Olney Bancshares of Texas, Inc. Employees 401(k) Retirement Plan and Trust

Notes to Financial Statements

December 31, 2019 and 2018

Note 1: Description of the Plan

The following description of Olney Bancshares of Texas, Inc. Employees 401(k) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Olney Bancshares of Texas, Inc. (the Company) and its subsidiaries for the benefit of its employees who have completed at least six months of service and are at least 18 years of age. The entry dates to the Plan are January 1 and July 1 of the plan year. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Great-West Life & Annuity Insurance Company (Great-West Insurance) and Great-West Trust Company, LLC (Great-West Trust), under the brand name Empower Retirement, serve as record-keepers and custodians of the Plan.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to the maximum allowable contribution defined by the Internal Revenue Code (IRC). Employee rollovers are also permitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Company contributions are discretionary as determined by the Company's Board of Directors. Company matching contributions are discretionary, stated as a percentage of employee compensation determined by the Company's Board of Directors. Contributions are subject to certain limitations. Forfeitures are used to reduce company contributions.

Participant Investment Account Options

Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. The vesting schedule is a graded six-year schedule, 20% after two years of

vesting service and an additional 20% for each year thereafter. The nonvested balance is forfeited upon termination of service. Participants are 100% vested upon disability or death.

Payment of Benefits

Upon termination of service due to death, permanent disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of his or her account or a joint and survivor annuity. Upon termination for any other reason, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service distributions are allowed for participants reaching age 59½ or for qualified hardship distributions.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $43,018 and $38,955, respectively. These accounts will be used to pay plan expenses and reduce future employer contributions. Also, in 2019, employer contributions were reduced by $26,000 from forfeited nonvested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value of shares held by the Plan at year-end.

Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals, and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2019 excess contributions to the applicable participants before March 15, 2020.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Note 3: Certification of Plan Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Insurance and Great-West Trust, the custodians of the Plan, have certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018
- Investment income (loss) as shown in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2019

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

Note 4: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are shares of mutual funds managed by subsidiaries of the Plan's record-keepers. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits. The plan sponsor pays directly any other fees related to the Plan's operations.

Certain plan investments are investment contracts managed by subsidiaries of the Plan's record-keepers. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in interest and dividends in the accompanying statements of changes in net assets available for benefits. The Plan paid $31,801 and $19,302 of record-keeping fees to Great-West Insurance during 2019 and 2018, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets

Level 3 Unobservable inputs supported by little or no market activity and significant to the fair value of the assets

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
2019				
Mutual funds	$ 29,787,363	$ 29,787,363	$ -	$ -
2018				
Mutual funds	$ 23,116,043	$ 23,116,043	$ -	$ -

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2019 and 2018. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 investments include mutual funds. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics, or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Plan did not have any Level 2 or Level 3 investments for the years ended December 31, 2019 and 2018.

Note 6: Investment Contract with Insurance Company

The Plan holds a fully benefit-responsive investment contract with Great-West Insurance maintaining the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive; therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by Great-West Insurance, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The guaranteed investment contract only holds traditional investment contracts.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 8: Tax Status

The Plan operates under a nonstandardized profit-sharing plan sponsored by Great-West Insurance. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to Form 5500:

	2019	2018
Net assets available for benefits per the financial statements	$ 34,407,525	$ 28,236,338

Excess contributions payable	14,778	-
Net assets available for benefits per Form 5500	$ 33,614,130	$ 26,827,897

The following is a reconciliation of employer contributions per the financial statements for the years ended December 31 to Form 5500:

	2019	2018

Excess contributions payable not included on Form 5500, current year	14,778	-
Total contributions per Form 5500	$ 3,005,795	$ 3,110,243

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through July 24, 2020, which is the date the financial statements were available to be issued.

Late in the first quarter of 2020, the World Health Organization declared the novel strain of coronavirus disease 2019 (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide, which contributed to a massive economic slowdown and volatility in the financial markets. While it cannot be predicted, it is possible that the continued spread of COVID-19 and efforts to contain the virus, such as quarantines, closures, and reduced operations of businesses, will have a continued adverse impact on financial markets, which could further impact the market price of plan assets.

In March 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was signed into law in response to the COVID-19 pandemic, and the Plan opted into the CARES Act 401(k) penalty-free withdrawals of up to $100,000 or 100% of the participants' account balance, whichever is less.
