NOTE A - DESCRIPTION OF PLAN

The following description of The Lexington School (the School) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the School regardless of age or time of employment. Those employees who have two years of service and are age 21 or older are eligible to receive a matching contribution from the School. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2018, The Lexington School TDA Plan was merged into The Lexington School Retirement Plan and as of January 1, 2018, the funds had been transferred into this Plan. The transfer is reflected in the accompanying statement of changes in net assets available for benefits.

Contributions - Each year participants may contribute up to 100 percent of pretax annual compensation up to a maximum of \$19,000 (\$25,000 for age 50 and older) for the 2019 plan year, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants who have 15 years of service with the School are permitted to make Special Code Section 403(b) Catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions and the School's contribution into various investment options offered by the Plan. The Plan currently offers 49 registered investment companies, pooled separate accounts and an insurance company general contract as investment options for participants. The School contributes 100% of the first 5% of base compensation that a participant contributes to the Plan. Once an employee has been with the School greater than 15 years, the match increases to 200%. Nonelective contributions may be made to the Plan by the School, although it is not required to do so.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the School's contribution and (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Vesting on contributions made by the School to each participant's account plus earnings thereon is 100 percent immediately. Participants are 100 percent vested on all pretax compensation contributed to the Plan.

Notes Receivable from Participants - Notes receivable from participants are not permitted by the Plan.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits - On termination of service due to severance from employment, death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or a distribution toward the purchase of an annuity contract. If an individual's account balance is \$1,000 or less, it will be paid out in a lump sum distribution.

Forfeitures - Since the plan allows for 100 percent immediate vesting in employee and employer contributions, no forfeitures are held by the Plan.

Administrative Expenses - Administrative expenses, other than direct investment fees that are disclosed in Footnote E, are absorbed by the School.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through July 6, 2020, which is the date the financial statements were available to be issued.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully-benefit responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

NOTE B - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable - Amounts payable to participants totaling \$2,960 for contributions in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to 2019 contributions. The Plan distributed the 2019 excess contributions prior to March 15, 2020. There were no excess contributions for the year ended December 31, 2018.

Payment of Benefits - Benefits are recorded when paid.

Expenses - Certain expenses of maintaining the Plan are paid by the School and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments.

NOTE C - FAIR VALUE OF INVESTMENTS

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value, in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE C - FAIR VALUE OF INVESTMENTS (CONTINUED)

*Registered Investment Companies*

The fair value of investments in registered investment companies is based on the daily closing price as reported by the fund. Funds are registered with the U.S. Securities and Exchange Commission and are deemed to be actively traded. These funds are required to publish their daily net asset value and to transact at that price. These funds are classified within Level 1 of the valuation hierarchy.

*Pooled Separate Accounts*

Pooled separate accounts (PSA) are not publicly quoted in an exchange or an active market; however, as a practical expedient, the fair value is determined based on the NAV of the underlying assets as traded in an exchange or active market. As part of the adoption of ASU 2015-07, the TIAA Real Estate Fund is measured at fair value using the NAV per share as a practical expedient and has not been classified under the fair value hierarchy. There are currently no redemption restrictions or unfunded commitments on these investments.

*Insurance Company General Contracts*

The non-benefit responsive general contract with an insurance company is not actively traded and significant other observable inputs are not available. The TIAA Traditional Annuity is reported at contract value, which approximates fair value. The contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. A twenty-year analysis of crediting rates for TIAA Traditional Annuity contracts suggests a rate of return that is representative of a market rate for this type product; thus, application of observed rates would yield a discounted cash flow which approximates contract value. This fund is classified within level 3 of the valuation hierarchy.

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE E - RELATED PARTY TRANSACTIONS

During 2019 and 2018, the Plan invested in shares of mutual funds managed by TIAA-CREF, which is a related party to the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$132,960 and \$109,423 for the years ended December 31, 2019 and 2018.

NOTE G - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in a traditional fully benefit-responsive guaranteed investment contract with TIAA-CREF. TIAA-CREF maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan.

Because a portion of the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The fully benefit-responsive portion of the guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by TIAA-CREF, represents

NOTE G - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2019 and 2018, was \$50,159 and \$72,180, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with TIAA-CREF. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on completing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any prohibited transaction exemption under ERISA.

The guaranteed investment contract does not permit the TIAA-CREF to terminate the agreement prior to the scheduled maturity date.

NOTE H - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the School by a letter dated August 7, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J - SUBSEQUENT EVENTS

For the year-ended December 31, 2019, the Plan evaluated subsequent events for potential recognition and disclosure through July 6, 2020, the date of financial statement issuance. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which are likely to negatively impact investment values, investment income and other plan transactions. Other financial impact could occur though such potential impact is unknown at this time.

Additionally, in March 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by COVID-19. Provisions from the CARES Act that could affect the Plan are (1) participants that are directly impacted by COVID-19 are allowed to take distributions of up to \$100,000, without a 10% early withdrawal penalty, through December 31, 2020. A COVID-19 related distribution may be repaid by the participant, at any time, within three years from receiving such distribution, and (2) temporarily suspends the required minimum distribution requirements for calendar year 2020.
