INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Midwest Express Inc. Retirement Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of March 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information referred to in Note F, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended March 31, 2018 and 2017, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MIDWEST EXPRESS INC. RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

March 31, 2018 and 2017

NOTE A - DESCRIPTION OF PLAN

The following description of the Midwest Express Inc. Retirement Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan that was established effective August 1, 2000 by Midwest Express Inc. (the Company) to provide benefits to eligible employees, as noted in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company along with One World Logistics of America are subsidiaries of Honda Logistics, Inc. (Honda Logistics). Effective January 1, 2014, another subsidiary of Honda Logistics, Honda Logistics North America Inc., was allowed to participate in the Plan.

Master Trust

Due to the Company being part of American Honda Motor Co., Inc.'s controlled group, during October 2010, Plan assets of approximately \$11,017,000, representing 100% of the Plan's assets at the time, merged into the American Honda Motor Co. Master Trust (the Master Trust). The investments included in the statements of net assets available for benefits represent the Plan's share of the investment in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated income less actual distributions and allocated administrative expenses. Net investment income and administrative expenses relating to the Master Trust are allocated to individual plans based upon their interest in the commingled funds of the Master Trust or the plan-specific identified funds held in the Master Trust.

Eligibility and Vesting

Generally, all employees are eligible after completion of one year of service, in which 1,000 hours were worked, other than those employees who are leased, covered by collective bargaining agreements, not located in the United States, or a Japanese national working in the United States on a temporary basis.

Participants are fully vested upon the completion of five years of service, attainment of normal retirement age, or eligibility to elect early retirement, whichever occurs first. Non-vested amounts are forfeited upon termination.

In 2008, an amendment was adopted to freeze the Plan. Employees hired after June 1, 2008 are not eligible to participate in the Plan. This "soft freeze" does not affect current participants.

Benefit Payments

Annual benefits at normal retirement were 1% of the employee's eligible compensation received each calendar year in which a year of service is credited up to June 30, 2009. For the period July 1, 2009 through March 31, 2010, annual benefits at normal retirement age were 0.5% of the participant's eligible compensation in which a year of service is credited. Effective April 1, 2010, the rate reverted back to 1%.

Full benefits are provided at the normal retirement age of 65. Benefits are provided to employees electing early retirement or terminated employees at reduced amounts. Participants may elect to receive their vested benefit amount in one of several distribution forms including life annuity, ten years certain and life annuity, joint and full survivor annuity, joint and one-half survivor annuity, and payments level with Social Security.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Benefit Payments (Continued)

In addition, the Plan provides for death benefits and lump sum distributions to be paid in accordance with the Plan document.

The Administrative Committee may elect to pay the vested retirement benefit in one lump sum if the total present value of the benefit is less than \$25,000. Benefit payments to participants are recorded upon distribution.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount, which will meet or exceed the annual ERISA funding requirement. Company contributions of approximately \$1,000,000 and \$1,200,000 per year met the minimum amounts as well as the specified timing requirements for the years ended March 31, 2018 and 2017, respectively.

Administration

The Company has appointed the Administrative Committee (the Committee) to manage the operation and administration of the Plan. The Company processes and maintains the records of participant data and has contracted with The Northern Trust Company (Northern Trust) to act as the custodian and trustee. The Company has also contracted with Mercer (US) Inc. (Mercer) to act as the actuary of the Plan. For the years ended March 31, 2018 and 2017, substantially all expenses incurred for administering the Plan were paid by the Plan.

Income Taxes

The Plan has received a favorable determination letter dated June 26, 2014. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements. These policies conform to accounting principles generally accepted in the United States of America, and have been applied on a consistent basis.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are held in the Master Trust by The Northern Trust Company (the trustee) and are reported at fair value. The trustee certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities, Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, the Master Trust has investments in foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

New Accounting Pronouncement

During 2018, the Plan adopted Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) – Employee Benefit Plans Master Trust Reporting*. As a result of the adoption of ASU No. 2017-06, additional disclosures related to the Plan's interest in the Master Trust have been made. This standard was adopted retrospectively, and had no impact on the Plan's net assets or changes in net assets.

Subsequent Events

The plan administrator has evaluated all activity of the Plan through January 15, 2019, the date the financial statements were available to be issued and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The tables below represent assets of the Master Trust. Plan assets are pooled for investment purposes only, and employer contributions and distributions are separately allocable and designated to a particular defined benefit plan. The Plan accounts for approximately 0.59% and 0.55% of the total assets in the Master Trust at March 31, 2018 and 2017, respectively.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at March 31, 2018 and 2017.

