Arch Telecom Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Arch Telecom Employee Stock Ownership Plan, which comprise the statements of net assets (deficit) available for benefits as of December 31, 2019 and 2018, the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the net assets (deficit) available for benefits of the Arch Telecom Employee Stock Ownership Plan as of December 31, 2019 and 2018, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 – Plan Description and Basis of Presentation

The following description of the Arch Telecom Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Arch Legacy Ventures, Inc. and its subsidiary, Arch Telecom, Inc., (collectively, Company) established the Plan effective as of January 1, 2016. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of ERISA. The Plan is administered by the ESOP Committee whose members are appointed by the Company's Board of Directors. An independent third-party is the Plan's Trustee.

On February 21, 2017, the Plan purchased 276,000 shares of the Company's stock for $25,944,000 using the proceeds of a borrowing issued by the Company (see Note 5) and holds the stock in a trust established under the Plan. The stock was purchased at a price of $94 per share.

The borrowing is collateralized by the unallocated shares of stock of the Company. The Company as the lender has no rights against shares of stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2019 and 2018, and for the year ended December 31, 2019, present separately the assets and liabilities and changes therein pertaining to:

a) the accounts of employees with vested rights in allocated stock (allocated), and
b) stock not yet allocated to employees (unallocated).

As further discussed in Note 5, the Plan had a combined contribution and dividend receivable of $4,075,520 at December 31, 2019. In the period in which the contribution is paid and the Plan utilizes the funds for debt service, an appropriate number of shares will be released and allocated for financial reporting purposes. The Plan previously had a combined contribution and dividend receivable of $4,075,520 at December 31, 2018. These funds were paid to the ESOP Trust during the year ended December 31, 2019 and utilized for debt service. As such, 38,050 shares were allocated as related to this note payment.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they have attained the age of 21 years and worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not actively employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year.

Note 1 – Plan Description and Basis of Presentation (Continued)

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional contributions may be made at the Company's discretion. Employee contributions are not permitted.

Dividends

Dividends are allocated to participant accounts as of the last day of the Plan year with an allocation of cash and/or shares of the Company's stock.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump-sum or in five annual installments in either cash or stock in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in the form of cash or, if a participant elects, in the form of Company stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During the Plan year ended December 31, 2019, the Plan repurchased from participants 17 shares at prices determined by the independent appraisal.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company paid the administrative expenses for the Plan for the year ended December 31, 2019.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Note 1 – Plan Description and Basis of Presentation (Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as the note payment is made to release shares with an allocation of cash and/or shares of the Company's stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's points, relative to total eligible points. Each eligible participant will receive five points for each year of service (1,000 hours) and one point for each full $1,000 of eligible compensation received by the participant during the Plan year, as defined in the Plan agreement. Plan earnings are allocated to each participant's account based in the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Vesting begins at 20 percent after two years of service with participants becoming fully vested after six years of service.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the participant is able to direct the investment of 50 percent of their account balance. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon shares of employer stock in the participant's account at year-end.

Note 1 – Plan Description and Basis of Presentation (Continued)

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's points to total points for the Plan year. Forfeited nonvested accounts allocated to participants at December 31, 2019 and 2018 were $281,552 and $219,673, respectively.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (*a*) the accounts of employees with rights in allocated stock (allocated), and (*b*) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company stock are reported at fair value. See Note 4 for discussion of fair value measurements.

Dividend income, if any, is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events through July 27, 2020, the date the financial statements were available to be issued.

Recently Issued Accounting Standards

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.

