SENTINEL INTEGRITY SOLUTIONS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014

Note 1 – Description of Plan

The following description of the Sentinel Integrity Solutions, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is sponsored by Sentinel Integrity Solutions, Inc. (the “Company”).

General

The Plan was adopted on February 1, 2008 and is a defined contribution plan covering all full-time employees of the Company who are age twenty-one or older. Full-time employees are eligible for matching contributions. Employees are eligible to commence participating on the first of the month following their employment or attaining the age of twenty-one.

During the year ended December 31, 2015, the Company was not in compliance with the eligibility requirements and certain employees who should have been considered full-time employees were not allowed to enter the Plan. The Company has corrected this issue in 2018, and the Plan is currently in compliance with the eligibility requirements as of the date the financial statements were available for issuance.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute from 1% to 90% of pretax or post-tax annual compensation, as defined in the Plan. Additionally, participants can rollover contributions representing distributions from other qualified defined benefit or contribution plans. Contributions may not exceed a dollar limit which is set by law ($18,000 for 2015). Participants who are at least 50 years of age by December 31, 2015 are permitted to make additional catch-up contributions ($6,000 for 2015). Employee contributions may be made only by or through payroll deductions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company matches a discretionary percentage of employee contributions, including pre-tax and catch-up contributions. Participants are eligible for the employer contribution upon eligibility into the Plan. The Company will match 25% of the employee’s contributions up to 12%. The Company contributed $148,484 in employer matching contributions to the Plan during the year ended December 31, 2015.

Participant Accounts

Separate accounts are maintained for each participant. Participant accounts are credited with the participant contributions, rollover contributions, allocations of Company contributions and investment earnings and losses, and charged with withdrawals and administrative fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1 – Description of Plan (Continued)

Vesting

Participants are immediately vested in their salary deferral contributions, rollover contributions, and any earnings thereon. Vesting in the Company's contribution portion of participant accounts plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. No participant loan shall exceed the participant's vested interest in the Plan. A participant cannot have more than one outstanding loan at any given time. The loans are secured by the vested balance in the respective participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably, through payroll deductions, over a period generally not extending beyond five years from the date of the loan.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or their beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals

Participants may make early withdrawals of all or a portion of their elective deferral contributions in their account under the hardship provision of the Plan. Participants may make unrestricted withdrawals of their vested account balance on or after age 59½. At the age of 70½, a participant is required to receive minimum required distributions from their account annually.

Forfeited Accounts

Forfeitures represent the portion of non-vested benefits remaining from employees who have withdrawn from the Plan before becoming fully vested. Forfeitures shall be used to reduce future Company contributions. As of December 31, 2015, forfeited non-vested accounts totaled $58,458.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. Estimates that have the most impact on financial position and results of performance primarily relate to the fair value of investments. Plan management believes these estimates and assumptions provide a reasonable basis for the fair presentation of the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) in the fair value of investments is reported in the statement of changes in net assets available for benefits and consists of the realized and unrealized gains and losses of these investments. Purchases and sales of securities are recorded on a trade-date basis. Expenses related to the purchase or sale of investments are added to cost or deducted from proceeds. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' vested account balances. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Plan Expenses

Plan expenses consist of charges by the trustee to process loans, withdrawals, and distributions, and perform allocations. The Plan permits the payment of Plan expenses to be made from the Plan's assets. If the Company does not pay these expenses, then the expenses paid using the Plan's assets will generally be allocated among the accounts of all participants in the Plan.

Note 2 – Summary of Significant Accounting Policies (Continued)

Concentrations of Credit Risk

The Plan's investments potentially subject the Plan to concentrations of credit risk. The Plan has not experienced any credit losses associated with these instruments.

Excess Contributions Refundable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding increase to corrective distributions. The Plan distributed the 2015 contributions to the applicable participants in 2018.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value practical expedient in Accounting Standards Codification 820. ASU 2015-07 requires retrospective application and is effective for fiscal years beginning after December 15, 2016. Management is currently assessing the impact that ASU 2015-07 will have on the Plan's financial statements.

In February 2017, the FASB issued ASU 2017-06, Plan Accounting: Defined Benefit Pensions Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Master Trust Reporting. The amendments in ASU 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. This ASU is not applicable to the Plan.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I of this ASU eliminates the requirement to measure fully benefit-responsive investment contracts at fair value. Contract value will be the only required measure for fully benefit-responsive investment contracts. Part I of this ASU is not applicable to the Plan. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits. In addition, the disclosure of information about fair value measurements shall be provided by general type of investment. Part III of this ASU is not applicable to the Plan. The provisions of this ASU are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The Plan adopted this guidance for the year ended December 31, 2015.