- a) **Short-term investments – Level 2 assets are valued using observable bid evaluation prices using observable market-based inputs. Valuation techniques are provided by outside vendors such as Interactive Data or Standard & Poor's (S&P). Included in this amount is the cash collateral received as a result of securities lending activities detailed in Note G. Level 3 fair values are based on unobservable inputs for the assets.**
- b) **Equity securities: U.S. companies – This category consists primarily of common stock. Level 1 assets represent unadjusted quoted prices in an active market or exchange.**
- c) **Equity securities: Foreign – This category includes common stock and preferred stock. Level 1 assets are priced using the last trade, which are unadjusted and quoted in an active market or exchange. Any Level 2 assets are priced using binding or corroborated bid/ask quotes in an active over-the-counter (OTC) market or exchange. Level 3 assets are priced using uncorroborated indicative quotes provided by brokers, investment managers, or independent pricing providers.**

MIDWEST EXPRESS INC. RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

March 31, 2018 and 2017

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

- d) Pooled funds equity – This category consists of units of commingled funds valued using the net asset value practical expedient (NAVPE) of the underlying funds minus liabilities, then divided by the number of the units outstanding. The NAVPE is accessible to the Plan and to all holders without limit.**
- e) Government and agency bonds: U.S. – The Level 2 assets are government, agency and index-linked bonds, and are valued using observable bid evaluation prices using observable market-based inputs.**
- f) Government and agency bonds: Foreign – This category includes bonds issued by foreign governments, agencies and municipalities. Their purpose is the same as their U.S. counterpart. Assets are classified as Level 2 because corroborated, indicative quotes and observable market data are available. There are no observable inputs for the Level 3 classification; instead, proprietary models and extrapolated data are used.**
- g) U.S. state and local bonds – U.S. state and local bonds are issued by state, city, and other local governments, or their agencies to finance their operating or capital expenditures. A bid evaluation is used for Level 2. The sources used are the same as those under U.S. government and agencies.**
- h) Corporate bonds – This category includes both U.S. and foreign corporate bonds. The Level 2 assets are various debt investments in U.S. funds and U.S. and foreign companies, and are valued using observable bid evaluation prices using observable market-based inputs. Any Level 3 assets are composed of corporate bonds for which there are no observable inputs, and where extrapolated, proprietary models, and indicative quotes are used.**
- i) Pooled funds debt – This category consists of commingled funds that have a daily NAVPE that is accessible to the Company and to all holders without limit. The investments can be redeemed at NAVPE at the measurement date.**
- j) Asset-backed securities – These are bonds or notes backed by financial assets. Institutional observable inputs are used with an income valuation technique provided by outside vendors.**
- k) Real estate – Real estate plan assets are invested in a U.S. commingled fund and are valued at NAVPE using proprietary models from the investment managers used to arrive at estimated prices.**
- l) Private equity funds – Private equity funds are valued at NAVPE using proprietary models and uncorroborated data from the limited partnerships.**
- m) Hedge funds – Hedge funds generally hold liquid and readily priceable securities, such as public entities in long-short funds, exchange-traded derivatives in macro/commodity trading funds, and corporate bonds in credit-relative value funds. Hedge funds do not have readily available market quotations and are therefore valued using NAVPE per share provided by the investment advisor or third-party administrator.**

MIDWEST EXPRESS INC. RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

March 31, 2018 and 2017

NOTE C – FAIR VALUE MEASUREMENTS (CONTINUED)

- n) **Derivatives** – This category includes equity contracts, interest rate forward and future contracts, interest rate option contracts, interest rate swap contracts; U.S. and foreign credit swap contracts, cash collateral, and other option contracts. Level 1 assets may be priced by the settlement price disseminated by future exchanges or the last trade price in an OTC market or exchange. Level 2 assets are priced using binding or corroborated, indicative quotes or evaluated prices using observable, market-based data. Level 3 assets are priced using uncorroborated indicative quotes provided by brokers, investment managers, or independent pricing providers.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's portion of the assets of the Master Trust at March 31:

NOTE D – RELATED PARTY TRANSACTIONS

Certain Master Trust investments are managed by The Northern Trust Company. Any purchases and sales of these investments are open market transactions at fair value. Such transactions, while considered party-in interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. In addition, The Northern Trust Company facilitates securities lending activities with the Master Trust, which qualify as party-in interest transactions under ERISA.

NOTE E - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits represent the estimated future periodic payments, including lump sum distributions, under the Plan's provisions that are attributable to services rendered by employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to: a) retired or terminated employees or their beneficiaries, b) beneficiaries of employees who have died, and c) present employees or their beneficiaries. Benefits under the Plan are based on employees' annual compensation. The accumulated Plan benefits for active employees are based on their Plan compensation for all years of Plan participation ending on the date at which the benefit information is presented (valuation date). The accumulated Plan benefits are calculated based on benefit information as of April 1, 2018 and 2017 (the end of the respective Plan year). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable, to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE H - PLAN TERMINATION OR MODIFICATION

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Benefits attributable to employee contributions, taking into account those paid out before termination.
- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (the PBGC) (a U.S. Government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

NOTE H - PLAN TERMINATION OR MODIFICATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.
