Report of Independent Auditors

To the Participants and Plan Administrator
Brown and Caldwell Employee Stock Ownership Plan

Report on Financial Statements

We have audited the accompanying financial statements of the Brown and Caldwell Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

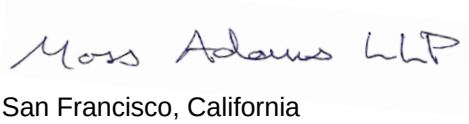

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2019 and 2018, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, Line 4(i) –schedule of assets (held at end of year) as of September 30, 2019, and Schedule H, Line 4(j) – schedule of reportable transactions for the year ended September 30, 2019, are presented for the purpose of additional analysis and are not required parts of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Brown and Caldwell Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was originally established in 1962 by Brown and Caldwell (the Company) as a profit sharing plan and was subsequently amended and restated as an employee stock ownership plan in 1975. The Plan provides benefits to eligible employees as defined in the plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan may receive loans or other extensions of credit to finance the acquisition of Company common stock, with such loans to be repaid by employer contributions to the Brown and Caldwell Employee Stock Ownership Plan Trust (the Trust) and dividends received on such Company common stock. During the Plan years ended September 30, 2019 and 2018, the Plan did not receive any loans or other extensions of credit.

Administration – Under the terms of the Plan, the Board of Trustees of the Company act as the Plan trustee. The Company has appointed an ESOP Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested accounts are first used to reinstate previously forfeited account balances of former participants, if any, in accordance with the plan document, and thereafter are allocated to the accounts of eligible participants in the Plan at the end of the Plan year. Forfeitures in the amount of 3,113 and 3,682 shares of Company common stock (valued at $410,570 and $448,106, respectively) were allocated for the Plan years ended September 30, 2019 and 2018, respectively.

Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Plan assets, which consist principally of Company common stock, are nonparticipant-directed and are maintained by the trustee in the Trust. The fair value of the Company common stock is determined by independent appraisal.

Income taxes – The Plan received its latest favorable determination letter dated February 16, 2018, from the Internal Revenue Service (IRS). The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the Trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of September 30, 2019. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The net assets of the Plan are comprised primarily of Company common stock. The value of the Company common stock is subject to the annual operating results and financial position of the Company. It is at least reasonably possible that changes in the estimated value of the Company's common stock in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. In addition, because of the inherent subjectivity in any independent valuation, the estimated value may differ significantly from the value that would be used had a ready market for the securities existed, and the difference could be material.

Accounting standards update – In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement—Disclosure Framework (Topic 820)*. The amendments remove, modify, and add certain fair value disclosure requirements. The updated guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The Plan sponsor is currently evaluating the timing and impact of adopting the updated provisions on its financial statements.

Subsequent events – The Plan has evaluated subsequent events through July 6, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment in Company stock could have incurred a decline in fair value since September 30, 2019. However, because the value of the Plan's investment in Company stock will fluctuate in response to changing market conditions, the amount of losses that might be recognized in subsequent periods, if any, cannot be determined at this time. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the Plan's asset measured at fair value. There have been no changes in the methodologies used at September 30, 2019 and 2018.

Company common stock: Valued by an annual independent appraisal utilizing three methods of valuation: the discounted cash flows method, the guideline public company method, and the market transaction method. Final valuation gave weight to each of the three methods (50%, 15%, and 35%, as of September 30, 2019 and 2018).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of Company common stock could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30:

	September 30, 2019			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 42,723,333	$ 42,723,333
Total assets at fair value	$ -	$ -	$ 42,723,333	$ 42,723,333

	September 30, 2018			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 35,201,981	$ 35,201,981
Total assets at fair value	$ -	$ -	$ 35,201,981	$ 35,201,981

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2019:

	Company Common Stock
Balance, beginning of year	$ 35,201,981
Contributions	6,380,731
Change in unrealized gain relating to Company common stock	3,303,851
Distributions and transfers	(2,163,230)
Balance, end of year	$ 42,723,333

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2018:

	Company Common Stock
Balance, beginning of year	$ 29,581,677
Contributions	4,456,736
Change in unrealized gain relating to Company common stock	3,351,033
Distributions and transfers	(2,187,465)
Balance, end of year	$ 35,201,981

