Notes to Financial Statements

Note 1: Plan Description

The following description of Mark Young Construction, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Mark Young Construction, Inc. (the "Company"), who have completed three months of service. An employee must be employed on the last day of the plan year in order to be eligible to receive the Company's discretionary matching contribution. An employee must have worked at least 500 hours during the year in order to be eligible to receive the Company's discretionary profit sharing contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the plan administrator and trustee of the Plan, and is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the trustee. Charles Schwab Bank, Standard Insurance Company, and other third party administrators provide custodial, investment advisory, and recordkeeping services to the Plan pursuant to the terms of service provider agreements.

Contributions

Each year, participants may contribute up to the amount allowed by law of annual compensation as defined in the Plan, on a pretax and/or after-tax basis. Deferral contributions and after-tax Roth contributions shall not exceed certain limits set forth by the Internal Revenue Service ("IRS") ($19,000 in 2019). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions (up to $6,000 in 2019). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company may make matching contributions equal to a percentage of each participant's contributions. The Company may also make non-matching profit sharing contributions. For the years ended December 31, 2019 and 2018, the Company made a discretionary matching contribution equal to 50% of the participant's salary deferrals that do not exceed 6% of compensation. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, Company's contributions, allocations of plan earnings (losses), and charged with an allocation of certain administrative fees that are paid by the Plan. Allocations are based on participant earnings (losses), account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Plan Description (Continued)

Investment Options

Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan offers various mutual funds and a fixed account under a guaranteed investment contract as investment options for participants. Participants may change their investment options at any time.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions portions of their accounts, plus actual earnings thereon, is based on years of continuous service. A year of service is credited for which 1,000 hours or more are worked in a plan year. A participant is 100% vested after six years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. The terms of the notes require repayment periods up to 5 years, or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service for any reason, a participant with an account balance in excess of $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a specified period. If the account balance is less than $5,000, the only option is a lump-sum payment.

Forfeited Accounts

At December 31, 2019 and 2018, the balance of the forfeited accounts was $-0-, for both years. These accounts are used to reduce future Company contributions. During the year ended December 31, 2019, the Company's matching contributions were reduced by $15,292 from forfeited nonvested accounts.

Hardship Withdrawals

Hardship withdrawals are available if the participant meets certain criteria.

Note 2: Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP). Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian(s), and insurance company. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and (losses) on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit (losses) has been recorded at December 31, 2019 and 2018. Delinquent loans may be reclassified as benefits paid to participants based upon the terms of the plan documents.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation in fair value of investments.

Note 2: Summary of Accounting Policies (Continued)

Payments of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through July 7, 2020, which is the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure, except as disclosed in Note 10.

Note 3: Investments and Information Prepared and Certified by the Asset Custodian(s) (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the asset custodian(s) of the Plan have certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, and investment information included in the notes to the financial statements.
- Notes receivable from participants and related interest income.
- Dividends, interest, and net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.
- The schedule of assets held at end of year included as supplemental information.

This information has not been audited by the plan's independent auditors.

Note 4: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets in active markets; Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Note 4: Fair Value Measurements (Continued)

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 7,430,886	$ -	$ -	$ 7,430,886

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 5,491,665	$ -	$ -	$ 5,491,665

Note 5: Investment Contract with Insurance Company

The Plan offers a fully benefit-responsive investment contract with Standard Insurance Company (Standard). Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Contributions to the guaranteed investment contract become part of Standard's general account. The contract is credited with interest in accordance with the interest crediting rate established and periodically adjusted by the issuer. The contract is charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 5: Investment Contract with Insurance Company (Continued)

The contract is a traditional guaranteed investment contract and is presented in the Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula determined by the issuer, but it may not be less than 1.00%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) termination of the contract, (2) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (3) plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with participants is not probable.

The insurance company may terminate the contract with thirty days written notice to the contract owner for reasonable cause, which includes failure by the contract owner to meet contract requirements.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 7: Related-Party Transactions and Party-in-Interest Transactions

Plan investments are managed by Charles Schwab Bank. Charles Schwab Bank served as asset custodian and Standard served as the recordkeeper during the year ended December 31, 2019. Transactions with these institutions qualify as party-in-interest transactions. The Plan made payments of $47,208 to the custodian and recordkeeper for the year ended December 31, 2019. The Company pays directly any other fees related to the Plan's operations.

Notes receivable for participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 8: Tax Status

The Plan utilizes a prototype plan which obtained a favorable determination letter from the IRS dated March 31, 2014, stating that the prototype plan is qualified under the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Note 8: Tax Status (Continued)

GAAP requires plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 10: Subsequent Events

Beginning in March 2020, the United States economy began suffering adverse effects from the Covid-19 Virus Crisis ("CV19 Crisis"). The Company's operations have not been significantly impacted by the CV19 Crisis; however, the Company continues to monitor the situation. Negative impact on the Company's results of operations, cash flows, and financial condition, and the ability for the Company to continue to make contributions to the Plan, cannot be reasonably estimated or determined at this time.

The Plan is evaluating whether certain optional provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) that was signed into law on March 27, 2020, will be adopted, including coronavirus-related distributions and suspended participant loan payments and increased loan limits. Required plan amendments for these provisions must be made by the last day of the plan year beginning on or after January 1, 2022.
