INDEPENDENT AUDITOR'S REPORT

May 19, 2020

To the Rumpke Consolidated Companies Pension Committee and Participants of
The Rumpke Consolidated Companies, Inc. & Affiliates
Defined Benefit Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Rumpke Consolidated Companies, Inc. & Affiliates Defined Benefit Pension Plan (Plan), which comprise the statement of net assets available for benefits as of June 30, 2019, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the 2019 financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis of Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements.

Basis of Disclaimer of Opinion on the 2019 Financial Statements

As permitted by 29 CFR 2502.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 4, which was certified by Charles Schwab Bank, a custodian of the Plan, except for comparing such information with the related information included in the 2019 financial statements. We have been informed by the plan administrator that Charles Schwab Bank holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Charles Schwab Bank as of and for the year June 30, 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion on the 2019 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2019 Financial Statements paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements. Accordingly, we do not express an opinion on the 2019 financial statements.

Other Matter – Report on Supplementary Information

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended June 30, 2019, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2019 Financial Statements paragraph, we do not express an opinion on the supplemental schedules.

Other Matter – Report on the 2018 Financial Statement

We have audited the accompanying 2018 financial statements of the Plan, which comprise the statement of net assets available for benefits as of June 30, 2018 and the related statement of changes in net assets available for benefits for the year then ended, and in our report dated April 12, 2019, we expressed our opinion that such financial statements present fairly, in all material respects, the financial status of the Plan as of June 30, 2018 and for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information in the 2019 financial statements and supplemental schedules, other than that derived from the information certified by Charles Schwab Bank, have been audited by us in accordance with the auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FINANCIAL STATEMENTS

Note 1 - Plan Description

The following brief description of The Rumpke Consolidated Companies, Inc. & Affiliates Defined Benefit Pension Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the plan administrator.

General

The Plan is a noncontributory, defined benefit pension plan covering substantially all full-time employees of Rumpke Consolidated Companies, Inc. & Affiliates (collectively, the Company) who have one year of service, are age 21 or older, and were hired prior to June 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The Plan is administered by the Rumpke Consolidated Companies Pension Committee (Pension Committee), which is a committee of the Company's management. The Pension Committee has overall responsibility for the operation and administration of the Plan. In addition, the Pension Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Pension Benefits

Participants are entitled to receive a normal retirement benefit at age 62 that is based on each participant's average monthly earnings using the highest three consecutive years of compensation as well as years of credited service multiplied by predetermined factors. The Plan also permits early retirement benefits beginning at age 55 with 10 years of service. Distributions will be paid in a lump sum or in the form of one of several annuity options available, as selected by the participant. Benefits commence at the participant's normal retirement age for terminations for reasons other than death or disability. The Plan provides for an automatic rollover provision.

Death and Disability Benefits

If a participant terminates employment due to a disability, the participant is entitled to commence their vested benefit. In the event a participant dies prior to their commencement date, the surviving spouse may be eligible for a preretirement survivor annuity.

Vesting

Participants become fully vested after completion of five years of credited service, as defined.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2019 and 2018, the Company made contributions of \$8,000,000 and \$11,975,000, respectively. The Company's contributions for 2019 and 2018 met the minimum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein; disclosures of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided in the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses were combined with investment income in the accompanying statements of changes in net assets available for benefits.

Note 3 - Information Prepared and Certified by Charles Schwab

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Charles Schwab Bank, a custodian of the Plan.

Note 3 - Information Prepared and Certified by Charles Schwab (Continued)

The following information included in the accompanying financial statements and supplemental schedule of assets held at end of year was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank as of June 30, 2019 and for the year ended June 30, 2019.

Mutual funds	\$ 42,859,374
Exchange traded funds	11,430,630
Cash	424,467
Employer contributions	8,000,000

Net appreciation in fair value of investments	1,373,937
Distributions	(7,080,770)
Administrative expenses	(732,263)

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the plan are based on average monthly compensation of the participants for the highest three consecutive plan years and the participant's benefit years, not to exceed 35 years. The accumulated plan benefits for active employees are based on services rendered to the valuation date and average compensation during the highest three years of earnings through the date as of which the benefit information is determined. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, and is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits is based on an end-of-year benefit information date.

