1. Description of Plan

The following description of the Quincy Farm Supply Co. Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company. Employees are eligible to participate in the salary reduction arrangement, matching contributions, and non-elective contributions as of the first day of the first month or seventh month of the plan year coincident with or next following the date the employee attains age 21 and has completed one year of service. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of annual compensation, not to exceed $19,000 and $18,500, respectively, for the Plan years ended December 31, 2019 and 2018. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The maximum amount of catch-up contributions is $6,500 and $6,000, respectively, for the years ended December 31, 2019 and 2018. During the year ended December 31, 2018, the plan was amended to also allow after-tax Roth deferrals. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company's matching contribution is equal to 50% of each participant's salary reduction for salary deferrals not in excess of 6% of a participant's compensation. The Company may also make a discretionary matching or non-elective contribution to eligible participants. For the plan years ended December 31, 2019 and 2018, Quincy Farm Supply Co. elected not to make discretionary matching or non-elective contributions. The Company contribution is invested as directed by the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's contributions, as well as allocations of Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings on the contributions. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is as follows:

Years of service	Non-forfeitable percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may not apply to the Company for a loan from the Plan.

1. **Description of Plan** (continued)

Payment of Benefits
On termination of service, death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts
Forfeitures of the Company's contributions will reduce future contributions of the same type or be used to pay plan expenses. Forfeited non-vested accounts totaled $738 and $6,279 at December 31, 2019 and 2018, respectively. Forfeitures were used to pay plan expenses of $6,300 and $-0- for the years ending December 31, 2019 and 2018, respectively.

Plan Administration
The Plan is governed by the Trustees, which is comprised of members of the Company's management. Capital Bank and Trust Company served as the asset custodian and record keeper for the years ended December 31, 2019 and 2018.

2. **Summary of Significant Accounting Policies**

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note (4) for discussion of fair value measurements. Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative costs paid directly from the assets of the Plan were $16,955 and $11,393 for the years ending December 31, 2019 and 2018, respectively.

Subsequent Events
The Plan has evaluated subsequent events through July 22, 2020, the date the financial statements were available to be issued. The COVID-19 pandemic during 2020 has significantly disrupted financial markets, economies and other events subsequent to December 31, 2019. As noted in Note 7, investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

3. Summary of Financial Data Certified by the Plan Custodian

The Plan received from Capital Bank and Trust Company certification of financial information and data as being complete and accurate in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The data certified includes financial information reflected in the statements of net assets available for benefits at December 31, 2019 and 2018 and the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018 as summarized below:

Statements of Net Assets Available for Benefits		
	2019	2018
Investments at Fair Value		
Mutual funds	$ 3,636,246	$ 2,649,839

Statements of Changes in Net Assets Available for Benefits		
	2019	2018
Source of Net Assets		
Net appreciation (depreciation) in fair value of investments	$ 466,657	$ (272,671)
Dividend income	143,686	129,995

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

4. **Fair Value Measurements** (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Level 1	Level 2	Level 3	Total
December 31, 2019				
Mutual funds	$ 3,636,246	$ -	$ -	$ 3,636,246
December 31, 2018				
Mutual funds	$ 2,649,839	$ -	$ -	$ 2,649,839

5. **Plan Termination**

Although it has not expressed the intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

6. **Tax Status**

The Plan was amended and restated using a Digital Retirement Solutions, Inc. Prototype Plan effective January 1, 2011. Digital Retirement Solutions, Inc. received an opinion letter on the prototype plan dated March 31, 2014. Although the Plan has been amended since receiving the letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and that the related trust is tax-exempt.

7. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. **Related-Party Transactions and Party in Interest Transactions**

During 2018 and 2019, certain Plan investments were managed by Capital Bank and Trust Company, which are related to the custodians of the Plan. Therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the custodian of $50 and $56, respectively, for the years ending December 31, 2019 and 2018.
