1. Description of the Plan

The following description of the Lenlyn Limited 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) profit sharing Plan covering all the employees of Lenlyn Limited dba ICE Currency Services (the "Plan Sponsor"). Employees are eligible to participate in the Plan once they have attained age 21 and completed one year of service. Employees may begin deferring a portion of their compensation into the Plan on the first day of the month following eligibility. Employees covered under a collective bargaining agreement, and nonresident aliens are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and section 401(a) of the Internal Revenue Code. The Plan administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions to the Plan

Participants may contribute up to 100% of their eligible annual salary to the Plan subject to certain non-discrimination restrictions and an annual limitation of $18,500 for 2018 ($24,500 for those participants age 50 and over).

The Plan sponsor has adopted the safe harbor matching provision whereby eligible participants receive 100% of applicable employee deferrals up to 3% of employee compensation for the Plan year plus 50% of deferrals that exceed 3% of compensation but not to exceed 5% of employee compensation for the Plan year. Highly compensated and key employees are excluded from receiving safe harbor matching contribution.

The Plan also permits the Plan sponsor to make discretionary matching and profit sharing contributions. Eligibility for discretionary matching contribution is the same as for deferrals. For profit sharing contributions, eligibility is the same as for deferrals and participants must complete at least 1,000 hours of service and be employed on the last day of the Plan year. Highly compensated and key employees and financial controller are excluded from receiving such contributions. For 2018, the Plan sponsor elected to forego discretionary matching and profit sharing contributions.

Participant Accounts

All of the Plan's assets are invested, as directed by the participant, as pooled funds. A participant's account balance in the Plan is derived through an allocation of these funds. Each participant's account is credited with the participant's contribution, Plan sponsor contributions, and an allocation of investment earnings and losses pursuant to the participant's selection of investments and timing of purchase. Participant accounts are also charged with an allocation of administrative expenses that are paid by the Plan.

Vesting and Forfeitures

Participants are immediately vested in their contributions and safe harbor matching contribution and related earnings at all times. Participants are 100% vested in discretionary matching and profit sharing contributions after one year of service. Participants are immediately vested in the event of retirement, death or disability. Forfeitures may be used to pay administrative expenses and to reduce employer contributions. At December 31, 2018 and 2017, forfeitures available to pay administrative expenses and offset Plan sponsor contributions were $3. During the year ended December 31, 2018, no forfeitures were used.

Payment of Benefits

The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement (age 65), disability, death, financial hardship (as defined in the Plan), or termination of employment. In-service distributions are also available, providing the participant is at least age 59½.

Participants who qualify for retirement benefits and withdrawals will receive their benefits in the form of a lump sum payment. The benefit to which a participant is entitled is the benefit that can be provided solely from the participant's vested account balance. Retired participants must begin receiving distributions from the Plan no later than April 1 of the year following the year in which the participant attains age 70½.

Notes Receivable from Participants

The Plan permits participants to receive a loan based upon their vested account balance. Loans are limited to the lesser of $50,000 or 50% of the participant's vested account balance. The minimum loan amount is $1,000. Loans generally must be repaid with interest, by payroll deduction, within five years (longer for qualified residential loans). The interest rate on the loan will be based on the prime rate of interest published by Wall Street Journal as of the date of the loan, plus 1 percent. Loans are segregated investments and to the extent a participant borrows, his or her account will not share in the earnings and gains in value attributable to other Plan investments. The interest that participants pay on their loans will be directly credited to their accounts. The loans are secured by the balance in the participant's account and in the event of default, the unpaid loan principal will be offset against the participant's vested account balance.

Plan Amendments

Effective January 1, 2018, the Plan was amended and restated to change the following:

- Third party administrator was changed to Campbell Pension Services, Inc.
- The asset custodian was changed from TD Ameritrade Trust Company to Massachusetts Mutual Life Insurance Company as well as all of the investments.
- Eligibility to participate into the Plan was changed to exclude employees covered under a collective bargaining agreement and nonresident aliens.
- Highly compensated and key employees are excluded from receiving employer contributions.

Effective March 29, 2018, the Plan was amended to change the Disability Claims procedures.

Effective June 15, 2018, the Plan was amended to allow In-Service Withdrawals.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with ERISA. Contributions from participants are recorded when withheld from the participant. Plan sponsor contributions are recorded when approved by the Plan sponsor. Benefit payments are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value as determined by the Plan custodian (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from the participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through January 15, 2020, the date the financial statements were available to be issued.

3. Certification of Assets

TD Ameritrade Trust Company ("TD Ameritrade") and Massachusetts Mutual Life Insurance Company ("MassMutual") served as the custodians of the Plan's assets. In that capacity, the custodians held the Plan's investment assets and executed investment transactions. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, the Plan administrator has obtained certifications from the custodians as of December 31, 2018 and 2017, and for the year ended December 31, 2018, that all investment information supplied to the Plan is complete and accurate. Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2018 and 2017, and interest, dividends and net appreciation (depreciation) in fair value of investments for the year ended December 31, 2018, was obtained or derived from the certified information.

4. Fair Value Measurements

Assets at Fair Value as of December 31, 2018:

	Level 1	Total
Mutual Funds	$ 1,859,431	$ 1,859,431
Money Market Funds	420	420
Total assets in the fair value hierarchy	1,859,851	1,859,851
Guaranteed investment contract measured at net asset value	-	3
Total investment at fair value	$ 1,859,851	$ 1,859,854

Assets at Fair Value as of December 31, 2017:

	Level 1
Mutual Funds	$ 1,704,257

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018. There are no participant restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investments	Fair Value 12/31/2018	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Guaranteed investment contract	$ 3	$ -	Daily	None

The framework for measuring fair value provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements.) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets and or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money Market funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net assets value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: A guaranteed investment contract that is composed primarily of fully benefit-responsive investment contracts is valued at the net asset value as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidation will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Plan sponsor has adopted a Prototype Plan. The Prototype Plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the Prototype Plan is designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since the opinion letter, the Plan sponsor and administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan sponsor and administrator believe that the Plan is qualified and its related trust is exempt from tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. Management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, any partially vested account balances would become 100% vested.

7. Related Party Transactions

TD Ameritrade Trust Company ("TD Ameritrade") and Massachusetts Mutual Life Insurance Company ("MassMutual") served as the custodian of the Plan. All transactions with TD Ameritrade and MassMutual qualify as party-in-interest transactions.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made payments totaling $18,637 to the third party administrators and custodians which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

9. Prohibited Transactions

During the year ended December 31, 2018, the Plan sponsor did not remit certain participant contributions to the Plan in a timely manner as defined by ERISA. See the Schedule of Delinquent Participant Contributions. The Plan sponsor will compensate participants for any lost earnings resulting from the delay in contributions. These contributions are considered nonexempt party-in-interest transaction subject to an excise tax that the company intends to pay.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2018 - 12/31/2018 and indirect compensation is presented on a calendar year basis ending 12/31/2018.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Massachusetts Mutual Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2018 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.