The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2019 and 2018. Had the valuations been performed as of June 30, 2019 and 2018, there would be no material difference.

FINANCIAL STATEMENTS

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in the July 1, 2019 and 2018, valuations are as follows:

Long term rate of return on investments	2018 and 2019 - 7.50% per annum compounded annually
Life expectancy of participants	2018 - RP2006 SOA Blue Collar Mortality table with generational projection scale MP2017 2019 - RP2006 SOA Blue Collar Mortality table with generational projection scale MP2018
Cost method	Unit Credit cost method
Retirement	A graded table, developed by the consulting actuary, of assumed incidence of retirement by age, ranging from 5% (age 55-59) to 100% (age 68+)
Annual pay increase	3.25% per year
Discount rate	2018 and 2019 - 7.50% 2017 - 5.67%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5 - Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted market prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2019 and 2018.

Interest-bearing cash: Valued at cost which approximated fair value.

Exchange traded funds: Valued at the closing price/last trade/bid reported on the active market in which the funds are traded, which is the value at which these funds can be bought or sold at the end of each trading day.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered by the Securities and Exchange Commission. These funds are required to publish their daily net asset value, and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Annuity contracts: Valued at contract value which approximated fair value.

THE RUMPKE CONSOLIDATED COMPANIES, INC. & AFFILIATES
DEFINED BENEFIT PENSION PLAN

FINANCIAL STATEMENTS

Note 5 - Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value:

Description	Assets at Fair Value as of June 30, 2019

Note 6 - Investment Contracts with Insurance Companies

The Plan holds variable annuity contracts with one insurance company as of June 30, 2019. The variable annuity contracts are invested in sub-accounts, which are generally invested in mutual funds. The return on the invested funds is not guaranteed; however, a guaranteed death benefit is in place, which approximates the value of the invested funds at June 30, 2019. Withdrawals from the contract are subject to charges of up to 8% of the amount withdrawn if withdrawals are made within the first four years of the contract. The value of the sub accounts is \$2,167,304 and \$2,382,596 as of June 30, 2019 and 2018, respectively.

The Company held but liquidated fixed annuity contracts with one insurance company during the year ended June 30, 2019. The minimum guaranteed rate was 3.00% through 2030. Withdrawals from the contracts were limited to 10% of the contract value, per year. Any amounts above 10% were subject to withdrawal charges of up to 7% of the excess withdrawn. The account value was defined as the amount held in the contracts, including guaranteed interest and withdrawals, and were \$0 and \$2,382,596 as of June 30, 2019 and 2018, respectively.

FINANCIAL STATEMENTS

Note 7 - Related Party and Party-in-Interest Transactions

The Plan invests in a mutual fund managed by Morgan Stanley Smith Barney (Morgan Stanley), maintains certain interest bearing cash accounts at Morgan Stanley and Charles Schwab, and owns preferred stock of Morgan Stanley. Morgan Stanley and Charles Schwab are custodians of the Plan's investments; therefore, these transactions qualify as party-in-interest transactions. During the years ended June 30, 2019 and 2018, the Plan made direct payments to Morgan Stanley totaling \$112,310 and \$224,742 respectively, for investment advisory fees and brokerage commissions. These transactions are party-in-interest transactions under ERISA.

Note 8 - Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would be payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 9 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated February 14, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

THE RUMPKE CONSOLIDATED COMPANIES, INC. & AFFILIATES
DEFINED BENEFIT PENSION PLAN

FINANCIAL STATEMENTS

Note 9 - Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 - Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11 - Subsequent Events

Plan management has evaluated subsequent events through May 19, 2020, the date the financial statements were available to be issued.