Qualitative information about significant unobservable inputs used in the Level 3 fair value measurements at September 30, 2019 and 2018, are as follows:

Description	Valuation Technique	Unobservable Inputs
Sponsor Company Common Stock	Discounted Cash Flow	Weighted average cost of capital Long-term revenue growth rate Long-term EBITA Discount for lack of marketability Terminal Value
	Guideline Public Company	Discount for lack of marketability Market multiples Long-term revenue growth rate Long-term EBITA Discount for lack of control
	Market Transaction	Tender offer data Discount for lack of marketability

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company is required to purchase distributed shares and shares subject to diversification at fair value as of the prior year-end valuation date. The Plan permits shares purchased from participants who meet the Plan's diversification criteria to be paid, at the discretion of the Committee, directly to the participant, to a participant's qualified IRA account, or the participant's account in the Brown and Caldwell Savings Plan (the 401(k) Plan). The Plan permits shares purchased by the Company from terminated participants to be paid, at the discretion of the Committee, directly to the participant, to the participant's qualified IRA account or, for nonconsenting participants, to the 401(k) Plan. The Company purchased 17,775 and 19,868 shares with a fair value of approximately $2,163,000 and $2,187,000, during the years ended September 30, 2019 and 2018, respectively, from terminated participants and participants who met Plan diversification criteria. During the years ended September 30, 2019 and 2018, $1,284,000 for 10,549 shares and $883,000 for 8,022 shares, respectively, relating to nonconsenting participants and participants who met the Plan's diversification criteria were transferred to the 401(k) Plan.

The following table reflects the change in shares for the years ended September 30, 2019 and 2018:

	Shares	Amount
Balance at September 30, 2017	268,680	$ 29,581,677

NOTE 4 – PARTICIPATION AND BENEFITS

Eligibility – Full-time employees are eligible to become Plan participants on the first day of the month following the completion of one hour of service and temporary employees must complete one year of service with at least 1,000 hours to be eligible.

Employer contributions – For each Plan year, the amount of the Company's contribution is at the discretion of the Company's Board of Directors. Company contributions may be paid in cash or shares of Company common stock; in both 2019 and 2018, as elected by the Board of Directors, contributions were made in the form of stock. The amount of any Company contributions that are paid in the form of shares of Company common stock are based on the fair value of the common stock on the date such shares are issued to the Trust.

On December 20, 2019, the Board of Directors unanimously approved a discretionary special contribution for the 2019 plan year. The contribution provided for an allocation of 10 shares of Company common stock to each eligible full-time employee as of the same date. On September 10, 2019, the Board of Directors unanimously approved a discretionary special contribution for the 2019 plan year. The contribution provided for an allocation of 20 shares of Company common stock to each active employee as of the same date. The eligibility requirement for being credited for 1,000 hours worked in the Plan year was waived for these discretionary special contributions.

On September 30, 2018, the Board of Directors unanimously approved a discretionary special contribution for the 2017 Plan year. The contribution provided an allocation of 25 shares of Company common stock to each eligible plan participant. A plan participant was eligible to receive the special contribution of 25 shares if he or she was an active employee as of September 30, 2018. The eligibility requirement for being credited for 1,000 hours worked in the Plan year was waived for these discretionary special contributions.

Irrespective of discretionary contributions, plan participants are entitled to share in the allocation of minimum contributions in plan years in which his or her account consists of less than ten shares of Company common stock. Minimum contributions increase the accounts of all eligible participants such that every eligible participant has a minimum Company Stock Account balance of 10 shares of Company common stock.

Participant accounts – Each participant's share of plan assets is recorded in two accounts: the Company Stock Account, which generally represents the participant's allocable portion of the Company's common stock included in plan assets, and the Other Investment Account, which generally represents the participant's share of net income or loss of the Trust, cash dividends, if any, and Company contributions and forfeitures in other than Company common stock.

