Emtec Global Services, LLC 401(K) Profit Sharing Plan
Notes to Financial Statements
Years ended December 31, 2019 and 2018

1. Description of Plan

The following description of the Emtec Global Services, LLC 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Emtec Global Services, LLC (the Company) who are age twenty or older. Effective October 1, 2008, any “temporary W-2 employee” who has commenced employment after July 1, 2008, has completed one year of service and has attained age 20 shall be eligible to participate in the plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan may make discretionary matching contributions. In 2019, the Plan contributed 25% of participant deferrals up to 6% of compensation deferred by participant. In addition, the Plan may make a discretionary profit sharing contribution at the end of the Plan year. Only eligible employees who have completed 1,000 hours of service and are employed on December 31st will be eligible to receive an allocation. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the matching and/or profit sharing contribution's and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation or contributions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 40% vested after two years of service and an additional 20% each year thereafter. A participant is 100% vested after five years of service.

Participant Loans

Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest.

Participants may borrow from their fund accounts a maximum of $50,000 or 50% of their vested account balance, whichever is less. Loan terms range from 1 to 5 years. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.5%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. The loans are measured at unpaid principle balance plus accrued but unpaid interest.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may also receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeitures attributable to employer contributions are retained in the Plan and will be first used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions payable under the plan. As of December 31, 2019 and 2018, respectively, the Plan had $59,260 and $55,459 net forfeitures available for reduction of future employer's contributions. During the year ended December 31, 2019, the Plan received additional forfeitures and interest of $44,126, and $40,325 was used to pay plan administration fees and offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Value Accounting

The Plan adopted certain required provisions of the Fair Value Measurement topic of the FASB Accounting Standards Codification. These provisions define fair value, specify a hierarchy of valuation techniques based on the nature of the inputs used to develop the fair value measures, and expand related disclosure requirements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The three level hierarchy for the fair value measurements are based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Many, but not all, of the Company's financial instruments are carried at fair value. The adoption of these provisions did not have a significant impact on these financial statements. The expanded disclosure requirements are included in Note 3.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold during the year.

Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net assets available for benefits as administrative expenses. The employer absorbs recordkeeping, accounting, legal and trustee service fees.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain reclassifications have been made to prior year's balances in order to conform to current year presentation.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of financial position. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: a. Quoted prices for similar assets or liabilities in active markets b. Quoted prices for identical or similar assets or liabilities in inactive markets c. Inputs other than quoted prices that are observable for the asset or liability d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value:

The fair values of registered investment companies and money markets are based upon quoted prices when available. At December 31, 2019 and 2018, all such investments were redeemable at the measurement date.

Common / Collective Trusts and shares of registered investment companies are valued at the net asset value (NAV) of shares held by the plan at year end.

The following table sets forth by level, within the fair value hierarchy, the plan's assets carried at fair value measured on a recurring basis as of December 31, 2019 and 2018:

Fair Value Measurements at 2019 Reporting Date Using:

	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Unobservable Inputs (Level III)
Shares of registered investment companies	$ 29,588,260	$ 29,588,260	-	-
Total assets in the fair value hierarchy	$ 29,588,260	$ 29,588,260	$ -	$ -
Investments Valued at Net Asset Value [(a)]	2,390,943			
Total Investments	$ 31,979,203			

During 2019, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $4,723,454.

Fair Value Measurements at 2018 Reporting Date Using:

	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level I)	Significant Other Observable Inputs (Level II)	Unobservable Inputs (Level III)
Shares of registered investment companies	$ 26,017,387	$ 26,017,387	-	-
Total assets in the fair value hierarchy	$ 26,017,387	$ 26,017,387	$ -	$ -
Investments Valued at Net Asset Value [(a)]	2,329,215			
Total Investments	$ 28,346,602			

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value mounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Investments, at fair value

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively.

December 31, 2019	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Capital Preservation Fund	$2,390,943	N/A	Daily	None

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Capital Preservation Fund	$2,329,215	N/A	Daily	None

Investment objectives

Capital Preservation Fund

The objective of the fund is stability of principal and high current income.

5. Concentrations

The following table presents the fair values of investments in mutual funds that represent 10% or more of the Plan's net assets at each year end:

	2019	2018
Clearbridge Large Cap Growth	$3,338,165	N/A
Blackrock S&P 500 Index Instl	$3,218,805	N/A

6. Excess Contributions

The Plan passed discrimination tests for 2019 and 2018; as a result there were no excess contribution distributions made to participants related to the year ended December 31, 2019 and 2018.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

8. Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2015.

10. Information Prepared and Certified by the Trustee(s)