Due to national and world-wide disruptions caused by COVID-19 in 2020, the Plan may be adversely impacted due to changing market conditions. The value of the Plan's investments has a direct impact on its funded status. The actual impact on future required employer contributions, Plan liquidity, and benefit limitations, if any, cannot be determined at this time.

Except where otherwise indicated, the following assumptions were selected by the plan sponsor with the concurrence of the actuary. Prescribed assumptions are based on the requirements of the relevant law, the Internal Revenue Code and applicable regulation. The actuary was not able to evaluate the prescribed assumptions for reasonableness for the purpose of the measurement.

Valuation Date

July 1, 2018

Participant and Asset Information Collected as of

July 1, 2018

Retirement Rates (FE)

All active participants are assumed to retire at the following rates:

<u>Age</u>	<u>Rate</u>
55-59	5%
60	10%
61-65	20%
66-67	25%
68+	100%

100% of terminated vested participants are assumed to commence at the later of their current age or age 62.

As the plan is not large enough to have credible experience, retirement rates are based on professional judgement and expectation for the general population adjusted as necessary for the specific provisions of the plan.

Mortality Rates

Healthy & Disabled (FE)

IRS 2018 Static Mortality - sex distinct RP2000 separate for annuitants and non-annuitants as provided in IRC 430(h)(3). Mortality is projected 7 years past the valuation date for annuitants and 15 years past the valuation date for non-annuitants using scale AA

The mortality table is prescribed by federal regulation.

Lump Sum

2018 Applicable Mortality as prescribed by IRC 417(e)

The mortality table is prescribed by federal regulation.

ASC 960 (FE)

RP-2006 Blue Collar Mortality table projected generationally with MP-2017

As the plan is not large enough to have credible experience, mortality assumptions are set to reflect general population trends.

Disability Rates (FE)

None

Due to the size of the plan and lack of subsidies, in our professional judgement explicitly valuing a disability decrement does not improve the accuracy of the valuation sufficiently to justify the added complexity.

Withdrawal Rates (FE)

In accordance with the Sarason-Crocker T-7 termination table. Sample rates are as follows:

<u>Age</u>	<u>Rate</u>
25	9.67%
30	9.30%
35	8.71%
40	7.75%
45	6.35%
50	4.22%
55	1.55%
60	0.15%

As the plan is not large enough to have credible experience, withdrawal assumptions reflect the results of general termination experience studies.

Interest Rates

	1st Segment (0-5 years)	2nd Segment (5-20 years)	3rd Segment (20+ years)
Minimum Funding and Benefit Restrictions - Prescribed (CO)	3.92%	5.52%	6.29%
Maximum Funding - Prescribed (CO)	1.89%	3.66%	4.46%
PBGC - Prescribed (CO)	3.12%	4.20%	4.60%
ASC 960 (CO)	7.50%	7.50%	7.50%

All segment rates are based on the sponsor's election to use a 4 month lookback. The PBGC interest rates are based on the sponsor's election to use the Standard calculation method.

Interest rates for Minimum and Maximum Funding are prescribed by IRS regulation. The ASC 960 interest rate is the expected long term rate of return on assets. This assumption has been set by the plan sponsor in conjunction with their asset advisors. Detailed evaluation of this assumption was outside the scope of our engagement.

Annual Pay Increases (CO)

3.25% per annum

The annual pay increase reflects the employer's average target increase for a career employee

Payment Form Election (FE)

Lump Sums

100% of active participants are assumed to take a lump sum

Annuity

100% for current terminated vested participants are assumed to take a single life annuity

Expense and/or Contingency Loading (FE)

The Target Normal Cost is increased by \$715,000 to cover anticipated administrative expenses paid from the trust for the plan year.

Marital Status and Ages (FE)

80% of Participants assumed to be married. Husbands are assumed to be three years older than their wives.

Market Value of Assets

Equal to the fair value of assets as of the valuation date, plus the discounted value of contributions (if applicable) made following the valuation date and before the date of this report for the purpose of satisfying the prior year's funding requirements.