Each participant's account is credited with an allocation of unrealized appreciation or depreciation in the value of the Plan's investment in the Company's common stock. Participants are entitled to share in minimum contributions for each plan year in which their Company Stock Account balance consists of less than ten shares of Company common stock and they are eligible employees on the allocation date. Generally, participants who have completed at least 1,000 hours of service during the year and are eligible employees on the allocation date are entitled to share in discretionary contributions and forfeitures. Allocations of forfeitures are based on participant compensation, as defined in the Plan.

Vesting percentage – Effective October 1, 2007, all participants credited with an hour of service on or after October 1, 2007, are 100% vested in their accounts after three years of credited service. Participants become fully vested if they are employed by the Company on or after their 65th birthday or, if later, their fifth anniversary of Plan participation. Participants become fully vested at death or upon incurring a disability while employed by the Company.

Payment of benefits – Pursuant to the plan document, benefits can be paid in a lump sum, in substantially equal annual installments over a period not exceeding five years or any combination of both methods. Benefits are normally distributed in minimum installments of $20,000. All distributions are paid in shares of Company common stock. Distributions are valued at fair value as of the latest stock valuation date and participants are required to sell distributed shares to the Company. The Plan allows for the automatic lump-sum distribution of participant account balances that do not exceed $1,000. For participants with account balances that exceed $1,000 and who have not consented to a distribution or cannot be located, their account balances will be transferred to the 401(k) Plan.

Participants whose service terminates for reasons other than retirement or death will normally receive their benefit as soon as possible after attaining age 65 unless an earlier distribution is authorized by the Committee with the consent of the participant. The Committee may, at its sole discretion after considering a participant's wishes, direct Plan benefits to be distributed in a lump sum or installments over a period of time not to exceed ten years. Included in net assets available for benefits at September 30, 2019 and 2018, are benefits due to terminated participants of approximately $3,700,000 and $2,670,000, respectively.

Participants who are age 55 or older and have completed ten or more years of service are eligible to "diversify" a portion of their account annually over a six-year period as provided in the Plan. For each of the first five Plan years in the election period, the participant may elect to "diversify" an amount which does not exceed 25% of the number of shares of Company common stock allocated to their plan account. In the case of the sixth plan year in the election period, the participant may elect to "diversify" an amount which does not exceed 50% of the number of shares of Company common stock allocated to their plan account. Eligible participants may direct the trustee to sell and transfer a portion of their Company Stock Account to the the 401(k) Plan to be invested in accordance with the participant's direction. Alternatively, the participant may direct the trustee to distribute such amounts directly to the participant or to an Individual Retirement Account (IRA).

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2019 and 2018, the Company repurchased from participants 17,775 and 19,868 shares, respectively, at prices determined from the independent appraisal.

NOTE 5 – PLAN TERMINATION OR MODIFICATION

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. In the event that the Plan is terminated in the future, participants would become fully vested in their accounts.

To the Participants and Plan Administrator
Brown and Caldwell Employee Stock Ownership Plan

Report on Financial Statements

We have audited the accompanying financial statements of the Brown and Caldwell Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

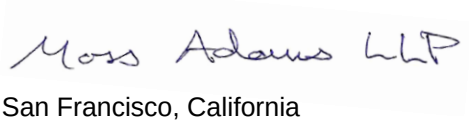

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2019 and 2018, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, Line 4(i) –schedule of assets (held at end of year) as of September 30, 2019, and Schedule H, Line 4(j) – schedule of reportable transactions for the year ended September 30, 2019, are presented for the purpose of additional analysis and are not required parts of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Brown and Caldwell Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was originally established in 1962 by Brown and Caldwell (the Company) as a profit sharing plan and was subsequently amended and restated as an employee stock ownership plan in 1975. The Plan provides benefits to eligible employees as defined in the plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan may receive loans or other extensions of credit to finance the acquisition of Company common stock, with such loans to be repaid by employer contributions to the Brown and Caldwell Employee Stock Ownership Plan Trust (the Trust) and dividends received on such Company common stock. During the Plan years ended September 30, 2019 and 2018, the Plan did not receive any loans or other extensions of credit.