Note 3 – Investments

Unaudited Information Certified as Complete and Accurate by the Plan Trustee

The statements of net assets available for benefits as of December 31, 2015 and 2014, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2015, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by Fidelity Management Trust Company (the "Trustee") in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified as complete and accurate includes total investments and notes receivable totaling $2,575,217 and $2,025,565 at December 31, 2015 and 2014, respectively, and the related net depreciation of fair value of investments of $121,274, investment income of $112,193 and interest income on notes receivable totaling $8,961 for the year ended December 31, 2015.

Note 4 – Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 – Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market fund: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

Assets at Fair Value as of December 31, 2015

	Level 1	Level 2	Level 3	Total
Money market fund	$ 266,197	$ -	$ -	$ 266,197
Mutual funds	2,121,110	-	-	2,121,110
Total Investments, at fair value	$ 2,387,307	$ -	$ -	$ 2,387,307

Assets at Fair Value as of December 31, 2014 (Unaudited)

	Level 1	Level 2	Level 3	Total
Money market fund	$ 209,495	$ -	$ -	$ 209,495
Mutual funds	1,613,664	-	-	1,613,664
Total Investments, at fair value	$ 1,823,159	$ -	$ -	$ 1,823,159

Note 5 – Administration of Plan Assets

The Plan's assets are administered under a contract with Fidelity Management Trust Company, the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants

Note 6 – Related Party and Party-in-Interest Transactions

The Company provides the Plan with certain accounting and administrative services for which no fees are charged. Fidelity Management Trust Company is considered a party-in-interest, as defined by ERISA, since they provide services to the Plan as trustee. Administrative fees paid to these parties-in-interest totaled $200 for the year ended December 31, 2015. These transactions are exempt from being prohibited transactions from ERISA.

The Plan has notes receivable from participants at December 31, 2015 and 2014. These notes and all transaction relating to these notes qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions from ERISA.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2015:

Net assets available for benefits per financial statements	$ 2,454,466
Less: Contributions receivable	(75,545)
Add: Excess contributions refundable to participants	196,296
Net assets available for benefits per Form 5500	$ 2,575,217

The following is a reconciliation of contributions per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2015:

Contributions per financial statements	$ 856,595
Less: Contributions receivable at December 31, 2015	(75,545)
Contributions per Form 5500	$ 781,050

Note 8 – Reconciliation of Financial Statements to Schedule H of Form 5500 (Continued)

The following is a reconciliation of corrective distributions per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2015:

Corrective distributions per financial statements	$ 219,024
Less: Excess contributions refundable to participants at December 31, 2015	(196,296)
Corrective distributions per Form 5500	$ 22,728

The Plan made corrective distribution of $219,024 to certain participants during 2018. These corrective distributions were required in order to correct the failure of certain 2014 and 2015 IRS non-discrimination tests in the Plan. The Plan failed certain IRS non-discrimination tests for the year ended December 31, 2015. Excess contributions amount to $196,296 are recorded as a liability in the accompanying statements of net assets available for benefits. The Plan refunded these excess contributions to affected participants during 2018.

Note 9 – Tax Status

The Plan uses a prototype plan sponsored by its third party administrator. The third party administrator received a letter from the Internal Revenue Service dated March 31, 2014, which states that the prototype document satisfies the applicable provision of the Internal Revenue Code. The prototype plan has been amended since receiving this determination letter.

The Plan itself has not received a determination letter from the IRS. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 – Delinquent Participant Contributions

Pursuant to the Department of Labor Reg. 2510.3-102, an employer is required to segregate participant contributions from its general assets as soon as practicable, but in no event later than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages. During the year ended December 31, 2015, the Company failed to segregate employee contributions totaling $117,382 in a timely manner. The Company properly reported and corrected a portion of these contributions with the Department of Labor and will correct the remainder of the contributions during the year ended December 31, 2018.

Note 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

As of December 31, 2015 and 2014, the Plan had investments of $1,149,544 and $875,493, respectively, that were concentrated in four funds.

Note 12 – Fidelity Bond Coverage

For the year ended December 31, 2015, the Plan did not have sufficient fidelity bond coverage. Management has corrected the situation subsequent to year-end.

Note 13 – Subsequent Events

Management has evaluated subsequent events through May 20, 2019, which is the date the financial statements were available for issuance, and has determined that, except as disclosed elsewhere in the financial statements, no such events or transactions took place that would require disclosure herein.