Plan Asset Valuation Method

PPA Smoothed Value of Assets. Gains or losses on the Market Value of Assets are recognized over three years, subject to a 10% corridor around the Market Value of Assets.

Expected Rate of Return on Assets (CO)

For determination of the Plan Asset value, the expected return on assets is equal to the Effective Interest Rate.

Cost Method (CO)

PPA requires the use of the Unit Credit cost method for determining the minimum required contribution and PBGC premiums. The maximum tax deductible contribution calculation includes limited Projected Unit Credit calculations as required under IRC 404.

ASC 960 requires the use of the Unit Credit cost method.

FE indicates an assumption representing an estimate of future experience

MD indicates an assumption representing observations of estimates inherent in market data

CO indicates an assumption representing a combination of an estimate of future experience and observations of market data

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Benefit	Vested portion of the accrued normal retirement benefit, reduced 5/9ths of 1% for each of the first 60 months, 5/18ths of 1% for each of the next 60 months and actuarially equivalent for each additional month by which the benefit commencement date precedes Normal Retirement Date.								

Average Monthly Earnings

The average of the highest three-year consecutive plan year earnings of a participant, computed on a monthly basis.

Covered Compensation

The average (without indexing) of the taxable wage bases in effect for each calendar year during the 35-year period ending with the calendar year in which the participant attains Social Security Retirement Age.

Credited Service

For Vesting

A year of vesting service is credited for each plan year in which a participant is credited with 1,000 hours of service.

For Benefit Accrual

A year of benefit service is credited for each plan year in which a participant is credited with 1,000 hours of service. Based on Plan Years commencing July 1, 1985.

Employee Contributions

Participants shall not be required or permitted to make contributions under the Plan.

Payment Forms

Normal Form

A Life Annuity for single participants. The normal retirement benefit shall be payable to married participants in the form of an actuarially equivalent Qualified Joint and 50% Survivor Annuity.

Optional Forms

Life Annuity, 5, 10, 15, & 20-Year Certain & Life Annuity, 50%, 66 2/3% 75%, & 100% Joint and Survivor Annuity, Lump Sum.

Actuarial Equivalence

For accelerated forms of payment: Actuarial Equivalence will be computed using the greater of the UP-1984 Mortality Table and 6.00% or the equivalent annual benefit computed using the "PPA applicable mortality table" and the interest rate determined under Code Section 417(e)(3) for the month of May preceeding the Plan Year that contains the annuity start date.

For non-accelerated forms of payment: Actuarial Equivalence will be computed using 6.00% per annum and UP-1984 Mortality Table (no pre-retirement mortality).

Plan Provisions Not Included

We are not aware of any plan provisions not included in the valuation.

Adjustments Made for Subsequent Events

We are not aware of any event following the measurement date and prior to the date of this report that would materially impact the results of this report.

Changes since Prior Valuation and Key Notes

There have been no changes to the plan provisions since the last valuation.

The July 1, 2017 and prior valuation results were prepared by the prior actuary and are shown here for display purposes only.

Effective July 1, 2018, there was a funding method change due to the change in firm and enrolled actuary for the plan. The funding method change qualifies for automatic approval under IRS Announcement 2015-3 since the methods are substantially the same and the funding target liability, target normal cost, and actuarial value of assets for the prior plan year were within required thresholds.

The interest rates and mortality assumptions have been updated as required under the Pension Protection Act, all subsequent legislation, and associated IRS Regulations, including the changes presented by the Bipartisan Budget Act of 2015. These changes resulted in an increase in the Funding Target and the Target Normal Cost. The plan sponsor has elected to defer the use of the revised mortality tables with the final IRS regulations 1.430(h)(3)-1 and Revenue Notice 2017-60.

To better reflect anticipated plan experience, the administrative expense load added to the Target Normal Cost was updated to \$715,000 in 2018.

To better reflect anticipated plan experience, the ASC 960 discount rate was changed from 5.67% to 7.50%. This change results in a decrease in the Present Value of Accrued Benefits.
