Independent Auditor's Report

Plan Administrator
Highland Homes Employee Stock Ownership Plan
Plano, Texas

We have audited the accompanying financial statements of the Highland Homes Employee Stock Ownership Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years-then-ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

PRAXITY
Empowering Business Globally

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in its net assets available for benefits for the years-then-ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Highland Homes Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 1: Description of the Plan

The following description of the Highland Homes Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, Highland Homes Holdings, Inc. (Company).

General

The Company established the Plan effective January 1, 2015. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (Code), as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan is administered by an ESOP committee comprised of the general counsel and vice president of human resources. Argent Trust Company (Trustee) is the Plan's trustee.

Unallocated and Allocated Shares

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018, and for the years-then-ended present separately the assets and liabilities and changes therein pertaining to:

(A) The accounts of employees with vested rights in allocated common stock (allocated)

(B) Common stock not yet allocated to employees (unallocated)

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year and are over the age of 21. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Vesting

Participants become 20% vested after two years of credited service and earn an additional 20% with each credited year of service thereafter. After six years of credited service, a participant is 100% vested. The six-year vesting schedule is as follows:

Years of Service	Vested Percentage of Account Balance
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

The Plan also provides for 100% vesting for participants upon death, permanent disability or reaching the normal retirement age (65).

Employer Contributions

The Company is obligated to make contributions in cash to the Plan, which when aggregated with the Plan's dividends and interest earnings, of an amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its long-term debt, if any.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's account based upon the relation of the participant's allocated points to total points for the Plan year. Employer contributions are allocated to each participant's account based upon the relation of the participant's allocated points to total points for the Plan year. A participant shall be awarded 50 points for each year of service and one point for each full $200 of compensation received during the applicable year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, their legal representatives), becomes permanently disabled or otherwise terminates employment with the Company and its participating subsidiaries. For participants terminating employment before reaching retirement age for any reason other than death or disability, distributions will begin no later than one year after the close of the fifth year following the year in which the termination occurs and are made in five equal annual installments. For participants terminating employment by reason of death or disability or on or after reaching retirement age, distributions will begin no later than one year after the close of the Plan year in which termination occurs and are made in five equal annual installments.

For participants who have terminated employment and the value of the account is greater than $5,000, the participant may elect to postpone payment until they reach retirement age.

For participants who have reached age 55 and have completed 10 years of participation in the Plan, the participant may elect to diversify a portion of their account balance by transferring amounts from the Plan to another tax-qualified plan in accordance with the Plan document.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2019 and 2018, the Plan distributed, and the Company repurchased from participants 1,170 and 1,711 shares, respectively, at the appraised values.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants during the years-ended December 31, 2019 and 2018, totaled $96,611 and $182,471, respectively.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the employee benefits administration committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary to repay the loan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by annual independent appraisals.

Dividend income, if any, is recorded when declared. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. The Company has historically paid the operating expenses of the Plan.

Note 3: Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consists of the Company's common stock and money market funds.

Company contributions are held and managed by the Trustee, which invests cash received, interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4: Investments

The Plan's investments at December 31, 2019 and 2018, are presented in the following table:

	2019		2018	
	Allocated	Unallocated	Allocated	Unallocated

	$ 14,776,487	$129,139,618	$ 4,668,034	$ 51,379,790

Note 5: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair-value measurement must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2019 and 2018:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2019				
Highland Homes Holdings, Inc. – common stock	$ 143,910,899	$ -	$ -	$ 143,910,899
Money market fund	5,206	5,206	-	-
	$ 143,916,105	$ 5,206	$ -	$ 143,910,899
December 31, 2018				
Highland Homes Holdings, Inc. – common stock	$ 56,038,213	$ -	$ -	$ 56,038,213
Money market fund	9,611	9,611	-	-
	$ 56,047,824	$ 9,611	$ -	$ 56,038,213

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year-ended December 31, 2019. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The fair value of Company common stock is estimated based upon an independent appraisal. The Plan sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting principles generally accepted in the United States of America.

Level 3 Valuation Process

The fair value of Company common stock is estimated based upon an independent appraisal. The Plan's management challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States of America.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Highland Homes Holdings, Inc. Common Stock
Balance, January 1, 2018	$ 63,601,881
Total realized and unrealized gains and losses included in net increase (decrease) in net assets available for benefits	(7,563,668)
Balance, December 31, 2018	56,038,213
Total realized and unrealized gains and losses included in net increase in net assets available for benefits	87,872,686
Balance, December 31, 2019	$ 143,910,899

Realized and unrealized gains and losses for items reflected in the table above are included in net increase (decrease) in net assets available for benefits in the statements of changes in net assets available for benefits.

Note 6: Note Payable

The Plan entered into a $25,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 14,540 and 14,539 shares being released and allocated for the Plan years-ended December 31, 2019 and 2018, respectively.

The agreement provides for the loan to be repaid over 50 years. The fair value of the note payable as of December 31, 2019 and 2018, was approximately $23,878,243 and $24,141,140, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates and nonperformance risk. The loan bears interest at 2.62%.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2020	$ 249,274
2021	281,515
2022	288,891
2023	296,460
2024	302,593
Thereafter	22,459,510
	$ 23,878,243

Note 7: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. This matter includes the following:

Valuation of Highland Homes Holdings, Inc. Common Stock

The common stock of the Company owned by the Plan is valued at its estimated fair value as determined by annual independent appraisal. The actual fair value of the common stock can only be determined based on an ultimate sale of the Company.

Note 8: Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 9: Tax Status

The Plan has received a determination letter from the IRS dated June 21, 2017, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Code and, therefore, not subject to tax.

Note 10: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

The Company provides certain administrative services at no cost to the Plan.

Note 11: Subsequent Events

Subsequent events have been evaluated through June 10, 2020, which is the date the financial statements were available to be issued.