Administration – Under the terms of the Plan, the Board of Trustees of the Company act as the Plan trustee. The Company has appointed an ESOP Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested accounts are first used to reinstate previously forfeited account balances of former participants, if any, in accordance with the plan document, and thereafter are allocated to the accounts of eligible participants in the Plan at the end of the Plan year. Forfeitures in the amount of 3,113 and 3,682 shares of Company common stock (valued at $410,570 and $448,106, respectively) were allocated for the Plan years ended September 30, 2019 and 2018, respectively.

Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Plan assets, which consist principally of Company common stock, are nonparticipant-directed and are maintained by the trustee in the Trust. The fair value of the Company common stock is determined by independent appraisal.

Income taxes – The Plan received its latest favorable determination letter dated February 16, 2018, from the Internal Revenue Service (IRS). The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the Trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of September 30, 2019. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The net assets of the Plan are comprised primarily of Company common stock. The value of the Company common stock is subject to the annual operating results and financial position of the Company. It is at least reasonably possible that changes in the estimated value of the Company's common stock in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. In addition, because of the inherent subjectivity in any independent valuation, the estimated value may differ significantly from the value that would be used had a ready market for the securities existed, and the difference could be material.

Accounting standards update – In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement—Disclosure Framework (Topic 820)*. The amendments remove, modify, and add certain fair value disclosure requirements. The updated guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The Plan sponsor is currently evaluating the timing and impact of adopting the updated provisions on its financial statements.

Subsequent events – The Plan has evaluated subsequent events through July 6, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment in Company stock could have incurred a decline in fair value since September 30, 2019. However, because the value of the Plan's investment in Company stock will fluctuate in response to changing market conditions, the amount of losses that might be recognized in subsequent periods, if any, cannot be determined at this time. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the Plan's asset measured at fair value. There have been no changes in the methodologies used at September 30, 2019 and 2018.

Company common stock: Valued by an annual independent appraisal utilizing three methods of valuation: the discounted cash flows method, the guideline public company method, and the market transaction method. Final valuation gave weight to each of the three methods (50%, 15%, and 35%, as of September 30, 2019 and 2018).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of Company common stock could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30:

	September 30, 2019			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 42,723,333	$ 42,723,333
Total assets at fair value	$ -	$ -	$ 42,723,333	$ 42,723,333

	September 30, 2018

Total assets at fair value	$ -	$ -	$ 35,201,981	$ 35,201,981

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2019:

	Company Common Stock
Balance, beginning of year	$ 35,201,981
Contributions	6,380,731
Change in unrealized gain relating to Company common stock	3,303,851
Distributions and transfers	(2,163,230)
Balance, end of year	$ 42,723,333

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2018:

	Company Common Stock
Balance, beginning of year	$ 29,581,677
Contributions	4,456,736
Change in unrealized gain relating to Company common stock	3,351,033
Distributions and transfers	(2,187,465)
Balance, end of year	$ 35,201,981

Qualitative information about significant unobservable inputs used in the Level 3 fair value measurements at September 30, 2019 and 2018, are as follows:

Description	Valuation Technique	Unobservable Inputs
Sponsor Company Common Stock	Discounted Cash Flow	Weighted average cost of capital Long-term revenue growth rate Long-term EBITA Discount for lack of marketability Terminal Value
	Guideline Public Company	Discount for lack of marketability Market multiples Long-term revenue growth rate Long-term EBITA Discount for lack of control
	Market Transaction	Tender offer data Discount for lack of marketability

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company is required to purchase distributed shares and shares subject to diversification at fair value as of the prior year-end valuation date. The Plan permits shares purchased from participants who meet the Plan's diversification criteria to be paid, at the discretion of the Committee, directly to the participant, to a participant's qualified IRA account, or the participant's account in the Brown and Caldwell Savings Plan (the 401(k) Plan). The Plan permits shares purchased by the Company from terminated participants to be paid, at the discretion of the Committee, directly to the participant, to the participant's qualified IRA account or, for nonconsenting participants, to the 401(k) Plan. The Company purchased 17,775 and 19,868 shares with a fair value of approximately $2,163,000 and $2,187,000, during the years ended September 30, 2019 and 2018, respectively, from terminated participants and participants who met Plan diversification criteria. During the years ended September 30, 2019 and 2018, $1,284,000 for 10,549 shares and $883,000 for 8,022 shares, respectively, relating to nonconsenting participants and participants who met the Plan's diversification criteria were transferred to the 401(k) Plan.

