CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2019 and 2018

(1) Description of the Plan

The following brief description of the CareOregon, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

(a) General

The Plan is a 401(k) defined-contribution salary deferral plan covering substantially all employees of CareOregon, Inc. (the Company) and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the Plan's sponsor and serves as plan administrator. Principal Trust Company serves as custodian of the Plan and Principal Financial Group serves as the recordkeeper of the Plan. The Company's Chief Executive Officer, Chief Financial Officer, and Chief Legal Officer serve as trustees of the Plan.

(b) Eligibility

Effective January 1, 2019, employees of the Company are eligible to participate in the Plan on the first day of each month upon reaching age 18. Previously, employees of the Company were eligible to participate in the Plan on the first day of each calendar quarter upon reaching age 18. Employees must be employed on the last day of the year to receive a discretionary profit sharing contribution.

(c) Contributions

Employee Contributions

Participants may elect to contribute amounts from their paychecks up to the maximum allowed by the Internal Revenue Service (IRS) each plan year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

Employer Contributions

The Company matches 100% of employee contributions, up to 2% of eligible compensation deferred to the Plan. The Company also contributes 3% of each participant's compensation as a safe harbor nonelective contribution. During the year ended December 31, 2019 and 2018, the Company made an additional discretionary profit sharing contribution of 2.5% and 2% respectively. Discretionary contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. The total employer contribution was \$5,289,365 and \$4,422,685 for the years ended December 31, 2019 and 2018, respectively.

Contributions are subject to regulatory limitations.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers various registered investments (mutual funds), pooled separate

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2019 and 2018

accounts, and a collective trust as investment options for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. In addition, the Company's 3% safe harbor contribution immediately vests to the participant. In general, vesting in discretionary contributions and matching are based on years of service, as defined in the Plan document, with employees becoming fully vested after three years.

(f) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to 50% of participants' vested accounts, but not in excess of \$50,000. Loans are subject to certain restrictions and are secured by the balance of the participant's account. Loans bear fixed reasonable rates of interest, as determined by the plan administrator. The maximum loan term is five years, unless the loan qualifies as a home loan, in which case the term of the loan may be longer than five years up to ten years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2019, the rates of interest on outstanding loans ranged from 3.25% to 5.50% with various maturities through August 2029.

(g) Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested balance does not exceed \$5,000, benefits are paid to participants by the Principal automatically upon notification of termination.

(h) Forfeitures

Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan until used to reduce the Company's contributions. As of December 31, 2019 and 2018, forfeited nonvested accounts totaled \$1,366 and \$932, respectively. For the year ended December 31, 2019 and 2018, the Company's matching and profit sharing contributions were reduced by \$140,018 and \$134,187, respectively, from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2019 and 2018

(c) Investment Valuation

The investments in pooled separate accounts, registered investment companies, and common collective trusts are stated at fair value. The Plan's custodian certifies the fair market value of the pooled separate accounts, common collective trusts, and registered investment companies. If available, quoted market prices are used to value investments. If quoted market prices are not available, NAV is used as an indicator of readily determinable fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

(d) Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the plan agreement.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Expenses

Administrative expenses related to operating and maintaining the Plan are paid by the Company. Certain investment and transaction fees, including fees paid to Principal and investment advisers, are paid by participants in the Plan. Investment-related expenses are included in net appreciation of fair value of investments.

(h) Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through June 8, 2020, which is the date the financial statements were available to be issued.

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2019 and 2018

Effective February 1, 2020, the Plan Sponsor's Board of Directors approved a resolution to transfer members who are leased employees of Yamhill Community Care Organization to a separate plan sponsored by that entity, resulting in a transfer of approximately 20 members out of the Plan.

On January 30, 2020, the World Health Organization declared the outbreak of COVID-19 as a "public health emergency of international concern," and on March 13, 2020, the President of the United States declared a state of national emergency. As a result of the outbreak, there has been instability in the capital markets. The ultimate impact of the COVID-19 outbreak is highly uncertain. The Plan's future performance, including investments, contributions, and distribution activity, are likely to be impacted by COVID-19. The Plan does not yet know the full extent of potential impacts on the Plan.

The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was signed into law on March 27, 2020. The CARES Act allowed for certain enhanced distribution terms. The Plan adopted these terms, including hardship distributions of up to \$100,000, elimination of tax withholding and the 10% tax penalty on hardship distributions, the ability to repay such distributions within 3 years, similar enhanced terms for participant loans, and elimination of required minimum distributions for fiscal year 2020. The Plan adopted these provisions on April 10, 2020.

(3) Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the Financial Accounting Standards Board's Accounting Standards Codification Section 820, *Fair Value Measurement* (FASB ASC 820) are described as follows:

(a) Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2019 and 2018

(b) Registered Investment Companies (Mutual Funds)

Value determined by obtaining quoted market prices on nationally recognized security exchanges and are classified within Level 1 of the valuation hierarchy.

(c) Pooled Separate Accounts

Units held in pooled separate accounts are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. The NAV of the Fund is determined daily based on net assets at fair market value, and plan participants can transact at that NAV on a daily basis.

Each pooled separate account seeks a total return consisting of long-term growth of capital and current income. Of the 17 pooled separate accounts, 12 operate as "target date funds." Target date funds invest in underlying Principal Funds, Inc. (PFI) domestic and foreign equity, real estate investments, and fixed-income funds (the Funds) according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. Each Fund's asset allocation will become more conservative over time as investment goals near (for example, retirement, which is assumed to begin at age 65) and investors become more risk-averse. The Funds invest in PFI Institutional Class shares of the underlying funds. These pooled separate accounts can be redeemed at NAV as of the measurement date.

(d) Common Collective Trust

Units held in common collective trusts are valued at fair value using the NAV of the fund. The NAV of a collective investment is calculated based on a compilation of primarily observable market information. The NAV of the Fund is determined daily based on net assets at fair market value, and plan participants can transact at that NAV on a daily basis. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the trust. The Plan has investments in the Principal Stable Value Fund (the Fund), which is a collective trust held by Union Bond & Trust Company (Trustee) and is designed to provide preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund holds guaranteed investment contracts, which typically have a fixed maturity. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments.

(4) Tax Status

The Plan document is a prototype nonstandardized profit sharing plan that received a favorable opinion letter from the IRS on March 31, 2014, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10, *Income Taxes*), the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(5) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, which changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

(6) Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company, the custodian of the Plan, has certified the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018,
- Investment balances included in note 3 (excluding level designations),
- Net appreciation (depreciation) in fair value of investments, dividends and interest, and interest on notes receivable from participants reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018,
- Investments reflected on the supplemental schedule H – line 4i – schedule of assets (held at end of year).

(7) Party-In-Interest Transactions
