Note A – Description of Plan

The following description of the Belit 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Belit and related companies (collectively, the "Company" or "Employer"). The Plan was formed and adopted on January 1, 2016. Employees who have attained the age of 21 and have completed one year of service are eligible to enter the Plan. Employees may enter the Plan semi-annually, the first day of the first or seventh month of the Plan year following the date eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective October 1, 2019, the Plan was amended and restated to modify eligibility requirements to exclude Union employees, nonresident aliens, leased employees and part-time employees expected to work less than 1,000 hours during the year. The entry date for eligible employees was also changed to the first day of the Plan year quarter coinciding with or next following the date eligibility requirements are met. Additionally, hardship distributions were added as provision of the Plan.

Administration

The Plan is administered by the Company. The Plan's assets for the year were maintained and administered by Massachusetts Mutual Life Insurance Company (the "Trustee").

Contributions

Subject to certain limitations, under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2019 and 2018 annual limits of $19,000 and $18,500, respectively, and an additional $6,000 for catch-up contributions for participants who are age 50 or older. Participants may also contribute amounts representing distributions from other qualified plans. The Plan also allows Roth contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may, in its sole discretion, make a matching and/or profit sharing contribution to the Plan. Participants are eligible to receive an allocation if they have completed at least 1,000 hours of service during the Plan year and are employed by the Company on the last day of the Plan year. The Company's matching and profit sharing contributions are invested into the various investment options of the Plan in accordance with the participants' contributions. For the year ended December 31, 2019, the Company elected to make a profit sharing contribution in the amount of approximately $90,000 which is reflected as an Employer contributions receivable.

Participant Accounts

Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Company's contributions, and an allocation of the Plan's investment earnings/losses, investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan.

Investment Options

Under the Plan, participants may currently direct investments to any of 16 investment options. Participants may change their investment elections daily through a telephone access system or online system.

Note A – Description of Plan (continued)

Vesting

Participants are fully vested in their elective contributions, as well as any rollover contributions, plus or minus any earnings or losses thereon. A participant's vested percentage in the portion of his/her account attributable to any Company contribution portion of their accounts plus actual earnings/losses thereon vest according to the schedule below:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

A participant who becomes totally disabled or dies while under the Company's employment, shall be 100% vested on such date.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral. The maximum note repayment period is five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon terms of the Plan document. Loans are considered in default as of the end of the quarter subsequent to the quarter in which the payment was due.

Distribution of Benefits

After age 65, upon termination of service due to death, disability, as a qualified reservist or retirement a participant is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, equal installments or partial withdrawals, as defined in the Plan agreement, less any applicable taxes.

If participant employment terminates for reasons other than death, disability or normal retirement, the participant will be entitled to receive only the vested percentage of his or her account balance. If the vested account balance does not exceed $5,000, a distribution will be made to the participant, regardless of whether he or she consents to receive it, as soon as administratively feasible following termination of employment. Effective October 1, 2019, hardship distributions are permitted for qualifying expenses.

Note A – Description of Plan (continued)

Forfeitures

Forfeitures occur when a participant terminates employment and has not vested in a portion of the Company's contribution amount. Forfeitures may be applied to reduce Employer contributions and Plan expenses. At December 31, 2019 and 2018, forfeited non-vested accounts totaled approximately $6,000 and $2,000 respectively. The Company utilized approximately $2,000 of forfeitures to pay for Plan expenses during the year ended December 31, 2019.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Valuation of Investments

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value as described in Note G. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the valuation policies utilizing information provided by the Trustee.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the net asset value ("NAV") provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. There were no unfunded commitments to purchase investments at December 31, 2019 and 2018. Participant-directed redemptions have no restrictions and are recorded at the end of every business day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments measured using the NAV as a practical expedient are exempt from being presented in the fair value hierarchy. As all of the Plan's investments are exempt from the fair value hierarchy, the table has been excluded.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2019 and 2018, and for the year ended December 31, 2019, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014 stating that the written form of the underlying prototype document is qualified under Section 401(a) of IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2017.

Note E – Risks and Uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note F – Party-In-Interest Transactions

Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain Plan investments and the related transactions were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid to the third-party administrator by the Plan amounted to approximately $6,000 during the year ended December 31, 2019. Fees paid to the Trustee by the Plan amounted to approximately $2,000 during the year ended December 31, 2019.

