## 1. DESCRIPTION OF PLAN

The following description of the MagTek Profit Sharing/401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering substantially all employees of MagTek (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 18 years of age are eligible to participate in the deferral and discretionary match portions of the Plan on the first day of the month immediately following the employee's date of hire. Participants are eligible to receive an allocation of the profit sharing contribution if they have 1,000 hours of eligible service and are employed on the last day of the Plan year.

### Administration

The Plan is administered by the Company.

### Contributions

Participants may elect to contribute up to 60% of eligible pre-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make matching and/or profit sharing contributions as determined each year by the Company. For the year ended December 31, 2019, the Company matched 50% of the participant's deferral, up to the first 10% of compensation deferred. For the year ended December 31, 2019, the Company made discretionary profit sharing contributions totaling $1,860,975.

### Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, allocations of the Company's profit sharing contributions, if any, and Plan earnings. Participant accounts may be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's eligible compensation, investment elections, specific participant transactions and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The Company's matching and/or profit sharing contributions plus actual earnings thereon, becomes 25% vested following two full years of service, as defined, and continues to vest at the rate of 25% for each successive year of service until 100% vested after five (5) years of service, attaining normal retirement age, death or disability.

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses. For the year ended December 31, 2019, employer contributions were reduced by $99,861 from forfeited non-vested accounts. As of December 31, 2019 and 2018, the forfeiture balance was $228 and $360, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Principal and interest is paid ratably through payroll deductions.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

### Cash and Cash Equivalents

The Plan considers highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative fees and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

### Payment of Benefits

Benefits are recorded when paid.

### Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued. See Note 10.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. FAIR VALUE MEASUREMENTS – (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

*Registered investment companies:* These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

*Self-directed brokerage accounts:* Common stocks, money market funds, options, and certificates of deposits which represent short-term interest bearing cash equivalents, are valued at the closing market price reported on the active market on which the public investment securities are traded. These investments are classified within level 1 of the valuation hierarchy.

*Interest-bearing cash*: Interest bearing cash consists of money market investments. The carrying value is believed to be representative of its fair value based on its short term nature and is classified within level 1 of the valuation hierarchy.

*Common/collective trust (Stable value collective trust fund):* The stable value fund is composed primarily of fully benefit-responsive investment contracts contained in a collective trust and are valued using the NAV of the units of the collective trust. The NAV is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Certain events would limit the ability of the Plan and the trust to transact at fair value. The plan administrator does not believe that any such events are probable of occurring.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

| Description | Total | Level 1 | Level 2 | Level 3 |
|---|---|---|---|---|
| December 31, 2019 | | | | |
| Registered investment companies | $73,783,551 | $73,783,551 | $ - | $ - |
| Self-directed brokerage accounts | 9,690,969 | 9,690,969 | - | - |
| Interest-bearing cash | 1,989,309 | 1,989,309 | - | - |
| Total assets in the fair value hierarchy | 85,463,829 | $85,463,829 | $ - | $ - |
| Investments measured at net asset value [(a)] | 5,668,973 | | | |
| Total investments at fair value | $91,132,802 | | | |
| | | | | |
| December 31, 2018 | | | | |
| Registered investment companies | $60,514,106 | $60,514,106 | $ - | $ - |
| Self-directed brokerage accounts | 7,927,325 | 7,927,325 | - | - |
| Interest-bearing cash | 2,426,243 | 2,426,243 | - | - |
| Total assets in the fair value hierarchy | 70,867,674 | $70,867,674 | $ - | $ - |
| Investments measured at net asset value [(a)] | 5,523,912 | | | |
| Total investments at fair value | $76,121,586 | | | |

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

In regards to the classification of investment options offered by the Plan, there were no reclassifications between levels 1, 2 and 3 during the year ended December 31, 2019. The nature, risks and investment objectives of the investments above, including those for which fair value is estimated using the NAV as a practical expedient, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2019, there were no unfunded commitments associated with any of these investments.

## 4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), the trustee of the Plan, has certified to the completeness and accuracy:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.
- Net appreciation in fair value of investments, interest and dividend income, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Investments and notes receivable from participants reflected on the schedule of assets (held at end of year).

