## 1. Plan Description

The following description of the Canvas Worldwide LLC Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

### a. General

The Plan, effective May 1, 2016, is a defined contribution plan covering all employees of Canvas Worldwide LLC (the Company) excluding leased and expatriate employees. Employees of the Company are immediately eligible except for hourly and temporary employees who must attain 21 years of age and complete one year of service (minimum of 1,000 hours). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### b. Contributions

Participants may contribute up to 90 percent of annual compensation in pre-tax or Roth deferrals, as defined in the plan document and allowed by law. Participants may also roll over eligible amounts from other qualified plans, including rollovers designated as Roth contributions. The Plan provides for automatic election of deferrals at a rate of 5 percent of compensation for all new participants. Participants may affirmatively elect a different deferral percentage or elect not to defer into the Plan. Participants who are deferring into the Plan through automatic election have their deferral percentages increased by 1 percent each year (not to exceed 10 percent). Company contributions are discretionary. For 2019, company contributions allocated to participants' accounts totaled $527,080, of which $370,605 was contributed by the Company and $131,124 was allocated from forfeitures.

During 2019, as a result of self-corrective measures, the Company also made $25,351 in qualified nonelective contributions.

### c. Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, if applicable, and the Plan's earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts into various investment options offered by the Plan.

### d. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the company contribution portions of their accounts plus actual earnings thereon is based on years of credited service. Participants vest at a rate of 20 percent per year until they are 100 percent vested after five years of credited service.

e. Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in a lump-sum or partial withdrawal. Participants may also take a financial hardship withdrawal under certain circumstances.

f. Forfeited Accounts

Forfeitures are used to reduce future company contributions and pay plan expenses. At December 31, 2019 and 2018, forfeited non-vested accounts totaled $299 and $62,794, respectively. During 2019, forfeited non-vested accounts were used to pay for $34,092 of the Plan's administrative expenses.

g. Notes Receivable from Participants

Participants may borrow the lesser of $50,000 (reduced by the participant's highest outstanding loan balance during the 12-month period ending on the date of the loan) or 50 percent of their vested account balance with a minimum loan amount of $1,000. Loan terms range up to five years, but may be extended if the proceeds are to be used for the purchase of a primary residence. Loans are secured by the balance in participants' accounts and bear interest at rates ranging from 4.5 to 6.5 percent. Principal and interest are paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the reporting period.

d. Payment of Benefits

Benefits are recorded when paid.

e. Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

f. Notes Receivables from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

g. Subsequent Events

The Plan has evaluated the subsequent events through August 7, 2020, the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

3. Risks and Uncertainties (Continued)

Additionally, on March 11, 2020, the World Health Organization recognized the spread of the coronavirus disease 2019 (COVID-19) as a pandemic. The impacts of the COVID-19 pandemic have been pervasive across the economy and created substantial volatility in financial markets. The situation continues to develop rapidly and considerable uncertainty remains with respect to potential outcomes. On March 27, 2020, the "Coronavirus Aid, Relief, and Economic Security (CARES) Act" became law. The CARES Act contains various provisions impacting qualified retirement plans and their participants. These provisions may be adopted by plans immediately while implementing amendments at a later date. These provisions include relief from the 10 percent withdrawal penalty for participants under the age of 59.5 years for coronavirus-related distributions, as defined in the law, of up to $100,000 per participant; higher limits on the amount of new loans participants may request and temporary relief from loan repayments on existing loans, and relief from required minimum distributions for retirement age participants. Whether or which of these provisions will be adopted by the Plan and when the plan documents will be amended for such is an ongoing development and not fully determinable at the time of the issuance of these financial statements.

4. Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

| | |
|---|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include<br>• quoted prices for similar assets or liabilities in active markets;<br>• quoted prices for identical or similar assets or liabilities in inactive markets;<br>• inputs other than quoted prices that are observable for the asset or liability;<br>• inputs that are derived principally from or corroborated by observable market data by correlation or other means.<br>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

4. Fair Value Measurement (Continued)

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

**Assets at Fair Value as of December 31, 2019**

| | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Mutual funds | $ 10,040,286 | $ - | $ - | $ 10,040,286 |
| Investments, at fair value | $ 10,040,286 | $ - | $ - | $ 10,040,286 |

**Assets at Fair Value as of December 31, 2018**

| | Level 1 | Level 2 | Level 3 | Total |
|---|---|---|---|---|
| Mutual funds | $ 5,938,735 | $ - | $ - | $ 5,938,735 |
| Investments, at fair value | $ 5,938,735 | $ - | $ - | $ 5,938,735 |

5. Tax Exempt Status

The Company has adopted a volume submitter plan document that received a favorable opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS). The plan administrator believes the Plan has been operated in accordance with the applicable provisions of the Internal Revenue Code (IRC). The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System. Accordingly, the plan administrator believes that the Plan is designed in accordance with applicable sections of the IRC and, accordingly, is exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Summary of Unaudited Information

The Trustee of the Plan certified certain information, which was not audited in accordance with the plan administrator's instructions and as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information certified by the Trustee consists of the following:

- Fair value of investments and the carrying amount of notes receivable from participants as reflected in the Statements of Net Assets Available for Plan Benefits as of December 31, 2019 and 2018.
- Investment income and interest income on notes receivable from participants as reflected in the Statement of Changes in Net Assets Available for Plan Benefits for the Year Ended December 31, 2019.
- Investment information as reflected in Note 4 to these financial statements.
- Investment information reflected in the Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019.

The Plan's independent public accountants did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Party-in-Interest Transactions

Fidelity Management Trust Company is the Trustee of the Plan and holds and manages investments. Transactions with Fidelity Management Trust Company are party-in-interest transactions, as defined by ERISA.

8. Plan Termination

The Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will immediately become 100 percent vested in their accounts.

Additional Information:

Fidelity may have provided non-monetary compensation, such as meals or business entertainment, to associates or service providers during the plan year for which this data is being reported. If you believe there are associates or plan service providers who have received total non-monetary compensation, from all sources of $5,000 or more, that are not reflected on this report, you may contact your Fidelity representative and ask for a detailed summary of non-monetary compensation provided during the plan year. For additional information, please refer to the Auditor's Guide.

Fidelity utilizes omnibus accounts at unaffiliated banks to facilitate transactions for the defined contribution plans it services as set forth in your trust or service agreement or letter of authorization. If markets permit, omnibus account balances are invested in short-term investments that generally earn a rate approximating the Target Federal Funds Rate and/or money market rates. These earnings are called "float" and are considered eligible indirect compensation for purposes of Schedule C. Fidelity uses these earnings to pay bank fees and make other required adjustments and generally retains any float earnings that exceed such fees and adjustments. Fidelity is responsible for paying bank fees to the extent they exceed float earnings.

Since the amount of float generated depends on the length of time that assets are held in the omnibus accounts, Fidelity adheres to the following specific time frames within which cash pending investment or distribution is held:

SCHEDULE C SUPPLEMENTAL REPORT

- If contributions are received by Fidelity in good order before the close of trading, Fidelity executes transactions in the investment options as of that day's closing price (the "transaction date" or "T"). Settlement of trades for most investment options occurs on the following business day ("T+1") or, in the case of certain securities including company stock, on T+2 (prior to September 5, 2017 the settlement period for certain securities including company stock was T+3).
- Exchange requests received by Fidelity in good order before the close of trading are processed in that day's nightly cycle. If investment options have identical settlement rules, exchanges between them generate no overnight balances, as money is received from one investment option and conveyed to another investment option on the same business day. If investment options have different settlement rules, balances attributable to exchanges may remain in the omnibus account for a few days if FMTC serves as trustee of the plan.
- Disbursement requests received in good order before the close of trading are processed in that day's nightly cycle, and reflected as debits from participant accounts as of that date ("T"). Proceeds attributable to disbursements are received from investment options or from the unaffiliated Plan trustee based on the settlement period for the investment options. Disbursements are made to participants on T+2 either through electronic funds transfers or by mailing a check. Disbursement proceeds distributed by check remain in the omnibus account until the check is presented for payment.
