SOUTHEAST UNLOADING LLC, 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan

The following description of the Southeast Unloading, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description and the adoption agreement for a more complete description of the Plan's provisions.

General

The Plan, originally effective August 1, 2008, is a defined contribution plan covering all employees of Southeast Unloading, LLC (the Company) and participating employers who have completed 120 days of service and are age 18 or older. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the provisions of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2019, the Plan was amended to modify the hardship distribution provisions of the Plan as a result of the Bipartisan Budget Act of 2018. The amendment allows hardships to be taken from additional contribution sources, removes the six-month suspension of employee contributions to the Plan after taking a hardship and adds certain qualifying events under which a hardship distribution may be requested. The amendment did not have a material impact on the Plan.

Contributions

Employees participating in the Plan may elect to contribute either pre-tax or Roth deferrals up to the maximum of $19,000 allowed under the Internal Revenue Service limitation for calendar year 2019. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $6,000 to the Plan in 2019. Participants may also contribute amounts representing distributions from other qualified retirement plans or individual retirement accounts. Upon completion of eligibility requirements, the Plan provides for an automatic participant deferral of 4% of the participant's compensation, as defined, unless the participant makes a contrary election. The deferral percentage will automatically increase by 1% on January 1 of each Plan year, up to a maximum of 10%.

The Company may elect to make a discretionary contribution each year to the Plan. An employee must be an active participant as of the last day of the Plan year in order to be eligible to receive an allocation of the Company's contribution. The Company did not elect to make a discretionary contribution during 2019.

Participant Accounts

Participant's accounts are completely self-directed. Each participant's account is credited with the Participant's contributions and allocations of the Company's discretionary contributions and Plan earnings and charged with benefit payments and an allocation of the Plan's losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their accounts into various options offered by the Plan. Participants may change their investments periodically, as permitted by the Plan sponsor.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vested rights to Company contributions accrue at a rate of 20% per year beginning with the participant's first year of service with full vesting accruing after five years of service. Upon attaining normal or early retirement age, death or permanent disability, Company contributions vest immediately.

Payment of Benefits
Upon termination of employment, retirement, disability, or death, if the participant's vested account balance does not exceed $5,000, the participant may elect to receive the vested account balance in a single lump-sum payment. If the vested account balance is more than $1,000 and the participant does not make an election, the Plan automatically will roll over the distribution to an IRA. If the vested balance exceeds $5,000, the participant may elect to receive a distribution in a single lump-sum payment or in a series of installments over time. Hardship withdrawals may be requested from employee deferrals and are paid in one lump-sum upon approval. In-service distributions from a participant's vested account balance may be made provided the participant has reached the age of 59½. One such distribution can be made in any 12 month period. Participants that reach the age of 70 ½ are required to take a minimum distribution from their account.

Forfeited Accounts
Any non-vested amounts remaining after the distribution of a terminated participant's account balance are forfeited. Forfeitures are first used to pay Plan expenses and any remaining forfeitures are used to reduce Company contributions. No forfeitures were used to pay Plan expenses or reduce Company contributions during the year ended December 31, 2019. There were no unallocated forfeiture accounts at December 31, 2019 and 2018.

Note 2 - <u>Summary of Significant Accounting Policies</u>

Basis of Accounting
The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements, in accordance with generally accepted account principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits
Benefits are recorded when paid.

Expenses
Expenses of maintaining the Plan are paid directly by the Company, and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Company has evaluated events and transactions occurring subsequent to December 31, 2019 as of July 29, 2020, which is the date the financial statements were available to be issued.

Effective January 1, 2020, the Plan was amended to increase the initial automatic participant deferral from 4% to 6%, add a discretionary employer match as determined each year by the Company, and to amend the vesting schedule, whereby vested rights to Company contributions will accrue at a rate of 20% per year beginning with the participant's second year of service with full vesting accruing after six years of service.

In March 2020, the World Health Organization classified the novel coronavirus (COVID-19) as a pandemic. The effects of the COVID-19 pandemic have caused economic disruption and volatility in financial markets which have resulted in significant fluctuations in the values of the investments held by the Plan. The extent and duration of these economic and market conditions and their impact on the Plan's investment securities and results of operations cannot be predicted at this time.

Effective April 13, 2020, the Plan was amended to modify certain distribution provisions as a result of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). The amendment allows qualified participants, as defined, to take an unlimited number of distributions from the participants' vested account funds up to an aggregate amount of $100,000, prior to December 31, 2020. These distributions will not be subject to certain federal tax withholdings or penalties for early withdrawal. At any time during the three year period following such distributions, the participant is permitted to repay the distribution to the Plan. The amendment also temporarily waives required minimum distribution rules for distributions required for the 2020 calendar year.

No other material events have occurred since December 31, 2019, that require recognition or disclosure in the financial statements.

Note 3 - Fair Value Measurements

The Plan measures and reports its financial assets and liabilities using a three-tier hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2—Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2019 and 2018.

Pooled separate accounts—The Plan holds units of participation in the separate accounts, which are valued daily at their accumulation unit value. Accumulation unit value is determined based on the net asset values of the underlying funds, which are generally quoted in active markets, and the contract's separate account charges. The pooled separate accounts allow one transfer per 30 day period. Contributions into the investment option are not impacted. There are no unfunded commitments on these investments.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

		Fair Value Measurements at Reporting Date Using		
December 31, 2019	**Fair Value**	**Level 1**	**Level 2**	**Level 3**
Pooled Separate Accounts	$ 869,574	$ -	$ 869,574	$ -
Total Investments Measured at Fair Value	$ 869,574	$ -	$ 869,574	$ -

		Fair Value Measurements at Reporting Date Using		
December 31, 2018	**Fair Value**	**Level 1**	**Level 2**	**Level 3**
Pooled Separate Accounts	$ 677,324	$ -	$ 677,324	$ -
Total Investments Measured at Fair Value	$ 677,324	$ -	$ 677,324	$ -

There were no transfers between levels of the fair value hierarchy for the years ended December 31, 2019 and 2018.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 5 - Tax Status

The prototype Plan sponsor has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the prototype plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Party-in-Interest Transactions

The Plan's investments are pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan. Therefore, transactions in these investments qualify as party-in-interest transactions. Pooled separate accounts managed by Principal Life Insurance Company totaled $869,574 and $677,324 at December 31, 2019 and 2018, respectively.

Note 7 - Information Certified by the Plan's Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditor not to perform any auditing procedures with respect to the information certified by Principal Life Insurance Company, the custodian, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year). Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2019 and 2018 and net appreciation in fair value of investments for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

Note 8 - Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