## 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

## 6. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on September 8, 2015, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been restated and amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan's custodian has filed for relief with the IRS for certain administrative errors within their recordkeeping system that resulted in the Plan not processing a required minimum distribution when due. Management does not expect this to impact the Plan's tax status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Fidelity, the trustee and recordkeeper of the Plan. The Plan paid $12,794 in contract administration fees during 2019. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.

The Plan has revenue sharing agreement with Fidelity, whereby Fidelity pays revenue credits on a quarterly basis to the Plan which are used to pay plan expenses or are allocated to participants' accounts invested in those specific investment options. During the year ended December 31, 2019, the Plan received approximately $73,100 in revenue credits and approximately $300 in dividends. During 2019, approximately $71,000 of revenue sharing fees were allocated to participants and approximately $8,500 was used to pay Plan administrative expenses. The balance of the revenue sharing account as December 31, 2019 and 2018 was approximately $10,600 and $16,700, respectively.

## 8. RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

Certain classification of investments may be reported differently on the Form 5500 than in the financial statements. Self-directed brokerage accounts may be reported as a single line item in the financial statements. Net assets available for benefits remains unchanged.

## 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## 10. SUBSEQUENT EVENTS

In March 2020, the World Health Organization classified the recent coronavirus (COVID-19) outbreak as a pandemic. As a result of the spread of COVID-19, economic uncertainties have arisen which are likely to negatively impact the Plan's investments. Other financial or operational impacts could occur although it is uncertain at this time.

10. SUBSEQUENT EVENTS – (Continued)

The Plan has implemented certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which amongst other features, allow certain eligible individuals to receive coronavirus-related relief by deferring loan repayments, suspend required minimum distributions, and delay the commencement date for required minimum distributions. These features within these acts were adopted subsequent to December 31, 2019. No other subsequent events were identified through the date these financial statements were issued.

## 1. DESCRIPTION OF PLAN

The following description of the MagTek Profit Sharing/401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering substantially all employees of MagTek (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 18 years of age are eligible to participate in the deferral and discretionary match portions of the Plan on the first day of the month immediately following the employee's date of hire. Participants are eligible to receive an allocation of the profit sharing contribution if they have 1,000 hours of eligible service and are employed on the last day of the Plan year.

### Administration

The Plan is administered by the Company.

### Contributions

Participants may elect to contribute up to 60% of eligible pre-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make matching and/or profit sharing contributions as determined each year by the Company. For the year ended December 31, 2019, the Company matched 50% of the participant's deferral, up to the first 10% of compensation deferred. For the year ended December 31, 2019, the Company made discretionary profit sharing contributions totaling $1,860,975.

### Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, allocations of the Company's profit sharing contributions, if any, and Plan earnings. Participant accounts may be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's eligible compensation, investment elections, specific participant transactions and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN – (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or annual installments. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The Company's matching and/or profit sharing contributions plus actual earnings thereon, becomes 25% vested following two full years of service, as defined, and continues to vest at the rate of 25% for each successive year of service until 100% vested after five (5) years of service, attaining normal retirement age, death or disability.

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses. For the year ended December 31, 2019, employer contributions were reduced by $99,861 from forfeited non-vested accounts. As of December 31, 2019 and 2018, the forfeiture balance was $228 and $360, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Principal and interest is paid ratably through payroll deductions.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

### Cash and Cash Equivalents

The Plan considers highly liquid investments with an original maturity of three months or less to be cash and cash equivalents.

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative fees and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

### Payment of Benefits

Benefits are recorded when paid.

### Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued. See Note 10.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. FAIR VALUE MEASUREMENTS – (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

*Registered investment companies:* These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

*Self-directed brokerage accounts:* Common stocks, money market funds, options, and certificates of deposits which represent short-term interest bearing cash equivalents, are valued at the closing market price reported on the active market on which the public investment securities are traded. These investments are classified within level 1 of the valuation hierarchy.

*Interest-bearing cash*: Interest bearing cash consists of money market investments. The carrying value is believed to be representative of its fair value based on its short term nature and is classified within level 1 of the valuation hierarchy.

