The Metalworking Group Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of The Metalworking Group, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of The Metalworking Group, Inc. (the Company) who are eighteen years old and have completed two months of service. The Plan was established effective October 1, 2000 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant and rollover contributions: Eligible employees may defer a dollar amount or percentage of compensation up to a maximum of 90% of annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Employees who do not voluntarily enroll in the Plan are automatically enrolled in the Plan at a deferral rate of 3% of annual compensation. Employees may opt out of the automatic enrollment feature.

Employer contributions: The Plan allows for employer matching and profit sharing contributions, both discretionary and non-discretionary. The employer will make matching contributions in an amount equal to 100% of the first 1% of a participant's contribution and 80% of a participant's contribution that exceeds 1% but does not exceed 6%. The employer may also choose to make an additional discretionary profit sharing contribution. There were no additional discretionary profit sharing contributions in 2019.

Participant accounts: Each participant's account is credited or charged with the participant's contribution and an allocation of: (a) employer contributions, (b) plan earnings and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting: A participant shall have a fully vested and non-forfeitable interest in the value of his or her account derived from participant contributions. Vesting in the employer contribution portion of their account is based on years of service. For employer safe harbor matching contributions, a participant is vested after two years of credited service. For all other employer contributions, a participant is 20% vested after two years of credited services and gains an incremental 20% each subsequent year, reaching full vesting at the end of six years of credited service.

Payment of benefits: A participant is entitled to a benefit, in the form of a lump-sum distribution, rollover to another qualified plan, or annual installments over a prescribed period of time, if certain events occur. These events include normal retirement at age 65, attainment of age 59½, times of hardship, death, disability or termination of employment.

Notes receivable from participants: Participants may borrow from the vested portion of their fund accounts the lesser of \$50,000 or 50% of their vested account balance. The minimum amount for any single loan is \$500. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest. Principal and interest is repaid through payroll withholding. Interest rates on participant loans ranged from 4.25% to 6.50% as of September 30, 2019 and 4.25% to 6.00% as of September 30, 2018.

Forfeited accounts: Forfeited, non-vested accounts totaled \$72,993 and \$56,782 at September 30, 2019 and 2018, respectively. No forfeitures were used to pay plan expenses or reduce employer contributions as stated in the plan document. Accumulated forfeitures will be applied to pay expenses or reduce employer contributions in 2020.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America as more explicitly described in the Financial Accounting Standards Board Accounting Standards Codification.

Contributions: Participant contributions are recognized when earned. Company matching contributions are recognized concurrently with participant contributions. These contributions are recalculated annually in order to determine any true-up adjustments.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are paid by the participants. Delinquent loans are treated as distributions based upon the terms of the plan document.

Administrative expenses: Substantially all of the Plan's administrative expenses are paid by the Plan.

Investment valuation and income recognition: The Plan's participant directed investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3. Information Prepared and Certified By Trustee

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule of assets (held at end of year) as of September 30, 2019 and 2018, and for the year ended September 30, 2019, was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedule related to the Plan's assets.

Reliance Trust Company also certified to the completeness and accuracy of \$344,124 of net depreciation in fair value of investments, \$629,738 of dividends, and \$11,025 of interest on notes receivable from participants for the year ended September 30, 2019.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2019 and 2018.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust fund: Valued at the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of September 30, 2019 and 2018, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2019			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 8,939,908	\$ -	\$ -	\$8,939,908
Investments measured at NAV ^(a)				1,207,285
Total investments, at fair value				#####

	2018			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 7,955,213	\$ -	\$ -	\$7,955,213
Investments measured at NAV ^(a)				1,504,628
Total investments, at fair value				\$9,459,841

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments; the redemption noted period is only applicable to the Plan.

Investment			2019	2018	Redemption Frequency	Redemption Notice Period
	2019	2018	Unfunded Commitment	Unfunded Commitment		
Common/collective trust funds	\$ 1,207,285	\$ 1,504,628	\$ -	\$ -	Daily	None

Note 5. Plan Termination

Although it has not expressed such an intention, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

The Metalworking Group Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6. Income Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by the record keeper, ADP, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The Plan has been amended since receiving the opinion letter, dated July 16, 2014. The Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before fiscal 2016.

Note 7. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Related-Party Transactions

Certain Plan investments are managed by ADP Retirement Services. ADP Retirement Services is the current record keeper as defined by the Plan; and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for these services amount to \$17,350 for the year ended September 30, 2019.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of September 30:

Note 10. Subsequent Event

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Company operates. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act, contains specific provisions impacting participant loans and distributions.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan's investments and Plan Sponsor. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including expected losses on investments.

The Plan has evaluated the subsequent events for potential recognition and/or disclosure through July 15, 2020, the date the financial statements were available to be issued.
