REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
Appleton Group LLC Pension Plan for Bargaining Unit Employees

Report on the financial statements

We were engaged to audit the accompanying financial statements of the Appleton Group LLC Pension Plan for Bargaining Unit Employees (the "Plan"), which comprise the statements of net assets available for benefits as of September 30, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of September 30, 2019 and 2018, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF PLAN

General

In order to simplify the administration of the collectively bargained retirement plans, in fiscal year 2001, Appleton Group LLC (the "Company" or the "Sponsor") deemed it advisable to merge the following plans into the O Z/Gedney, Terryville Pension Plan for Bargaining Unit Employees, which was renamed the Appleton Group LLC Pension Plan for Bargaining Unit Employees (the "Plan"):

- The Appleton Electric Company, South Milwaukee Foundry Division Pension Plan for Bargaining Unit Employees.
- Appleton Electric Pension Plan for Bargaining Unit Employees.
- O Z/Gedney Pension Plan for Bargaining Unit Employees.
- Hevi-Duty/Nelson Pension Plan for Bargaining Unit Employees.
- Sola/Hevi-Duty Pension Plan for Bargaining Unit Employees.
- Birch Hills Foundries Pension Plan for Bargaining Unit Employees.
- G.S. Electrical Group Neer Pension Plan for Bargaining Unit Employees.

Effective October 1, 2001, the aforementioned plans were merged into the Plan. Notwithstanding the merger of the plans, separate plan documents continue to be maintained. The benefit provisions of each plan, as in effect before the merger, have been retained with respect to the class of eligible employees covered under the particular plan before the merger until the Company, at its discretion, determines otherwise.

The Plan is currently a non-contributory defined benefit plan covering all bargaining unit employees. The Company contributes such amounts as are necessary on an actuarially determined basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Participants should refer to the respective plan document for more complete information.

Pension Benefits

Each plan merged into the Plan has different benefit payments, which are documented in the individual plan documents and generally provide for benefits at normal retirement age 65, based on either a formula considering compensation and years of service or a stated dollar amount times years of service.

Due to changes in the law, effective March 28, 2005, the cash-out provisions of the Plan have been revised to require a lump-sum cash-out over \$1,000 of a participant's vested benefit be transferred to an individual retirement account ("IRA") or annuity if the participant has not reached the later of age 62 or his or her normal retirement age, and the participant fails to timely consent to payment or select an IRA or another eligible retirement plan into which to roll the distribution.

Vesting

A participant's vested portion of benefits is based on his or her years of credited service up to his or her termination of employment. Participants become 100% vested after five years of continuous service or at age 65, whichever occurs first.

Death and Disability Benefits

If an active employee dies at a specified age, which varies by location, a death benefit equal to the value of the employee's vested accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled, subject to defined age and/or years of service vesting requirements. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

Contributions and Funding

Contributions from the Company are subject to Internal Revenue Service ("IRS") limitations and are based on actuarial calculations of normal cost. The Company satisfied the minimum funding requirements of ERISA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, the actuarial present value of accumulated benefits at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2017-06, *Employee Benefit Master Trust Reporting* ("ASU 2017-06") which provides guidance that changes the reporting requirements for an employee benefit plan holding an interest in a master trust. The guidance clarifies that for each master trust in which a plan holds an interest, its interest in each master trust must be reported on a separate line item on the statement of net asset available for benefits and the change in value in each master trust interest must be reported on a separate line item on the statement of changes in net assets available for benefits. The guidance requires additional disclosure of the individual plan's dollar amount of its interest in the master trust's investments by general type and clarifies that the master trust's other assets and liabilities and the individual plan's interest in each of those balances should be disclosed. For a plan with an undivided interest in the individual investments of a master trust, the guidance requires the disclosure of its percentage interest in the master trust.

Adoption of ASU 2017-06 is effective for fiscal years beginning after December 15, 2018, retrospectively for all periods, with early adoption permitted. The Plan retrospectively adopted the amendment for the Plan year ending September 30, 2019. The adoption of ASU 2017-06 did not have a material impact on the Plan's financial statements. Additional disclosures are reflected in *Note C – Interest in Master Trust* below as of September 30, 2019 and 2018.

Investment Valuation

The Plan's investments in the Emerson Electric Co. Master Trust ("Master Trust") are stated at fair value as determined based on the fair value of the underlying investments of the Master Trust. See Note D for discussion on fair value measurements.

The Plan's interest in the Master Trust is based on an allocation of the Plan's assets compared to total assets in the Master Trust. Purchases and sales of investments are recorded on a trade-date basis. Investment income is recorded as earned. Dividends are recorded on the ex-dividend date.

