Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Rio Tinto Alcan 401(k) Savings Plan for Former Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2019 and 2018 and for the year ended December 31, 2019, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of a Matter

As more fully described in Note 9, *Subsequent Events*, due to the outbreak of a novel coronavirus (COVID-19), which was declared a global pandemic by the World Health Organization in March 2020, there has been substantial volatility in world financial markets resulting in declines in the market value of investments. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2019 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Rio Tinto Alcan 401(k) Savings Plan for Former Employees

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Rio Tinto Alcan 401(k) Savings Plan for Former Employees (the “Plan” or the “Rio Tinto Alcan Plan”) provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering former employees of a wholly owned subsidiary of Rio Tinto plc (the “Parent,” “Company” or “Plan Sponsor”) with balances from the Alcan Pharmaceutical Packaging Retirement Savings Plan, Alcan Global Pharmaceutical Packaging Collectively Bargained Retirement Savings Plan, Alcan Retirement and Savings Plan for Non-Union Hourly Employees, Alcan 401(k) Savings Plan for Union Employees, AlcanCorp Employees’ Savings Plan, AlcanCorp Hourly Employees’ Savings Plan and the Alcan 401(k) Plan, which merged into the Plan. Eligibility for the Plan was governed by the requirements that were in place at the time the participant was eligible for that specific plan. Refer to the plan document for further details.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The trustees of the Plan are Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. (the “Trustees” or “Prudential”). The Trustees hold all the assets of the Plan in accordance with provisions of the agreement with the Company. Prudential is also the recordkeeper of the Plan.

Contributions: The Plan does not allow participant or Company contributions.

Participant accounts: Each participant’s account is credited with an allocation of Plan earnings (losses) and administrative expenses. Allocations are based on participant earnings (losses), or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Terminated participants are charged a quarterly fee to offset recordkeeping services.

Participant-directed options for investments: Participants have the option to allocate their account balances among various investment options. All choices vary in types of investments, rates of return and investment risk. Participants may elect to have all or part of their account balances invested in one fund, transferred to another fund, or in any combination, except as noted below. Participants also have the option to invest in funds that are asset class weighted based on the participant’s retirement date. The funds assume participants will retire upon reaching age 65.

The Plan does not permit participants to invest in the common stock of the Parent in the form of a fund with American Depositary Receipts (“ADRs”) (the “Rio Tinto ADR Stock Fund”). The Plan does not permit participants to transfer funds into the Rio Tinto ADR Stock Fund; however, participants were permitted to transfer funds out of the Rio Tinto ADR Stock Fund or to re-allocate their portfolio among all other funds with the exception of the Rio Tinto ADR Stock Fund. The Plan was amended to freeze the Rio Tinto ADR Stock Fund dividend reinvestment as of June 29, 2018.

The Plan was amended, effective August 26, 2019, to close the Rio Tinto ADR Stock Fund. At the time of the closure there were no plan assets held in the fund.

Vesting: Participant vesting is governed by the underlying vesting schedules of the plan they were participating in at the time of termination with the Parent.

Rio Tinto Alcan 401(k) Savings Plan for Former Employees

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Payment of benefits: All participants and beneficiaries are immediately eligible for distributions. The distribution will be equal to the value of the participant's vested interest in the Plan. Participants or beneficiaries will be paid in accordance with the provisions of the Plan.

Forfeitures: Forfeited non-vested accounts are used to pay administrative expenses. At December 31, 2019 and 2018, forfeited non-vested accounts were approximately \$14,000 and \$156,000, respectively. Approximately \$65,000 in forfeitures were used to pay administrative expenses for the year ended December 31, 2019.

If the distribution of a participant's account is outstanding for 181 days or more, and reasonable efforts were made to locate the participant, such participant's benefit may be forfeited. Any forfeitures from the Plan can be utilized to reinstate benefits should a participant or beneficiary make a claim for the forfeited benefit.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The financial statements of the Plan reflect transactions on the accrual basis of accounting.