The following table reflects the change in shares for the years ended September 30, 2019 and 2018:

	Shares	Amount
Balance at September 30, 2017	268,680	$ 29,581,677

NOTE 4 – PARTICIPATION AND BENEFITS

Eligibility – Full-time employees are eligible to become Plan participants on the first day of the month following the completion of one hour of service and temporary employees must complete one year of service with at least 1,000 hours to be eligible.

Employer contributions – For each Plan year, the amount of the Company's contribution is at the discretion of the Company's Board of Directors. Company contributions may be paid in cash or shares of Company common stock; in both 2019 and 2018, as elected by the Board of Directors, contributions were made in the form of stock. The amount of any Company contributions that are paid in the form of shares of Company common stock are based on the fair value of the common stock on the date such shares are issued to the Trust.

On December 20, 2019, the Board of Directors unanimously approved a discretionary special contribution for the 2019 plan year. The contribution provided for an allocation of 10 shares of Company common stock to each eligible full-time employee as of the same date. On September 10, 2019, the Board of Directors unanimously approved a discretionary special contribution for the 2019 plan year. The contribution provided for an allocation of 20 shares of Company common stock to each active employee as of the same date. The eligibility requirement for being credited for 1,000 hours worked in the Plan year was waived for these discretionary special contributions.

On September 30, 2018, the Board of Directors unanimously approved a discretionary special contribution for the 2017 Plan year. The contribution provided an allocation of 25 shares of Company common stock to each eligible plan participant. A plan participant was eligible to receive the special contribution of 25 shares if he or she was an active employee as of September 30, 2018. The eligibility requirement for being credited for 1,000 hours worked in the Plan year was waived for these discretionary special contributions.

Irrespective of discretionary contributions, plan participants are entitled to share in the allocation of minimum contributions in plan years in which his or her account consists of less than ten shares of Company common stock. Minimum contributions increase the accounts of all eligible participants such that every eligible participant has a minimum Company Stock Account balance of 10 shares of Company common stock.

Participant accounts – Each participant's share of plan assets is recorded in two accounts: the Company Stock Account, which generally represents the participant's allocable portion of the Company's common stock included in plan assets, and the Other Investment Account, which generally represents the participant's share of net income or loss of the Trust, cash dividends, if any, and Company contributions and forfeitures in other than Company common stock.

Each participant's account is credited with an allocation of unrealized appreciation or depreciation in the value of the Plan's investment in the Company's common stock. Participants are entitled to share in minimum contributions for each plan year in which their Company Stock Account balance consists of less than ten shares of Company common stock and they are eligible employees on the allocation date. Generally, participants who have completed at least 1,000 hours of service during the year and are eligible employees on the allocation date are entitled to share in discretionary contributions and forfeitures. Allocations of forfeitures are based on participant compensation, as defined in the Plan.

Vesting percentage – Effective October 1, 2007, all participants credited with an hour of service on or after October 1, 2007, are 100% vested in their accounts after three years of credited service. Participants become fully vested if they are employed by the Company on or after their 65th birthday or, if later, their fifth anniversary of Plan participation. Participants become fully vested at death or upon incurring a disability while employed by the Company.

Payment of benefits – Pursuant to the plan document, benefits can be paid in a lump sum, in substantially equal annual installments over a period not exceeding five years or any combination of both methods. Benefits are normally distributed in minimum installments of $20,000. All distributions are paid in shares of Company common stock. Distributions are valued at fair value as of the latest stock valuation date and participants are required to sell distributed shares to the Company. The Plan allows for the automatic lump-sum distribution of participant account balances that do not exceed $1,000. For participants with account balances that exceed $1,000 and who have not consented to a distribution or cannot be located, their account balances will be transferred to the 401(k) Plan.

Participants whose service terminates for reasons other than retirement or death will normally receive their benefit as soon as possible after attaining age 65 unless an earlier distribution is authorized by the Committee with the consent of the participant. The Committee may, at its sole discretion after considering a participant's wishes, direct Plan benefits to be distributed in a lump sum or installments over a period of time not to exceed ten years. Included in net assets available for benefits at September 30, 2019 and 2018, are benefits due to terminated participants of approximately $3,700,000 and $2,670,000, respectively.