Investors may use various financial instruments, particularly forward foreign currency contracts, options and futures, commonly referred to as derivatives, to manage risk. No investments are engaged in market making or other speculative activities. Established practices require that derivative financial instruments relate to specific asset, liability or equity transactions, or to currency exposure.

Expenses

Investment management and certain administrative expenses are paid by the Plan. Expenses include Pension Benefit Guaranty Corporation ("PBGC") premiums and professional fees.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE C - INTEREST IN MASTER TRUST

The Plan's investments are in the Master Trust that was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each plan in the Master Trust has an undivided interest in the Master Trust. At September 30, 2019 and 2018, the Plan's interest in the net assets of the Master Trust was approximately 0.28% and 0.26%, respectively. Investment income and investment expenses relating to the Master Trust are allocated to the individual plans based on average monthly balances invested by each plan. The Master Trust's net assets and the Plan's interest in the Master Trust's assets at September 30, 2019 and 2018 are summarized as follows (**in thousands**):

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance regarding the disclosure of fair value measurements. The guidance establishes a formal hierarchy and framework for measuring fair value and provides guidance on the disclosure of fair value measurements and the reliability of valuation inputs. Under the guidance, measurement assumes the transaction to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments are valued through broker/dealer quotations or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates and volatilities. Level 3 instruments are valued using inputs that are not observable in an active market, such as company-developed future cash flow estimates, and are considered the least reliable.

The following leveling tables present the fair value measurements of the Master Trust (**in thousands**):

	2019				
	Level 1	Level 2	Level 3	NAV	Total

The primary objective for the investment of Plan assets is to secure participant retirement benefits while earning a reasonable rate of return. Plan assets are invested consistent with the provisions of the prudence and diversification rules of ERISA and with a long-term investment horizon. The Company continuously monitors the value of assets by class and routinely rebalances to remain within target allocations. The strategy for equity assets is to minimize concentrations of risk by investing primarily in companies in a diversified mix of industries worldwide, while targeting neutrality in exposure to market capitalization levels, growth versus value profile, global versus regional markets, fund types and fund managers. The approach for bonds emphasizes investment-grade corporate and government debt with maturities matching a portion of the longer-duration pension liabilities. The bonds strategy also includes a high-yield element, which is generally shorter in duration. A small portion of the U.S. Plan assets is allocated to private equity

partnerships and real assets fund investments for diversification, providing opportunities for above-market returns. Leveraging techniques are not used and the use of derivatives in any fund is limited to exchange-traded futures contracts and is inconsequential.

U.S. equities reflect companies domiciled in the United States, including multi-national companies. International equities are composed of companies domiciled in developed nations outside the United States. Emerging market equities are composed of companies domiciled in portions of Asia, Africa, Eastern Europe and Latin America.

Government bonds include investment-grade instruments issued by federal, state and local governments, primarily in the United States. Corporate bonds represent investment-grade debt of issuers primarily from the United States. High-yield bonds include non-investment-grade debt from a diverse group of developed market issuers.

Other assets include cash, interests in mixed asset funds investing in commodities, natural resources, agriculture and exchange-traded real estate funds, life insurance contracts (United States), and shares in certain general investment funds of financial institutions or insure arrangements (non-United States) that typically ensure no market losses or provide for small minimum return guarantee.

Valuations of Level 1 assets for all classes shown above are based on quoted closing market prices from the principal exchanges where the individual securities are traded. Cash is valued at cost, which approximates fair value.

Equity securities are primarily non-exchange-traded commingled or collective funds in which the underlying securities have observable prices available from active markets. Valuation is based on the net asset value ("NAV") of fund units held as derived from the fair value of the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used as a practical expedient to estimate fair value.

Debt securities categorized as Level 2 assets are generally valued based on independent broker/dealer bids or by comparison to other debt securities having similar durations, yields and credit ratings. Other Level 2 assets are valued based on an NAV of fund units held, which is derived from either broker/dealer quotations or market-observed pricing for the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used as a practical expedient to estimate fair value.

Limited partnerships are categorized as Level 3 assets based on units/shares held at year-end, which are obtained from a third-party pricing source obtained by fund manager. The limited partnerships provide for various redemption restrictions and have no significant unfunded commitments. Insurance contracts are valued by the applicable insurance company and are categorized as Level 3 investments.