Note G – Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts, at contract value on the statement of net assets consist of the following investment(s):

Investment Type	Investment name	December 31, 2019 Contract value	December 31, 2018 Contract value
Guaranteed interest account	Fixed account	$ 6,071	$ 2,006

Note G – Fully Benefit-Responsive Investment Contracts (continued)

The Plan invests in a guaranteed interest account (Fixed account, "the Fund") provided through a group annuity contract. Under the Fund a crediting rate is established and is credited with contributions and charged for participant withdrawals and administrative expenses charged by the trustee of the Funds. The guaranteed interest account issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the Fund. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provision, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note H – Reconciliation of Financial Statements to Form 5500

The Plan holds investments in pooled separate accounts, which is how they are reported on Form 5500, Schedule D, DFE/Participating Plan Information. Plan number "000" has been used to report these investments on Schedule D because the Trustee has not filed a Form 5500 directly with the Department of Labor for these investments. As such, the Plan's interest in such investments cannot be included in Schedule H, line 1c(10). Instead, the Plan's interest in the underlying assets of the pooled separate accounts must be allocated and reported in the appropriate categories on a line-by-line basis. Therefore, these investments are reflected as mutual funds on Form 5500, Schedule H, line 1c(13) and on the supplemental schedule of assets (held at end of year), but as pooled separate accounts for financial statement purposes.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2019	2018
Net assets available for benefits per the financial statements	$1,968,732	$1,314,044
Plus: Refunds due to participants	29,599	4,646
Net assets available for benefits per the Form 5500	$1,998,331	$1,318,690

The following is a reconciliation of total deductions per the financial statements to the Form 5500 for the year ended December 31:

	2019
Total deductions per the financial statements	$ 79,202
Less: Change in refunds due to participants	(24,953)
Total deductions per the Form 5500	$ 54,249

Note I – Subsequent Events

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Subsequent events have been evaluated through July 21, 2020, which is the date the financial statements were available to be issued.

Note A – Description of Plan

The following description of the Belit 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Belit and related companies (collectively, the "Company" or "Employer"). The Plan was formed and adopted on January 1, 2016. Employees who have attained the age of 21 and have completed one year of service are eligible to enter the Plan. Employees may enter the Plan semi-annually, the first day of the first or seventh month of the Plan year following the date eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective October 1, 2019, the Plan was amended and restated to modify eligibility requirements to exclude Union employees, nonresident aliens, leased employees and part-time employees expected to work less than 1,000 hours during the year. The entry date for eligible employees was also changed to the first day of the Plan year quarter coinciding with or next following the date eligibility requirements are met. Additionally, hardship distributions were added as provision of the Plan.

Administration

The Plan is administered by the Company. The Plan's assets for the year were maintained and administered by Massachusetts Mutual Life Insurance Company (the "Trustee").

Contributions

Subject to certain limitations, under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2019 and 2018 annual limits of $19,000 and $18,500, respectively, and an additional $6,000 for catch-up contributions for participants who are age 50 or older. Participants may also contribute amounts representing distributions from other qualified plans. The Plan also allows Roth contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may, in its sole discretion, make a matching and/or profit sharing contribution to the Plan. Participants are eligible to receive an allocation if they have completed at least 1,000 hours of service during the Plan year and are employed by the Company on the last day of the Plan year. The Company's matching and profit sharing contributions are invested into the various investment options of the Plan in accordance with the participants' contributions. For the year ended December 31, 2019, the Company elected to make a profit sharing contribution in the amount of approximately $90,000 which is reflected as an Employer contributions receivable.

Participant Accounts

Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Company's contributions, and an allocation of the Plan's investment earnings/losses, investment fees and any administrative expenses paid out of the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan.

Investment Options

Under the Plan, participants may currently direct investments to any of 16 investment options. Participants may change their investment elections daily through a telephone access system or online system.