Participants who are age 55 or older and have completed ten or more years of service are eligible to "diversify" a portion of their account annually over a six-year period as provided in the Plan. For each of the first five Plan years in the election period, the participant may elect to "diversify" an amount which does not exceed 25% of the number of shares of Company common stock allocated to their plan account. In the case of the sixth plan year in the election period, the participant may elect to "diversify" an amount which does not exceed 50% of the number of shares of Company common stock allocated to their plan account. Eligible participants may direct the trustee to sell and transfer a portion of their Company Stock Account to the the 401(k) Plan to be invested in accordance with the participant's direction. Alternatively, the participant may direct the trustee to distribute such amounts directly to the participant or to an Individual Retirement Account (IRA).

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2019 and 2018, the Company repurchased from participants 17,775 and 19,868 shares, respectively, at prices determined from the independent appraisal.

NOTE 5 – PLAN TERMINATION OR MODIFICATION

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. In the event that the Plan is terminated in the future, participants would become fully vested in their accounts.

Report of Independent Auditors

To the Participants and Plan Administrator
Brown and Caldwell Employee Stock Ownership Plan

Report on Financial Statements

We have audited the accompanying financial statements of the Brown and Caldwell Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

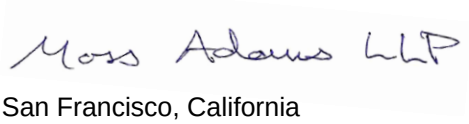

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2019 and 2018, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, Line 4(i) –schedule of assets (held at end of year) as of September 30, 2019, and Schedule H, Line 4(j) – schedule of reportable transactions for the year ended September 30, 2019, are presented for the purpose of additional analysis and are not required parts of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Brown and Caldwell Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was originally established in 1962 by Brown and Caldwell (the Company) as a profit sharing plan and was subsequently amended and restated as an employee stock ownership plan in 1975. The Plan provides benefits to eligible employees as defined in the plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan may receive loans or other extensions of credit to finance the acquisition of Company common stock, with such loans to be repaid by employer contributions to the Brown and Caldwell Employee Stock Ownership Plan Trust (the Trust) and dividends received on such Company common stock. During the Plan years ended September 30, 2019 and 2018, the Plan did not receive any loans or other extensions of credit.

Administration – Under the terms of the Plan, the Board of Trustees of the Company act as the Plan trustee. The Company has appointed an ESOP Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third-party administrator to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested accounts are first used to reinstate previously forfeited account balances of former participants, if any, in accordance with the plan document, and thereafter are allocated to the accounts of eligible participants in the Plan at the end of the Plan year. Forfeitures in the amount of 3,113 and 3,682 shares of Company common stock (valued at $410,570 and $448,106, respectively) were allocated for the Plan years ended September 30, 2019 and 2018, respectively.

Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Plan assets, which consist principally of Company common stock, are nonparticipant-directed and are maintained by the trustee in the Trust. The fair value of the Company common stock is determined by independent appraisal.

Income taxes – The Plan received its latest favorable determination letter dated February 16, 2018, from the Internal Revenue Service (IRS). The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the Trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. No uncertain positions have been identified that would require recognition of a liability (or asset) or disclosure in the financial statements as of September 30, 2019. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and uncertainties – The net assets of the Plan are comprised primarily of Company common stock. The value of the Company common stock is subject to the annual operating results and financial position of the Company. It is at least reasonably possible that changes in the estimated value of the Company's common stock in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. In addition, because of the inherent subjectivity in any independent valuation, the estimated value may differ significantly from the value that would be used had a ready market for the securities existed, and the difference could be material.

Accounting standards update – In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement—Disclosure Framework (Topic 820)*. The amendments remove, modify, and add certain fair value disclosure requirements. The updated guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The Plan sponsor is currently evaluating the timing and impact of adopting the updated provisions on its financial statements.