Note 3 – Investments

The Plan's investments at December 31, 2019 and 2018 are presented in the following table:

	2019		2018	
	Allocated	Unallocated	Allocated	Unallocated
Arch Legacy Ventures, Inc. stock:				
Number of shares	103,611	172,389	65,561	210,439
Cost	$ 9,739,434	$ 16,204,566	$ 6,162,734	$ 19,781,266
Fair value	$ 9,216,188	$ 15,334,012	$ 6,103,695	$ 19,591,905

The fair value per share of the Company stock as of December 31, 2019 and 2018 was approximately $88.95 and $93.10, respectively.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31,	
	2019	2018
	Level 3	Level 3
Investment in Arch Legacy Ventures, Inc. stock	$ 24,550,200	$ 25,695,600

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2019:

	Investment in Arch Legacy Ventures, Inc. common stock
Balance at beginning of year	$ 25,695,600
Unrealized depreciation in estimated fair value	(1,145,400)
Balance at end of year	$ 24,550,200
The amount of total losses for the period included in changes in net assets attributable to the change in unrealized losses relating to assets still held at the reporting date	$ (1,145,400)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the statement of changes in net assets (deficit) available for benefits.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

The Company stock held by the Plan is reported at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation technique consistent with prior years as illustrated in the following table. The appraiser ultimately based the valuation upon the discounted cash flow method.

Note 4 – Fair Value Measurements (Continued)

The valuation process involves the Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the historical and projected financial information of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses, and approves.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Arch Legacy Ventures, Inc. stock	$ 24,550,200	Income	EBITDA Net income Discount rate Discount for lack of marketability Tax shield
		Market	Public comparables Revenue multiple EBITDA multiple Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 – Note Payable

On February 21, 2017, the Company's owners sold 276,000 shares of stock to the Plan for $25,944,000 ($94.00 per share) under an ESOP Stock Purchase Agreement. Upon this transaction, the Plan entered into a $25,944,000 note with the Company.

Note 5 – Note Payable (Continued)

Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 38,050 shares being released and allocated for the Plan year ended December 31, 2019. The Plan had a contribution receivable from the Company at December 31, 2019 of $2,000,000 and a dividend receivable of $2,075,520 (see Note 6). These receivables were applied to additional principal payable related to allocated shares of $4,075,520. The Plan realized a share release related to this payable; however, for financial reporting purposes, the Plan does not release any shares until the debt service is actually paid. Therefore, the accompanying financial statements disclose all shares related to this payable as unallocated shares. Subsequent to year-end, the Plan received the contribution of $4,075,520 and paid the principal payable to the Company. The 2020 financial statements will disclose the shares related to this payment as allocated.

The note agreement provides for the loan to be repaid over 20 years, with payments being due on February 21 of each year. The fair value of the note payable as of December 31, 2019 and 2018, was approximately $16,200,000 and $19,800,000, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The scheduled amortization of the loan for the next five years is as follows: 2020 $1,271,003; 2021 $1,306,719; 2022 $1,343,437; 2023 $1,381,188; 2024 $1,419,999; and thereafter $9,444,950.

Note 6 – Dividends

The Company accrued a dividend to the ESOP of $7.52 per share or $2,075,520 during the year ended December 31, 2019. Dividends on allocated and unallocated shares in the amount of $2,075,520 were applied to debt service obligations in 2020. As required by the Plan Document, in 2020, the current appraised value of the shares returned to participant accounts in exchange for the use of such dividends was at least equal to the current value of such dividends.

Note 7 – Administration of Plan Assets

The Plan's assets, which consist of Company stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invest cash received, interest, and dividend income (if any) and make distributions to participants. The Trustee also will administer the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 8 – Related Party and Party-in-Interest Transactions

The Plan invests in Company stock and has indebtedness with the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 9 – Risks and Uncertainties

Certain Plan assets consist of the Company's stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the stock and to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in the value of the stock will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets (deficit) available for benefits. Additional Plan assets consist of a contribution and dividend receivable, which will be used to satisfy the debt service obligation.

Note 10 – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Committee directs the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and IRC.

Note 11 – Tax Status

The Plan has received a determination letter from the Internal Revenue Service, dated March 8, 2018, stating that the Plan is qualified under the IRC; therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 12 – Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of COVID-19 include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The impacts of COVID-19 and actions taken to mitigate it have had and are expected to continue to have an adverse impact on these economies and financial markets in which the Company operates. While it is unknown how long these conditions will last and what the complete financial effect will be to the Company and the Plan, the Company and the Plan may experience disruptions in its earnings that could have an adverse impact on the Plan's financial results.
