1. DESCRIPTION OF PLAN

The following description of the United Data Technologies, (the "Company") 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a complete description of the Plan's provisions.

General

The Plan is established by the Plan sponsor and the Company. The Plan was established September 1, 2012 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is a defined contribution plan, which covers all employees who have attained the age of 21. The contributory portion of the Plan is based on elective contributions from participants in the Plan.

During November 2017, the Company acquired Conquest Technology Services Corp. and effective July 2018, the Conquest Technology Services 401(k) Plan was merged with the Plan. As a result, the Conquest Technology Services 401(k) Plan investments totaling $368,165 were transferred to the Plan and are recorded in the caption "Transfer of Assets from Another Plan" in the Statements of Changes in Net Assets Available for Benefits.

Contributions

Participants may elect to defer the receipt of a portion of their compensation on a pre-tax or after tax basis, subject to the Internal Revenue Service ("IRS") and other limitations. Employees also may rollover account balances from other plans into their account. The Company may, at the sole discretion of the Board of Directors, contribute to each participant's account a matching contribution, which is a percentage of the participant's salary for the year. Effective January 1, 2019, the Company elected to make matching contributions equal to 20% of eligible employee contributions up to a maximum of 5% of total eligible compensation.

Participant Accounts and Vesting

Each participant's account is credited with the participant's contributions, rollovers, if any, and an allocation of (a) the Company's contributions and (b) Plan's earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the aggregate of the participant's deferrals, rollovers and vested employer contributions.

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the employer contributions plus earnings is based on years of service as follows:

Years of Service	Vested Percentage
Less than 1	0%
Between 1 and 2	50%
2 or more	100%

Investment Options

Participants may direct the trustee to invest their elective contributions, rollovers, if any, as well as employer matching contributions to the Plan in any of the available investment options. Participants can individually determine their investment options based on desired level of risk and return for all contributions (employer and participant) to the Plan.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefit under the Plan. Forfeitures will be used to offset the employer contribution. Total net forfeitures amounted to $13,278 and $10,952 for the years ended December 31, 2019 and 2018, respectively.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or his or her beneficiary may elect to receive the vested portion in the participant's account in a lump sum distribution.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear an interest rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. The interest rates on notes receivable from participants as of December 31, 2019 and 2018 were 4.25%-6.50% and 4.25%-6.25%, respectively. The financial risk and all associated costs with non-performing loans are borne by the individual loan holder.

Administrative Expenses

During the years ended December 31, 2019 and 2018, administrative expenses amounting to $22,662 and $6,371, respectively, were paid by the Plan and shown as a deduction from net assets. Additionally, all fees and expenses of the Plan for legal, accounting, and other miscellaneous administrative services are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, including those regarding fair value, and assumptions that affect certain reported amounts and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of change in net assets available for benefit during the reporting period. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in NOTE 4. Fair value estimates involve uncertainties and matters of significant judgment. Changes in assumptions or in market conditions could significantly affect the estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fully Benefit-Responsive Investment Contracts

The Plan entered into a fully benefit-responsive guaranteed investment contract with the Fidelity Management Trust Company totaling $236,820 at December 31, 2019. Contributions made to the traditional fully benefit-responsive guaranteed investment contract are maintained in a general account of Putnam Investments. Contributions made to the traditional fully benefit-responsive guaranteed investment contract are maintained in the Putnam Stable Value Fund which is a group annuity contract issued by the Putnam Investments.

Guaranteed Accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Both of the guaranteed investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rates are reviewed on a quarterly basis for resetting. The guaranteed investment contracts do not permit the insurance companies to terminate the agreements prior to the scheduled maturity dates.

These contracts both meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

Contract value, as reported to the Plan by the trustees, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the respective issuer.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) of investments.

Tax Status

The Plan has adopted a standardized plan, which has obtained an IRS letter on March 31, 2014, in which the IRS stated that the form of the Plan was acceptable under Section 401 of the Internal Revenue Code ("IRC"). Although the Plan has been amended from that prototype since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status (Continued)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Subsequent Events

The Plan has evaluated subsequent events through June 8, 2020, which is the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee, Fidelity Management Trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

Interest in registered investment companies, at fair value	$ 10,152,011	$ 8,274,945

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Interest in registered investments companies and money market funds: The fair values of the Plan's common stocks, bonds, money market funds, and mutual funds are based on quoted market prices as these instruments have active markets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019.

		Fair Value Measurements at Reporting Date Using:		
Description	**Fair Value 12/31/2019**	**Quoted Prices In Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**
Interest in registered investment companies	$10,152,011	$ 10,152,011	$ -	$ -
	$10,152,011	**$ 10,152,011**	**$ -**	**$ -**

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018.

		Fair Value Measurements at Reporting Date Using:		
Description	Fair Value 12/31/2018	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest in registered investment companies	$ 8,274,945	$ 8,274,945	$ -	$ -
Money market funds	97,839	97,839	-	-
	$ 8,372,784	**$ 8,372,784**	**$ -**	**$ -**

5. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. Notes receivable from participants are also considered party-in-interest transactions.

6. RISKS AND UNCERTAINTIES

The Plan provides for various investments which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

7. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100 percent vested in their accounts.

8. SUBSEQUENT EVENT – COVID-19

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. The Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was enacted on March 27, 2020 in the United States. Due to the recent enactment of this legislation, the Plan is considering whether to adopt the new rules, which eliminate tax penalties on certain early withdrawals and relax certain rules on loans for those affected by COVID-19. As a result of the COVID 19 outbreak, the Plan's investment portfolio has incurred a significant decline in fair value since December 31, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The full impact of the COVID-10 outbreak continues to evolve as the date of the auditors' report.
