1. Description of the Plan

The following description of the Fiber Composites, LLC 401(K) Plan (the Plan) is intended to provide only general information regarding the Plan. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering all employees of Fiber Composites, LLC (the Company), who are at least 21 years old and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is also the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan. Fidelity Management Trust Company (Fidelity) is the appointed trustee of the Plan, and acts at the direction of the Plan Administrator.

The Company was acquired by Fortune Brands Home & Security, Inc. (Fortune Brands), effective September 2018, and the Plan was eventually merged into the Fortune Brands retirement plans, effective November 1, 2019. See further discussion regarding Plan merger in Note 7.

Contributions

Participants may elect to contribute any percentage of their eligible compensation, not to exceed annual limitations, as provided by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Also, rollover contributions to the Plan are permitted, subject to the restrictions of the Plan Agreement.

The Plan has an automatic contribution provision, into which the Company enrolls the participants to make tax-deferred contributions in an amount equal to 4% of their eligible compensation as the automatic deferral percentage. An eligible employee may elect not to contribute to the Plan or elect to contribute a different percentage of compensation, as described above.

For the 2019 plan year, the Company contributed matching contributions equal to 50% of the first 8% of eligible compensation that a participant contributes to the Plan. Prior to the 2019 plan year, the Company contributed matching contributions equal to 25% of the first 8% of eligible compensation that a participant contributes to the Plan.

The Company can also elect to contribute a discretionary profit-sharing contribution, as determined by the Company's executive management. Company discretionary profit-sharing contributions are allocated to the accounts of the individuals who are participants in the Plan on the last day of the Plan's year for which such contributions are made and who meet the eligibility requirements as defined. Company discretionary contributions are allocated based on the compensation of all eligible participating employees. No such contributions were made during 2019.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and losses. The allocation of earnings and losses is

performed based on individual participant account balances. The benefit to which a participant is entitled is the benefit that can be provided for the participant's vested account.

Investment Options

Each participant may direct their contributions in any of the investment options available under the Plan.

Vesting

Participants are immediately vested in their voluntary contributions plus the annual allocation of Plan earnings on those contributions at the time of allocation. Participants become fully vested in the Company contributions and the annual allocation of Plan earnings on those contributions, as follows:

Completed Years of Service	Vested (%)
Less than 2 years	-
2 years	25
3 years	50
4 years	75
5 years	100

Upon death, disability or attainment of normal retirement age, a participant will become fully vested in his/her account.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Note terms range from one to five years, or up to ten years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions. All outstanding loans were transferred out of the Plan by the end of October 2019, as discussed in Note 7.

Payment of Benefits

On retirement, death, disability, termination of service, or attainment of age 59½, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum amount equal to the value of his or her vested account. Hardship withdrawals from the Plan are permitted, subject to the limitations imposed by the IRC.

Forfeitures

Participants in the Plan who leave the employment of the Company before completing applicable vesting requirements forfeit the non-vested portion of the Company contributions to their accounts. At October 31, 2019 and December 31, 2018, forfeited non-vested accounts totaled $0 and $44,546, respectively. Forfeitures are used to reduce Company contributions or to pay administrative expenses related to the Plan. For the ten-month period ended October 31, 2019, forfeitures of

$67,666 were used to reduce Company contributions and $27,140 were re-allocated to participants due to the Plan merger, as discussed in Note 7.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest and are secured by the balance in the respective participant's account. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income on notes receivable from participants is recorded when it is earned. A receivable is considered past due if payment has not been received within stated terms. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan document. No allowance for credit losses has been recorded for the ten-month period ended October 31, 2019.

Excess Contributions Refundable

Amounts refundable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. At October 31, 2019 and December 31, 2018, excess contributions refundable amounted to $21,778 and $54,996, respectively. The Plan distributed the 2018 excess contributions to the applicable participants in 2019. The 2019 excess contributions were distributed to participants in 2020, subsequent to the plan merger – see Note 7.

Contributions

Participant and Company matching contributions are recorded weekly when the Company remits the payroll deductions for investment into the Plan.

Payment of Benefits

Benefits are recognized when paid to participants or their designated beneficiaries.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company, unless the Company directs that the expenses be paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Notes receivable from participants set-up and maintenance fees are paid directly by the participants through a reduction in their account and are included in administrative expenses. Investment management and recordkeeping fees, if applicable, are paid by the Plan through revenue sharing as a reduction of investment income (net appreciation or depreciation) from the related investment fund.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options with various investment objectives. Investment securities are exposed to various risks, such as interest risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Management has evaluated subsequent events through and including August 13, 2020, which is the date these financial statements were available to be issued. As discussed in Note 7, the Plan was merged effective November 1, 2019.

3. Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy and inputs to the valuation methodologies are described as follows:

Level 1 – This level consists of inputs that are unadjusted quoted prices in active markets for identical assets the Plan has the ability to access.

Level 2 – This level consists of inputs that are other than quoted prices in active markets that are observable either directly or indirectly for the asset. Such inputs are derived principally from or

corroborated by observable market data for similar assets by correlation or other means, over substantially the full contractual term of the asset, if applicable.

Level 3 – This level consists of inputs that are unobservable and significant to the fair value measurement. Such inputs generally rely on the Plan's own assumptions about the assumptions that market participants would use in pricing the asset.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust Fund - The Plan invests in the Mellon Stable Value Fund of the Bank of New York Mellon, an investment vehicle that invests in fully benefit-responsive investment contracts, government securities, pooled separate accounts and other investment companies. It is valued at the NAV of units of a collective trust. The NAV, as provided by Bank of New York Mellon, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Unit values are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. There are no unfunded commitments or redemption restrictions for the individual participants within the Plan, however, there is up to a 12-month redemption for this investment at the Plan level.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

December 31, 2018

	Level 1	Level 2	Level 3	Total
Investments, at fair value				
Registered investment companies, measured at fair value	$ 7,352,983	$ -	$ -	$ 7,352,983
Common/Collective Trust, measured at NAV*	-	-	-	269,809
Total Investments	$ 7,352,983	$ -	$ -	$ 7,622,792

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the line items presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA as of October 31, 2019 and December 31, 2018, and for the ten-month period ended October 31, 2019. Accordingly, the Plan's trustee, Fidelity Management Trust Company, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the accompanying statements of net assets available for benefits as of October 31, 2019 and December 31, 2018
- Investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the ten-month period ended October 31, 2019

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by the trustee to the related information included in the financial statements.

5. Tax Status

The Plan adopted a volume submitter plan from Fidelity Management & Research Company, which received an opinion letter from the IRS on March 31, 2014 stating that the volume submitter plan document, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes that the Plan is designed, and currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Related-Party Transactions and Party-in-Interest Transactions

Plan investments are held and managed by Fidelity, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Plan made direct payments to Fidelity for investment management services and administrative fees totaling $47,232 for the ten-month period ended October 31, 2019. Notes receivable from participants also qualify as party-in-interest transactions.

7. Plan Merger

The Company was acquired by Fortune Brands during 2018. Effective November 1, 2019, the Company adopted the Fortune Brands retirement plans, and the assets, liabilities and account balances attributable to the Company's salaried participants in the Plan were merged into the Fortune Brands Home & Security, Inc. Retirement Savings Plan, while the assets, liabilities and account balances attributable to hourly participants in the Plan were merged into the Fortune Brands Home & Security, Inc. Hourly Employee Retirement Savings Plan. Total transfers from the Plan were $10,415,555 for the ten-month period ended October 31, 2019.
