Note 1. Description of Plan

The following description of the DRW Trading Group Profit Sharing and Salary Deferral Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of DRW Holdings, LLC, DRW Associates LLC, Convexity Properties LLC, DRW Texas LLC, and DRW Singapore Pte. Ltd. (collectively, the Company) who are age 21 or older. Eligible employees are able to begin participating in the Plan the first day of the month following the later of their date of hire or attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 75 percent of pre-tax or after-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Company may contribute a discretionary semi-annual matching contribution to active participants who are employed on the last day of the semi-annual period (June 30 or December 31) except that if such date falls on a weekend or a holiday shall be employed on the last business day immediately preceding the semi-annual match period (June 30 or December 31) and have made salary deferral contributions during the plan year. For 2019, the Company elected to match 50 percent of the first 8 percent that a participant contributes to the Plan with that match being a maximum of $8,000 annually. Salary deferral contributions designated as catch-up contributions are not matched. The Company may change the matching formula from year to year, and may declare a zero match for any plan year. The Company may also make discretionary profit sharing contributions to participants who were active participants in the Plan at the end of the plan year based on the Company's profitability. No profit sharing contributions were made to the Plan for the year ended December 31, 2019. The amount of the participant's pre-tax and/or after-tax contributions can be limited to ensure that the Plan satisfies the requirements of federal tax law or to honor deductions that a participant has elected (such as health insurance premiums) or that are required under law (such as wage garnishments).

Participant accounts: Each participant's account is credited with the participant's contribution, allocations of Company discretionary profit sharing and matching contributions, if any, and plan earnings, and charged with an allocation of any applicable administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment: Upon enrollment in the Plan, a participant may direct the investment of their contributions, and Company discretionary matching and profit sharing contributions, if any, in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant who earns at least one hour of service on or after January 1, 2011, is 25 percent vested after one year of credited service, 50 percent vested after two years of credited service, 75 percent vested after three years of credited service, and fully vested after four years of credited service. Participants who do not earn at least one hour of service on or after January 1, 2011, are 20 percent vested after two years of credited service, 40 percent vested after three years of credited service, 60 percent vested after four years of credited service, 80 percent vested after five years of credited service, and fully vested after six years of credited service. Participants who attain normal retirement age of 65, or who terminate employment due to death or disability, are 100 percent vested in their account balances.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1 percent, set at time of withdrawal. Participants are charged a one-time fixed fee at the time the loan is originated and may be charged an annual administration fee as described in the plan document. Interest rates on participant loans outstanding at December 31, 2019, range from 4.25 to 6.50 percent. Principal and interest are paid ratably through semi-monthly payroll deductions or through a personal check if the participant transfers to a Commonly Controlled Entity, as defined in the plan agreement, that has not adopted the Plan.

Payment of benefits: On termination of service due to death, disability, attainment of age 59½, proven financial hardship or retirement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in their account.

Forfeited accounts: At December 31, 2019 and 2018, forfeited nonvested accounts totaled $28,994 and $50,213, respectively. These accounts may be used to reduce the Company's discretionary matching contribution in future periods and/or, at the discretion of the Plan Committee, to pay reasonable administrative expenses of the Plan. As of December 31, 2019, the Company contribution receivable of $1,063,107 has been reduced by the forfeited nonvested account total of $28,994. During 2019, the Company's discretionary matching contributions were reduced by $78,823 from forfeited nonvested accounts. No administrative expenses were paid out of forfeited nonvested accounts for the year ended December 31, 2019.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Accounting policies: The Plan follows Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (the FASB), to ensure consistent reporting of financial condition.

Use of estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

confidential

Note 2. Summary of Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Defaulted loans are treated as distributions based upon the terms of the plan document. No loans were deemed uncollectible as of December 31, 2019 or 2018.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses of the Plan are paid by the Plan as provided in the plan document. Certain other administrative expenses are paid by the Company on behalf of the Plan, without reimbursement.

Recent accounting pronouncements: In August 2018, the FASB issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.

Note 3. Information Certified or Provided by Great-West Trust Company, LLC

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by Great-West Trust Company, LLC, the trustee, and furnished to the Plan Administrator. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 as compared to 2018.

Shares of registered investment companies and money market funds: Valued at the daily closing price as reported by the fund. Registered investment companies and money market funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded and have readily determinable fair values.

Notes 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2019 and 2018:

	December 31, 2019			
	(Level 1)	(Level 2)	(Level 3)	Total
Shares of registered investment companies	$ 119,657,290	$ -	$ -	$ 119,657,290
Money market funds	4,655,080	-	-	4,655,080
	$ 124,312,370	$ -	$ -	$ 124,312,370

	December 31, 2018			
	(Level 1)	(Level 2)	(Level 3)	Total
Shares of registered investment companies	$ 89,191,345	$ -	$ -	$ 89,191,345
Money market funds	3,416,569	-	-	3,416,569
	$ 92,607,914	$ -	$ -	$ 92,607,914

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2019, there were no transfers in or out of Levels 1, 2, or 3.

Note 5. Related-Party Transactions

Certain employees of the Company provide administrative services to the Plan and neither the Company nor the employees receive reimbursement from the Plan.

The plan recordkeeper may receive revenue sharing payments from mutual funds in which the plan assets are invested. The administrative services agreement between the Plan and its recordkeeper provides that to the extent revenue sharing payments received by the recordkeeper exceed administrative fees charged to the Plan by the recordkeeper, the excess will be credited to the Plan and can be used to pay future other administrative expenses of the Plan or be allocated to participants at the discretion of the Company. Revenue sharing payments in the amount of $36,951 in the statement of changes in net assets available for benefits were credited to the Plan for the year ended December 31, 2019.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 7. Tax Status

Effective February 1, 2018, the Plan adopted a non-standardized form of a prototype plan sponsored by Great-West Trust Company. The prototype plan provider has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2016.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2019	2018
Net assets available for benefits per the financial statements	$ 125,990,616	$ 94,046,753
Differences in:		
Investments	(471,930)	(410,030)
Receivables - notes receivable from participants	471,930	410,030
Net assets available for benefits per Form 5500	$ 125,990,616	$ 94,046,753

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 31, 2020, the date the financial statements were available to be issued.

Effective January 1, 2020, DRW Singapore Pte. Ltd. became a participating employer to the plan.

The recent global outbreak of COVID-19 has disrupted economic markets and the impact, duration and spread of the virus is uncertain at this time. COVID-19 may or may not have an impact on the operation and financial performance of the Plan and there is no estimate, positive or negative, of its impact on the financial statements.

Note 10. Subsequent Events (Continued)

The Plan has implemented certain requirements by the Coronavirus Aid, Relief and Economic Security Act (the CARES ACT) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related withdrawals, relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.
