1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the ERA Industries, Inc. 401(k) Plan (Plan) is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity.

GENERAL

The Plan provides a deferral of compensation, a discretionary employer match, and a discretionary profit sharing contribution for its participants. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to guaranteed investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the guaranteed investment contract at contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at either fair value or contract value, depending on the type of investment. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the price of the investment at the date of purchase plus accrued interest.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

PAYMENT OF BENEFITS

Upon termination of service, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

2. DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering employees who have at least 1 year of service, worked 1,000 hours and are age twenty-one or older.

Contributions - Each year, participants may contribute to the Plan up to the maximum allowable under the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have obtained age 50 before the end of the prior year are eligible to make catch-up contributions. Participants are eligible for a discretionary employer match.

Participant Accounts - Each participant's account is credited with the participant's contributions and earnings less any administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting and Forfeitures - Participants are immediately vested in their contributions plus actual earnings thereon. There were no forfeitures during the year ended December 31, 2019.

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in any percentage increment into the investment options as allowed under the Plan.

Administrative Expenses - Substantially all administrative expenses are paid by the employer. These expenses include insurance, auditing, actuarial and legal expenses. The expenses that are paid from Plan assets will be shared by all participants on either a pro-rata or on an equal dollar basis.

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is involved in a contract with Standard Insurance Company (The Standard). The Standard maintains the contributions in mutual accounts. The account is credited with earnings on the underlying investments and charged for Plan withdrawals, as well as the participants' pro-rata portion of administrative expenses. The account is included in the financial statements at fair value, as reported to the Plan by The Standard. Fair value represents contributions made to the contract plus earnings, less Plan withdrawals. The guaranteed investment contract are fully-benefit responsive.

The guaranteed investment contract promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to their maturity.

4. RELATED PARTIES

The plan sponsor is ERA Industries, Inc., which is a related party. In addition, ERA Industries, Inc. is a related party with the other members of the Plan: Aphelion Precision Technologies, A&M Tool Company, and Pacific Leasing Association, LLC.

The Plans investments are managed by Reliance Trust Co.

The Standard is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

5. INVESTMENTS

FASB ASC 820 establishes a framework for measuring the fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at quoted market prices which are at the net asset value (NAV) of shares held by the Plan at year end.

5. INVESTMENTS (continued)

Investments at December 31, 2019 are as follows:

		Fair Value at December 31, 2019		
Description	12/31/2019	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	$ 725,544	$ 725,544	$ -	$ -

During 2019, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value by $26,648.

6. GUARANTEED INVESTMENT CONTRACT

The Plan holds a traditional guaranteed investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Guaranteed investment contracts at December 31, 2019 is as follows:

	2019
Guaranteed investment contract	$ 145,372

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

8. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan's custodian certified the investment activity including investment balances, investment earnings, and investment transactions for the year ending December 31, 2019.

Investments at fair value:

	2019
Mutual Funds	$ 725,544
Investments at contract value:	
Guaranteed Investment Contract	145,372
Total	$ 870,916

9. TAX STATUS

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted FASB ASC 740-10-25, *Accounting for Uncertainty in Income Taxes.* The Plan will record a liability for uncertain tax positions when it is more likely than not that a tax position would not be sustained if examined by a taxing authority. The Plan continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax laws and new authoritative rulings.

The Plan's evaluation on December 31, 2019 revealed no uncertain tax positions that would have a material impact on the financial statements. The Plan does not believe that any reasonably possible changes will occur within the next twelve months that will have a material impact on the financial statements.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2019
Net assets available for benefits per the financial statements	$ 870,916
Net assets available for benefits per Schedule H to the Form 5500	$ 870,916
Net increase in net assets available for benefits per financial statements	$ 870,916
Net increase in net assets available for benefits per Schedule H to the Form 5500	$ 870,916

12. SUBSEQUENT EVENTS

The COVID-19 outbreak in the United States has caused business disruption through mandated and voluntary closings of multiple businesses and organizations. While the disruption is expected to be temporary, this matter could negatively impact the Plan's operating results in 2020. However, the related financial impact and duration cannot be reasonably estimated at this time.

The financial statements were available to be issued on July 8, 2020, with subsequent events being evaluated through this date.
