1. Description of Plan

The following brief description of the SDI Services LLC 401(k) Plan – Valley Division (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was established on January 1, 2019, as a defined contribution plan covering certain eligible employees of SDI Services LLC (the "Company") who were 21 years of age or older and had completed one year of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Termination

The Company approved the termination of the Plan, effective May 2, 2019. As of that date, contributions to the Plan ceased and the participants in the Plan became 100% vested in any employer discretionary matching and profit sharing contributions and all account balances were distributed from the Plan in accordance with the terms of the Plan.

Contributions

Participants could contribute up to 100% of their pretax compensation or after-tax Roth contributions to the Plan, subject to limitations prescribed by the Internal Revenue Service ("IRS"). Participants who had attained age 50 prior to the Plan termination date were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan.

The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan, unless they affirmatively elected not to participate. Automatically enrolled participants had their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The deferral rate was then scheduled to increase 1% every July 1st up to 12%.

At the Company's discretion, the Company could make a matching contribution to the Plan equal to a percentage of the participants' contributions. Additionally, the Company could elect to make a discretionary non-elective contribution to the Plan ("profit sharing"). For the nine-month period ended September 30, 2019, there were no Company contributions. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contributions and allocations of the Company's profit-sharing contributions and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Vesting

Prior to the decision to terminate the Plan, participants were immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contribution portion of their accounts, plus actual earnings thereon, was based on years of credited service. Participants vested 20% after two years of credited service and 20% each year thereafter until the participant became 100% after six years of credited service.

Notes Receivable from Participants

Participants could borrow from their accounts an amount up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms were up to 5 years or up to 15 years for the purchase of a primary residence. The loans were collateralized by the balance in the participant's account and bore interest at rates ranging from 3.25% to 6.50%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant who was employed by the Company after reaching age 55, the Plan's normal retirement age, could elect to receive all or part of the balance of his or her vested account. Upon a participant's termination of service, a participant could elect to receive either a lump-sum payment or an installment-type payment in an amount equal to the value of the vested account balance.

Forfeited Accounts

At September 30, 2019, there were no forfeited non-vested accounts. Forfeited non-vested accounts were used to reduce employer contributions and/or pay for administrative expenses. There were approximately $6,000 of forfeitures used to pay for administrative expenses and no forfeitures used to reduce employer contributions during the nine-month period ended September 30, 2019.

2. Summary of Significant Accounting Policies

Basis of Presentation

Due to the decision to terminate the Plan noted above, the accompanying 2019 financial statements of the Plan have been prepared on the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value as of the date the Participants received the distribution of their accounts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determined the Plan's valuation policies utilizing information provided by Great-West Trust, LLC ("Great-West"). See Note 3 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the plan document.

Payments of Benefits

Benefits were recorded when paid

Administrative Expenses

The Plan permitted administrative expenses to be paid from the Plan's assets and to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses relating to specific participant transactions (i.e. loan setup, distribution requests, etc.) were charged directly against the appropriate participant's account. Investment related expenses were included in net appreciation in fair value of investments.

Subsequent Events

The Plan administrator has evaluated subsequent events through May 14, 2020, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Party-In-Interest Transactions

Great-West is the trustee, as defined by the Plan. Transactions with Great-West qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

5. Information Provided by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West, the trustee of the Plan, has certified to the completeness and accuracy of all investment activity reflected in the statement of changes in net assets available for benefits for the nine-month period ended September 30, 2019.

6. Income Tax Status

On March 31, 2014, the Internal Revenue Service stated that the prototype non-standardized profit-sharing plan adopted by the Plan, as then designed, qualified under the applicable sections of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. There are currently no audits for any tax periods in progress.