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities and changes therein, at the date of the financial statements, and additions and deductions during the reporting period. Actual results could differ from those estimates.

Concentrations, risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, currency exchange rate, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits (see Subsequent Events – Note 9). The Plan's investment in the Invesco Stable Value Fund, State Street S&P 500 Index Fund and Meridian Growth Institutional Class Fund represented 23.5 percent, 28.3 percent and 9.9 percent of the Plan's total investment balance, respectively, at December 31, 2019. The Plan's investment in the Invesco Stable Value Fund and Vanguard Institutional Index I Fund represented 26.3 percent and 25.4 percent of the Plan's total investment balance, respectively, at December 31, 2018. The Rio Tinto America Inc. Savings Plan Investment Committee ("Investment Committee") monitors investment performance on a quarterly basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and/or Plan Trustees. See Note 4 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year. Realized gains and losses related to sales of investments are recorded on a trade-date basis. Expenses are recorded on the accrual basis. Capital gains/losses are included in the net appreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid by the Plan.

Administrative expenses: Certain investment advisor and other administrative fees were paid from the Plan for the year ended December 31, 2019. The Company provides accounting and other services for the Plan at no cost to the Plan. All other expenses related to administering the Plan were paid by the Company, and were excluded from these financial statements.

The Plan has several fund managers that manage the investments held by the Plan. Fees for certain investment fund management services are included as a reduction of the return earned on each fund. The fees related to transaction costs associated with the sale of Rio Tinto plc common stock ADRs were paid by the participants.

Certain fees have been withdrawn from participant accounts, and are held in an ERISA account within the Plan until they can be paid out to the service providers.

Subsequent events: The Plan Administrator has evaluated subsequent events through July 13, 2020, which is the date the financial statements were available to be issued. See Note 9.

Note 3. Investments

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Trustees have certified that the following information included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments as shown in the Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018;
- Interest and dividend income, net appreciation in the fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019;
- Investment information included in the Notes to Financial Statements;
- All investment information included in the supplemental Schedule, Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2019.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4. Fair Value Measurements

Accounting guidance provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Rio Tinto Alcan 401(k) Savings Plan for Former Employees

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds are deemed to be actively traded.

Stable value fund: collective investment trust: The stable value fund is valued at NAV per unit as a practical expedient, which is calculated based on the fair values of the underlying investments. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The underlying investments include synthetic guaranteed investment contracts ("GICs") and traditional GICs, for which contract value is used as the fair value, since contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require 12 months' notification in order to ensure that security liquidations will be carried out in an orderly manner.

Target date funds: collective investment trusts: The target date funds are valued at NAV per unit as a practical expedient, which is calculated based on the fair values of the underlying investments. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Equities and other exchange-traded instruments are valued at the last sale price or official market closing price on the primary exchange on which the instrument is traded before the NAV of the funds are calculated on a valuation date. Certain foreign equity instruments, as well as certain derivatives with equity reference obligations are valued by applying international fair value factors provided by approved pricing services. The factors seek to adjust the local closing price for movements of local markets post-closing, but prior to the time the NAVs are calculated. Investments in open-end investment companies excluding exchange-traded funds ("Underlying Funds") are valued at each Underlying Fund's NAV per share as of the report date. Fixed income instruments are valued based on prices received from approved affiliated and unaffiliated pricing vendors or third-party broker-dealers. Futures contracts are generally valued on the basis of available market quotations. In the event current market prices or quotations are not readily available or deemed unreliable by the fund trustee, the fair value of the underlying fund will be determined in good faith by the fund trustee using alternative fair valuation methods. Participant transactions (purchases and sales) may occur daily, at NAV per unit. There are no restrictions on redemption.