Note A – Description of Plan (continued)

Vesting

Participants are fully vested in their elective contributions, as well as any rollover contributions, plus or minus any earnings or losses thereon. A participant's vested percentage in the portion of his/her account attributable to any Company contribution portion of their accounts plus actual earnings/losses thereon vest according to the schedule below:

Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

A participant who becomes totally disabled or dies while under the Company's employment, shall be 100% vested on such date.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account, or other acceptable collateral. The maximum note repayment period is five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon terms of the Plan document. Loans are considered in default as of the end of the quarter subsequent to the quarter in which the payment was due.

Distribution of Benefits

After age 65, upon termination of service due to death, disability, as a qualified reservist or retirement a participant is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, equal installments or partial withdrawals, as defined in the Plan agreement, less any applicable taxes.

If participant employment terminates for reasons other than death, disability or normal retirement, the participant will be entitled to receive only the vested percentage of his or her account balance. If the vested account balance does not exceed $5,000, a distribution will be made to the participant, regardless of whether he or she consents to receive it, as soon as administratively feasible following termination of employment. Effective October 1, 2019, hardship distributions are permitted for qualifying expenses.

Note A – Description of Plan (continued)

Forfeitures

Forfeitures occur when a participant terminates employment and has not vested in a portion of the Company's contribution amount. Forfeitures may be applied to reduce Employer contributions and Plan expenses. At December 31, 2019 and 2018, forfeited non-vested accounts totaled approximately $6,000 and $2,000 respectively. The Company utilized approximately $2,000 of forfeitures to pay for Plan expenses during the year ended December 31, 2019.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Valuation of Investments

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value as described in Note G. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the valuation policies utilizing information provided by the Trustee.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note B – Summary of Significant Accounting Policies (continued)

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the net asset value ("NAV") provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. There were no unfunded commitments to purchase investments at December 31, 2019 and 2018. Participant-directed redemptions have no restrictions and are recorded at the end of every business day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments measured using the NAV as a practical expedient are exempt from being presented in the fair value hierarchy. As all of the Plan's investments are exempt from the fair value hierarchy, the table has been excluded.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2019 and 2018, and for the year ended December 31, 2019, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014 stating that the written form of the underlying prototype document is qualified under Section 401(a) of IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2017.

Note E – Risks and Uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note F – Party-In-Interest Transactions

Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain Plan investments and the related transactions were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid to the third-party administrator by the Plan amounted to approximately $6,000 during the year ended December 31, 2019. Fees paid to the Trustee by the Plan amounted to approximately $2,000 during the year ended December 31, 2019.

Note G – Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts, at contract value on the statement of net assets consist of the following investment(s):

Investment Type	Investment name	December 31, 2019 Contract value	December 31, 2018 Contract value
Guaranteed interest account	Fixed account	$ 6,071	$ 2,006

Note G – Fully Benefit-Responsive Investment Contracts (continued)

The Plan invests in a guaranteed interest account (Fixed account, "the Fund") provided through a group annuity contract. Under the Fund a crediting rate is established and is credited with contributions and charged for participant withdrawals and administrative expenses charged by the trustee of the Funds. The guaranteed interest account issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the Fund. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provision, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note H – Reconciliation of Financial Statements to Form 5500

The Plan holds investments in pooled separate accounts, which is how they are reported on Form 5500, Schedule D, DFE/Participating Plan Information. Plan number "000" has been used to report these investments on Schedule D because the Trustee has not filed a Form 5500 directly with the Department of Labor for these investments. As such, the Plan's interest in such investments cannot be included in Schedule H, line 1c(10). Instead, the Plan's interest in the underlying assets of the pooled separate accounts must be allocated and reported in the appropriate categories on a line-by-line basis. Therefore, these investments are reflected as mutual funds on Form 5500, Schedule H, line 1c(13) and on the supplemental schedule of assets (held at end of year), but as pooled separate accounts for financial statement purposes.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2019	2018
Net assets available for benefits per the financial statements	$1,968,732	$1,314,044
Plus: Refunds due to participants	29,599	4,646
Net assets available for benefits per the Form 5500	$1,998,331	$1,318,690

The following is a reconciliation of total deductions per the financial statements to the Form 5500 for the year ended December 31:

	2019
Total deductions per the financial statements	$ 79,202
Less: Change in refunds due to participants	(24,953)
Total deductions per the Form 5500	$ 54,249

Note I – Subsequent Events

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Subsequent events have been evaluated through July 21, 2020, which is the date the financial statements were available to be issued.