A reconciliation of the change in value for Level 3 assets, primarily limited partnerships, is as follows as of September 30 (**in thousands**):

	2019	2018
Beginning balance	\$ 353,496	\$ 340,413

NOTE E - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION (PBGC) MATTERS

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE F - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary as of the beginning of the Plan year and is calculated using actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of September 30, 2018 and 2017, were as follows:

Discount rate	4.28% in 2018; 3.80% in 2017
Mortality	RP-2014 Mortality Table, projected back to 2007, using Scale MP-2014
Retirement age	Varies by age between 55 and 69, with 100% retired by age 70

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED

September 30, 2019 and 2018

The foregoing actuarial assumptions used in calculating the accumulated Plan benefits are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits under the Plan as of September 30, 2018, as calculated the Plan's actuary, is as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Participants and/or beneficiaries currently receiving benefits	\$ 4,294,847
Other vested benefits	<u>6,258,658</u>
Total vested benefits	10,553,505
Non-vested benefits	<u>30,123</u>
Total actuarial present value of accumulated Plan benefits	<u><u>\$ 10,583,628</u></u>

A reconciliation of the change in the actuarially computed value of accumulated Plan benefits for the year ended September 30, 2018, is as follows:

Actuarial present value of accumulated Plan benefits, September 30, 2017	\$ 11,103,333
Increase (decrease) during the year attributable to	
Benefits accumulated	132,015
Actuarial loss	13,305
Increase for interest due to the decrease in discount period	420,083
Benefits paid	(364,486)
Change in actuarial assumption	<u>(720,622)</u>
Net decrease	<u>(519,705)</u>
Actuarial present value of accumulated Plan benefits, September 30, 2018	<u><u>\$ 10,583,628</u></u>

NOTE G - INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated May 22, 2017, that the Plan and related Master Trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related Master Trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - RISKS AND UNCERTAINTIES

The Plan's investment in the Master Trust is exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE I - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company, the trustee, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Emerson Electric Co. Master Trust, as shown in the statements of net assets available for benefits as of September 30, 2019 and 2018.
- Plan interest in Emerson Electric Co. Master Trust net investment income, as shown in the statements of changes in net assets available for benefits for the years ended September 30, 2019 and 2018.
- Master Trust and net assets and net investment income, as of and for the years ended September 30, 2019 and 2018, as shown in Note C.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements.

NOTE J - PARTIES-IN-INTEREST

The Plan's investments are held in the Master Trust at the trustee. The trustee charges fees for the management of the account. Fees charged to the Master Trust are ordinary and customary. These fees qualify as permitted party-in-interest transactions under ERISA.

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

NOTE K - SUBSEQUENT EVENTS

On March 11, 2020, the World Health Organization declared coronavirus ("COVID-19") a global pandemic. This contagious disease, which has continued to spread, has adversely impacted workforces, economics and financial markets globally. The extent of the impact on the Plan's net assets available for benefits, its funded position and Company contributions that may be required will depend on the duration and continued spread of the outbreak including any other further developments. The recent volatility in the market has resulted in an adverse decrease in the fair value of the Plan's investments since September 30, 2019. Management has not yet determined the full financial impact of these events.

Plan management evaluated the Plan's September 30, 2019, financial statements for subsequent events through July 6, 2020, the date the financial statements were available to be issued. Plan management is not aware of any other subsequent events that would require recognition or disclosure in the accompanying financial statements.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.
Sources of data and other information	Emerson furnished participant data and claims data as of October 1, 2018. Data were reviewed for reasonableness and consistency, but not audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In addition, the data was adjusted to reflect any significant event that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Interest rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related Expenses	Assumed plan related expenses are set based on a combination of recent plan experiences and expectations for the current year.
Rates of increase in:	
Compensation	Assumed compensation increases are based on a combination of assumed future (i) inflation, (ii) merit increases and (iii) promotional increases. As part of a review of assumptions in 2017, Willis Towers Watson reviewed Emerson's historical compensation increase experience, considered future expectations of inflation, as well as merit and promotional processes, and changing demographics of the U.S. plans. Compensation rates differ by age because of observed differences in compensation increases by age.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed termination rates differ by age and service because of observed differences in termination rates by service.
Retirement	Retirement rates were based on an experience study conducted in 2017, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Retirement rates differ by age because of observed differences in retirement rates by age.
Commencement Dates	Commencement dates were based on an annual high-level review of experience, including considerations of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law,” as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

The assumed plan-related expenses added to the target normal cost were updated to reflect the amounts expected to be paid from the trust.

The mortality table used for disabled participants was updated from the table used for healthy lives to the IRS prescribed (Rev. Rul 96-7) tables for disabled participants.

None.