Subsequent events – The Plan has evaluated subsequent events through July 6, 2020, which is the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. As a result, the Plan's investment in Company stock could have incurred a decline in fair value since September 30, 2019. However, because the value of the Plan's investment in Company stock will fluctuate in response to changing market conditions, the amount of losses that might be recognized in subsequent periods, if any, cannot be determined at this time. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the Plan's asset measured at fair value. There have been no changes in the methodologies used at September 30, 2019 and 2018.

Company common stock: Valued by an annual independent appraisal utilizing three methods of valuation: the discounted cash flows method, the guideline public company method, and the market transaction method. Final valuation gave weight to each of the three methods (50%, 15%, and 35%, as of September 30, 2019 and 2018).

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumptions to determine the fair value of Company common stock could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30:

	September 30, 2019			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 42,723,333	$ 42,723,333
Total assets at fair value	$ -	$ -	$ 42,723,333	$ 42,723,333

	September 30, 2018			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 35,201,981	$ 35,201,981
Total assets at fair value	$ -	$ -	$ 35,201,981	$ 35,201,981

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2019:

	Company Common Stock
Balance, beginning of year	$ 35,201,981
Contributions	6,380,731
Change in unrealized gain relating to Company common stock	3,303,851
Distributions and transfers	(2,163,230)
Balance, end of year	$ 42,723,333

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2018:

	Company Common Stock
Balance, beginning of year	$ 29,581,677
Contributions	4,456,736
Change in unrealized gain relating to Company common stock	3,351,033
Distributions and transfers	(2,187,465)
Balance, end of year	$ 35,201,981

Qualitative information about significant unobservable inputs used in the Level 3 fair value measurements at September 30, 2019 and 2018, are as follows:

Description	Valuation Technique	Unobservable Inputs
Sponsor Company Common Stock	Discounted Cash Flow	Weighted average cost of capital Long-term revenue growth rate Long-term EBITA Discount for lack of marketability Terminal Value
	Guideline Public Company	Discount for lack of marketability Market multiples Long-term revenue growth rate Long-term EBITA Discount for lack of control
	Market Transaction	Tender offer data Discount for lack of marketability

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company is required to purchase distributed shares and shares subject to diversification at fair value as of the prior year-end valuation date. The Plan permits shares purchased from participants who meet the Plan's diversification criteria to be paid, at the discretion of the Committee, directly to the participant, to a participant's qualified IRA account, or the participant's account in the Brown and Caldwell Savings Plan (the 401(k) Plan). The Plan permits shares purchased by the Company from terminated participants to be paid, at the discretion of the Committee, directly to the participant, to the participant's qualified IRA account or, for nonconsenting participants, to the 401(k) Plan. The Company purchased 17,775 and 19,868 shares with a fair value of approximately $2,163,000 and $2,187,000, during the years ended September 30, 2019 and 2018, respectively, from terminated participants and participants who met Plan diversification criteria. During the years ended September 30, 2019 and 2018, $1,284,000 for 10,549 shares and $883,000 for 8,022 shares, respectively, relating to nonconsenting participants and participants who met the Plan's diversification criteria were transferred to the 401(k) Plan.

The following table reflects the change in shares for the years ended September 30, 2019 and 2018:

	Shares	Amount
Balance at September 30, 2017	268,680	$ 29,581,677
Contributions	40,440	4,456,736

NOTE 4 – PARTICIPATION AND BENEFITS

Eligibility – Full-time employees are eligible to become Plan participants on the first day of the month following the completion of one hour of service and temporary employees must complete one year of service with at least 1,000 hours to be eligible.

Employer contributions – For each Plan year, the amount of the Company's contribution is at the discretion of the Company's Board of Directors. Company contributions may be paid in cash or shares of Company common stock; in both 2019 and 2018, as elected by the Board of Directors, contributions were made in the form of stock. The amount of any Company contributions that are paid in the form of shares of Company common stock are based on the fair value of the common stock on the date such shares are issued to the Trust.

On December 20, 2019, the Board of Directors unanimously approved a discretionary special contribution for the 2019 plan year. The contribution provided for an allocation of 10 shares of Company common stock to each eligible full-time employee as of the same date. On September 10, 2019, the Board of Directors unanimously approved a discretionary special contribution for the 2019 plan year. The contribution provided for an allocation of 20 shares of Company common stock to each active employee as of the same date. The eligibility requirement for being credited for 1,000 hours worked in the Plan year was waived for these discretionary special contributions.

