DESCRIPTION OF PLAN

The following description of the Smalley USA 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is a defined contribution plan covering all employees of Smalley Steel Ring Company (the "Company"). Employees are eligible to contribute after they have completed 90 consecutive days of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: The Plan provides for the following contributions, which are to be maintained in separate accounts for each participant:

(a) Salary Deferral Contributions – a participant may elect, on a pretax basis, to defer and contribute to the Plan each year amounts not to exceed the lesser of 100% of compensation, as defined, or $19,000 ($25,000 for participants over the age of 50) for the fiscal year ending September 30, 2019, adjusted annually for cost of living increases. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation. In addition, unless a different percentage is chosen by the participant, the percentage will automatically increase each year by 1% on January 1st of each year up to a maximum of 10%

(b) Employer Matching Contributions – to be made at the discretion of the Company to contribute a set matching percentage that is allocated proportionate to the amount of the participant's deferrals. The match is to be made in an amount equal to 25% of the participant's contribution not to exceed 2.5% of the participant's eligible compensation.

(c) Employer Safe Harbor Contributions – a 3% non-elective contribution to all eligible participants based on their eligible compensation.

(d) Employer Profit Sharing Contributions – to be made at the discretion of the Company. These contributions are allocated based on a discretionary percentage of the participant's eligible compensation as determined by the Company.

(e) Rollover and Transfer Contributions - to be made by the employee from amounts distributed or transferred from other qualified plans.

Investment Options: Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts: Each participant's account is credited with the participant's elective contribution and Company matching and safe harbor contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits: Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account.

Vesting: Participants are immediately vested in their Salary Deferral Contributions, Rollover, Transfer Contributions, Safe Harbor Contribution accounts plus actual earnings thereon. Vesting of Employer Matching Contributions and Employer Profit Sharing Contributions accounts for each participant is based on years of service, beginning with 25% after one year, increasing 25% per year until fully vested after four years of service.

Forfeited Accounts: Forfeitures of the non-vested portion of participants' accounts resulting from termination of employment before full vesting, may be used to restore forfeited accounts of rehired participants, offset plan expenses, or used to reduce any discretionary company contribution. For the plan year ended September 30, 2019, no forfeitures were used to restore forfeited accounts, offset plan expenses or to reduce any discretionary company contributions. At September 30, 2019 and 2018, forfeited non-vested accounts totaled $27,935 and $21,239, respectively.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments, other than fully-benefit responsive investment contracts ("FBRICs"), are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee and insurance company.

FBRICs are reported at contract value, which is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The Plan invests in FBRICs through the Transamerica Stable Value Strategy Fund.

Purchases and sales of investments are recorded on the trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses: Plan-related expenses or fees that are not paid by the Company are paid by the Plan. Certain expenses and fees that are not paid by the Company are allocated among the Plan's participants. These expenses include investment advisory fees and administrative expenses for maintaining the plan. Certain fees for participant requested services, such as withdrawal requests are charged to each participant account, certain investment related expenses are included in the net appreciation in the fair value of investments.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through June 29, 2020, the date the financial statements were available to be issued.

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset's or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2019 and 2018.

Shares of Registered Investment Companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the plan are deemed to be actively traded. These investments are considered level 1 in the fair value hierarchy.

GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan offers a stable value fund through Transamerica. The stable value fund is considered a fully-benefit responsive investment contract. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits. Contract value, as reported by Transamerica Life Insurance Company ("TLIC"), is a measurement that approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of TLIC or otherwise. The contract value of the investment contract at September 30, 2019 and 2018 was $3,393,043 and $2,433,961, respectively. The stable value fund is a general account group annuity contract issued by TLIC. The fund invests in Guaranteed Investment Contracts ("GICs"). This investment seeks to provide maximum return consistent with a guarantee of principal. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, on a daily basis, and with no set maturity. The effective credited interest rate is set semi-annually on January 1 and July 1 and effective on the first day of the month. Contract charges may reduce this return.

Certain events, such as termination of the contract by the Plan or termination of the Plan, would limit the ability of the Plan to transact at contract value with TLIC. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Certain events allow the issuer to terminate the contact with the Plan and settle for an amount different than contract value. Such events include: (1) the Plan is changed so significantly so as to significantly affect TLIC's obligations to the contract, (2) the contract can no longer be treated as a pension plan contract, (3) the Plan is terminated, (4) failure to comply with the contract's requirements, (5) failure to provide information needed under the contract, (6) failure to provide copies of any amendments to the Plan or requested annual report records, or (7) the sum of the contract account values at any time equals $20,000 or less.

INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE AND CUSTODIAN OF THE PLAN

All investment and investment income information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as being complete and accurate by State Street Bank and Trust Company, trustee of the Plan.

PARTY–IN–INTEREST TRANSACTIONS

For the years ending September 30, 2019 and 2018, the Plan held shares of mutual funds managed by State Street Bank and Trust Company ("State Street") and a group annuity contract with Transamerica Life Insurance Company ("TLIC"). State Street is the Plan trustee and TLIC a Plan custodian. These transactions qualify as party-in-interest transactions. Certain employees of the Company provide various services to the Plan. These employees are not compensated for these services from the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

TAX STATUS

The Plan has adopted a prototype plan sponsored by Transamerica Retirement Solutions, LLC ("TRS"). TRS is the Plan's third-party plan administrator. The Internal Revenue Service has determined and informed TRS by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Forms 5500 as of September 30, 2019 and 2018:

SUBSEQUENT EVENTS

The COVID-19 outbreak, which was declared a pandemic by the World Health Organization on March 11, 2020, triggered volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment portfolio has incurred a decline in fair value since September 30, 2019. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.

A prolonged widespread epidemic could adversely influence global economies and financial markets resulting in an economic downturn that may disrupt the demand for a plan sponsors goods and/or services. Such disruptions could adversely affect plan sponsor profitability, cash flows, financial results, and the ability to make required plan contributions.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report and such impact cannot be estimated in the plan's financial statements at this time.