*Common/collective trust (Stable value collective trust fund):* The stable value fund is composed primarily of fully benefit-responsive investment contracts contained in a collective trust and are valued using the NAV of the units of the collective trust. The NAV is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Certain events would limit the ability of the Plan and the trust to transact at fair value. The plan administrator does not believe that any such events are probable of occurring.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

| Description | Total | Level 1 | Level 2 | Level 3 |
|---|---|---|---|---|
| December 31, 2019 | | | | |
| Registered investment companies | $73,783,551 | $73,783,551 | $ - | $ - |
| Self-directed brokerage accounts | 9,690,969 | 9,690,969 | - | - |
| Interest-bearing cash | 1,989,309 | 1,989,309 | - | - |
| Total assets in the fair value hierarchy | 85,463,829 | $85,463,829 | $ - | $ - |
| Investments measured at net asset value [(a)] | 5,668,973 | | | |
| Total investments at fair value | $91,132,802 | | | |
| | | | | |
| December 31, 2018 | | | | |
| Registered investment companies | $60,514,106 | $60,514,106 | $ - | $ - |
| Self-directed brokerage accounts | 7,927,325 | 7,927,325 | - | - |
| Interest-bearing cash | 2,426,243 | 2,426,243 | - | - |
| Total assets in the fair value hierarchy | 70,867,674 | $70,867,674 | $ - | $ - |
| Investments measured at net asset value [(a)] | 5,523,912 | | | |
| Total investments at fair value | $76,121,586 | | | |

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

In regards to the classification of investment options offered by the Plan, there were no reclassifications between levels 1, 2 and 3 during the year ended December 31, 2019. The nature, risks and investment objectives of the investments above, including those for which fair value is estimated using the NAV as a practical expedient, can be found in the Plan's enrollment literature. These investments can be redeemed immediately and without a redemption notification period. As of December 31, 2019, there were no unfunded commitments associated with any of these investments.

## 4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), the trustee of the Plan, has certified to the completeness and accuracy:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018.
- Net appreciation in fair value of investments, interest and dividend income, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Investments and notes receivable from participants reflected on the schedule of assets (held at end of year).

## 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

## 6. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on September 8, 2015, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been restated and amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan's custodian has filed for relief with the IRS for certain administrative errors within their recordkeeping system that resulted in the Plan not processing a required minimum distribution when due. Management does not expect this to impact the Plan's tax status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Fidelity, the trustee and recordkeeper of the Plan. The Plan paid $12,794 in contract administration fees during 2019. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company paid certain administrative expenses of the Plan. These transactions qualify as party in interest transactions for which a statutory exemption exists.

The Plan has revenue sharing agreement with Fidelity, whereby Fidelity pays revenue credits on a quarterly basis to the Plan which are used to pay plan expenses or are allocated to participants' accounts invested in those specific investment options. During the year ended December 31, 2019, the Plan received approximately $73,100 in revenue credits and approximately $300 in dividends. During 2019, approximately $71,000 of revenue sharing fees were allocated to participants and approximately $8,500 was used to pay Plan administrative expenses. The balance of the revenue sharing account as December 31, 2019 and 2018 was approximately $10,600 and $16,700, respectively.

## 8. RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

Certain classification of investments may be reported differently on the Form 5500 than in the financial statements. Self-directed brokerage accounts may be reported as a single line item in the financial statements. Net assets available for benefits remains unchanged.

## 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## 10. SUBSEQUENT EVENTS

In March 2020, the World Health Organization classified the recent coronavirus (COVID-19) outbreak as a pandemic. As a result of the spread of COVID-19, economic uncertainties have arisen which are likely to negatively impact the Plan's investments. Other financial or operational impacts could occur although it is uncertain at this time.

10. SUBSEQUENT EVENTS – (Continued)

The Plan has implemented certain provisions of the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which amongst other features, allow certain eligible individuals to receive coronavirus-related relief by deferring loan repayments, suspend required minimum distributions, and delay the commencement date for required minimum distributions. These features within these acts were adopted subsequent to December 31, 2019. No other subsequent events were identified through the date these financial statements were issued.