On September 30, 2018, the Board of Directors unanimously approved a discretionary special contribution for the 2017 Plan year. The contribution provided an allocation of 25 shares of Company common stock to each eligible plan participant. A plan participant was eligible to receive the special contribution of 25 shares if he or she was an active employee as of September 30, 2018. The eligibility requirement for being credited for 1,000 hours worked in the Plan year was waived for these discretionary special contributions.

Irrespective of discretionary contributions, plan participants are entitled to share in the allocation of minimum contributions in plan years in which his or her account consists of less than ten shares of Company common stock. Minimum contributions increase the accounts of all eligible participants such that every eligible participant has a minimum Company Stock Account balance of 10 shares of Company common stock.

Participant accounts – Each participant's share of plan assets is recorded in two accounts: the Company Stock Account, which generally represents the participant's allocable portion of the Company's common stock included in plan assets, and the Other Investment Account, which generally represents the participant's share of net income or loss of the Trust, cash dividends, if any, and Company contributions and forfeitures in other than Company common stock.

Each participant's account is credited with an allocation of unrealized appreciation or depreciation in the value of the Plan's investment in the Company's common stock. Participants are entitled to share in minimum contributions for each plan year in which their Company Stock Account balance consists of less than ten shares of Company common stock and they are eligible employees on the allocation date. Generally, participants who have completed at least 1,000 hours of service during the year and are eligible employees on the allocation date are entitled to share in discretionary contributions and forfeitures. Allocations of forfeitures are based on participant compensation, as defined in the Plan.

Vesting percentage – Effective October 1, 2007, all participants credited with an hour of service on or after October 1, 2007, are 100% vested in their accounts after three years of credited service. Participants become fully vested if they are employed by the Company on or after their 65th birthday or, if later, their fifth anniversary of Plan participation. Participants become fully vested at death or upon incurring a disability while employed by the Company.

Payment of benefits – Pursuant to the plan document, benefits can be paid in a lump sum, in substantially equal annual installments over a period not exceeding five years or any combination of both methods. Benefits are normally distributed in minimum installments of $20,000. All distributions are paid in shares of Company common stock. Distributions are valued at fair value as of the latest stock valuation date and participants are required to sell distributed shares to the Company. The Plan allows for the automatic lump-sum distribution of participant account balances that do not exceed $1,000. For participants with account balances that exceed $1,000 and who have not consented to a distribution or cannot be located, their account balances will be transferred to the 401(k) Plan.

Participants whose service terminates for reasons other than retirement or death will normally receive their benefit as soon as possible after attaining age 65 unless an earlier distribution is authorized by the Committee with the consent of the participant. The Committee may, at its sole discretion after considering a participant's wishes, direct Plan benefits to be distributed in a lump sum or installments over a period of time not to exceed ten years. Included in net assets available for benefits at September 30, 2019 and 2018, are benefits due to terminated participants of approximately $3,700,000 and $2,670,000, respectively.

Participants who are age 55 or older and have completed ten or more years of service are eligible to "diversify" a portion of their account annually over a six-year period as provided in the Plan. For each of the first five Plan years in the election period, the participant may elect to "diversify" an amount which does not exceed 25% of the number of shares of Company common stock allocated to their plan account. In the case of the sixth plan year in the election period, the participant may elect to "diversify" an amount which does not exceed 50% of the number of shares of Company common stock allocated to their plan account. Eligible participants may direct the trustee to sell and transfer a portion of their Company Stock Account to the the 401(k) Plan to be invested in accordance with the participant's direction. Alternatively, the participant may direct the trustee to distribute such amounts directly to the participant or to an Individual Retirement Account (IRA).

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2019 and 2018, the Company repurchased from participants 17,775 and 19,868 shares, respectively, at prices determined from the independent appraisal.

NOTE 5 – PLAN TERMINATION OR MODIFICATION

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. In the event that the Plan is terminated in the future, participants would become fully vested in their accounts.
