plan's latest determination letter is dated May 2, 2017. The Internal Revenue Service (IRS) determined that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan continues to qualify as exempt from income taxes and that consequently, no provision for income taxes has been included in the Plan's financial statements.

As of May 31, 2019, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax year in progress.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority determined in accordance with ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that participants or their beneficiaries have been receiving or that employees eligible to would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable). The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations.
3. All other vested benefits not insured by the PBGC.
4. All nonvested benefits.

The PBGC insures certain benefits under the Plan if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee while other benefits may not be provided for at all.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments and related transactions include shares of the custodian of pooled separate accounts as well as shares of the trustee of common/collective trusts. Therefore, these transactions are considered to be party-in-interest transactions.

NOTE 10 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Provision for Expenses	The expected administrative (i.e. non-investment) expenses, if any, that will be paid from the assets, which were assumed to equal actual administrative expenses paid during the prior year were added to the Target Normal Cost for minimum contribution purposes.
Standing Elections	The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
Asset Method	Funding: Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
Funding Method	Pure Unit Credit
Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	<p>The segmented interest rates used for determining the funding target were 4.16%, 5.72% and 6.48%. These rates were updated as required for the current plan year and also reflect BBA.</p> <p>The mortality table for the funding target was changed as required under PPA '06. However, the generational tables were not used since the Plan Sponsor elected the permitted one-year delay.</p> <p>The mortality for the lump sums was changed to the new applicable mortality table.</p>
Justification for Changes in Actuarial Assumptions	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."