Rio Tinto Alcan 401(k) Savings Plan for Former Employees

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Collective trust funds: The collective trust funds are valued at the NAV per unit as a practical expedient, which is based on the fair values of the underlying investments using a market approach. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Underlying equity investments for which market quotations are readily available are reported at the last reported sale price on their principal exchange, market or system on valuation date, or official close price of certain markets. If no sales are reported for that day, investments are valued at the last published sales price, the mean between the last reported bid and asked prices, or at fair value as determined in good faith by the trustee of the fund. Underlying short-term investments are stated at amortized costs, which approximates fair value. Underlying registered investment companies or collective investment funds are valued at their respective NAV. Underlying fixed income investments are valued based on the basis of valuations furnished by independent pricing services. In the event current market prices or quotations are not readily available or deemed unreliable by the fund trustee, the fair value of the underlying fund will be determined in good faith by the fund trustee using alternative fair valuation methods. Participant transactions (purchases and sales) may occur daily, at NAV per unit. There are no restrictions on redemption.

Rio Tinto plc common stock ADRs: Rio Tinto plc common stock ADRs were valued at the closing price reported on the active market on which individual securities are traded.

The following tables set forth, by level within the fair value hierarchy, the Plan's fair value measurements at December 31, 2019 and 2018, respectively:

Assets at Fair Value as of December 31, 2019

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- (a) In accordance with ASC Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no transfers between levels.

The Plan follows guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable; unless it is probable the investment will be sold at something other than NAV.

The following table includes categories of investments within the Plan where NAV is available as a practical expedient:

	Fair Value as of December 31		Redemption Frequency	Redemption Notice Period
	2019	2018		
Stable value fund: collective investment trust	\$ 27,512,185	\$ 27,844,234	Daily	12 months**
Target date funds: collective investment trusts	16,218,791	-	Daily*	None
Collective trust funds	33,970,793	10,292,346	Daily*	None

*The fund trustee, in its sole discretion, reserves the right to value any contributions or withdrawals as of the next succeeding valuation date or another date as the fund trustee deems appropriate.

**The redemption notice period relates to Company initiated events only.

There are no unfunded commitments related to the categories of investments where NAV is available as a practical expedient.

Notes to Financial Statements

Note 5. Related Party and Parties-in-Interest Transactions

Prudential is the Plan's trustee and recordkeeper and, as such, transactions with Prudential qualify as party-in-interest transactions. The Plan paid fees to Prudential of approximately \$44,000 during the year ended December 31, 2019. Prior to August 26, 2019, the Plan invested in Rio Tinto plc common stock ADRs. The Plan held 4,369 shares of Rio Tinto plc common stock ADRs at December 31, 2018, valued at \$48.48 per share. Dividends to the Plan during December 31, 2019 were insignificant. During the year ended December 31, 2019, there were no purchases of shares by the Plan and sales of shares by the Plan totaled approximately \$253,000. These transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants would become fully vested in their accounts.

Note 7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 1, 2018, that the Plan and related trust were designed in accordance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been restated and amended since receiving the determination letter; however, the Plan Administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe the Plan and the related trust are tax-exempt.

The Plan Administrator has evaluated the Plan's tax positions and concluded the Plan had maintained its tax-exempt status and had taken no uncertain tax positions which require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax years in progress.

Note 8. Plan Audit by the Department of Labor

In May 2018, the Plan received a letter from the Department of Labor ("DOL") stating their intent to audit the Plan. The audit is currently in progress and no findings or actions directed by the DOL have been identified as of the date these financial statements were available to be issued.

Note 9. Subsequent Events

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern," which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. Nevertheless, the outbreak presents uncertainty and risk with respect to the Plan, its investment performance, and overall financial results, which cannot be estimated at this time.

Notes to Financial Statements

Note 9. Subsequent Events (Continued)

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") was passed into law. The CARES Act allows plan sponsors the option to allow minimum required distributions for 2020 to be suspended based on the election of the participant. The Plan will later be amended to include this provision. The CARES Act also expands the ability of certain 401(k) plan participants to withdraw, penalty free, funds from their vested retirement plan accounts, subject to certain participant eligibility criteria. As of the date of this report, the Company has declined to offer these expanded plan features.
